Dan,

Steve Obie received the below comment from a member of the public. Can you please put this in the comment file for position limits on the website?

Thanks,
Ali

Subject: Silver Position Limits and the Law

Honorable Mr. Obie:

I am grateful that at least one of your Commissioners has invited public comments prior to the mid-January (Jan. 17) target date set by the Dodd-Frank Law for Mandatory Position Limits.

These speculative position limits are most desperately needed for silver futures. We are a nation of laws, are we not? The hour is late because imminent physical silver shortage will overwhelm the Criminal manipulative short sellers, most notably JPMorgan Chase.

I am a retired high school Chemistry teacher who has written to your Commission many times.

Let us all anticipate the bright day of free markets in silver!
