Dan,

Below is another email received by Steve Obie from a member of the public. Can you please put this in the comment file for position limits on the website?

Thanks,
Ali

Subject: CFTC Dead in the Water

Dear Sirs and Members of CFTC

Notice I did not say Honorable Members as I reserve that for later

Well you have had two prior investigations of the silver market and now one investigation that just seems to go on and on without anyone on the CFTC really caring other than maybe Bart Chilton ----So tell me what is the problem with abiding by the law or are you people thinking you are above the law... I still am holding some hope that there is some honor in the CFTC but my hope is fading ... So get a backbone and stand up for the right thing as we have a crime in progress!!!!!

WHAT MORE DO YOU NEED?

On January 17, 2010 the CFTC is required BY LAW to implement position limits in the COMEX silver market. This date is not a suggestion but a hard fact of law. On January 18th the CFTC will be in violation of this law and the newly appointed CFTC Commissioners should be removed from their post immediately if this law is not followed to the letter. If the CFTC does plan on "missing" this deadline...

QUESTION: Under what legal authority does the CFTC have the ability to disobey the laws of the US Congress?

Our patience with the CFTC is wearing very thin. We have endured 2 botched silver investigations, one NEVER ENDING silver investigation that should be a slam dunk and now a potential violation of Federal Law all the while silver market participants are being ROBBED DAILY BY CRIMINALS ON THE COMEX after making the very sound decision to invest in silver.
