Subject: Proposed Amendment to Rule 36.3(b)

Sir,

Relative to the Commission's proposed amendment to Rule 36.3(b) as set forth in Federal Register, Vol. 68, No. 227, Tuesday, Nov. 25, 2003 (68 FR 66032), I am trying to asses the ramifications of the proposed amendment upon the activities of TradeSpark, an exempt marketplace as per section 2(h)(3) of the Commodity Exchange Act.

At the heart of the proposed rule is a requirement that each exempt marketplace operator "Provide the Commission with access to the facility's trading protocols...."

I ask for a clarification as to exactly what "access to trading protocols" does entail and how a marketplace operator would reasonably provide access to its trading protocols.

Any edification you may be able to proffer would be quite welcome.

Best Wishes,
Charles Satterfield
