Subject: Fw: Missing COT data

Sorry, the current data should have said 12 Sept as corrected below.

Subject: Missing COT data

Good day,

In the COT data release of 5th September 2006 you included for the first time data on "EURO FX/BRITISH POUND XRATE - NEW YORK BOARD OF TRADE " as the very last item. However, this week's release (12th Sept) does not contain any data relating to this currency pair. Could you kindly confirm if this was an oversight or if the previous week's data was a one-off as this has an impact on my database.

Thank you very much and have a great weekend.

Regards,

Mr. G.A. Betts
