Subject: COT REPORT

RECEIVED

OFFICE OF THE SECRETARY

Dear Secretary,

As a individual trader I am concerned that the CFTC would consider not continuing with the reports as they have. They are highly important to my trading decisions. I even use software that incorporates the information into the charts. I'm sure many other traders use this also. To discontinue this valuable service would be of a great disservice to many traders. We need the continuation of the reports with historical data.

Please add this letter to hopefully many others in support of the ongoing service of the COT reports.

Also it would be welcome to correct the way the Hedger Data is currently reported.

We thankyou in advance for your consideration of the needed continuation of these reports, as they are greatly used by traders around the world.

Sincerely,
Tom Watkins
