OFFICE OF THE SECRETARY

Dear Eileen Donovan

In response to your request for comments about the COT report, I am therefore deeply concerned that the CFTC would even consider discontinuing such a popular and insightful service. Your own site shows close to 500,000 users last year.

As an individual trader, I rely heavily on the COT report to assist me in making market decisions.

I urge you to continue publishing the reports. They are a valuable tool for investors throughout the world.

Thank you for keeping our markets transparent with full disclosure to the public.

The COT report information cut-off is a Tuesday, but is released on Friday. It would be more useful if the data were released on the same day as the cut-off.

God Bless and please save the COT Report  
Best Regards  
Rebecca
