COMMUNICATIONS

Dear Sir or Madam,

The COT Report provides information about market dynamics and investor preference, particularly among "Whales" (who are huge market forces) that provide ordinary investors, the Little Guy, access to help to level the playing field. Eliminating the COT Report will damage the interests of the small investor, which I do not think is your intent. Please continue to make the markets transparent, worthy of a free society.

Respectfully,

Ronald P. Sen, MD
Melrose, MA
