Subject: COT reports

2006 JUL 21 11 09 AM
CFO, OF THE SECRETARIAT

I believe that the government of the usa is trying to silence the small investor and eliminate him(her) from all consideration by the elimination of the (M3 report and the) COT report. All of the BIG players will have access to the information "at will" and not only on a weekly basis but daily or more often, while all of the small investors will have to guess as to what is going on in the markets.

I respectfully request that plans to eliminate the COT report be reconsidered and then scrapped in total. Advances in technology have made it much easier and much more cost effective to collect and disseminate information and I see no benefit to be gained by the government by making everything more difficult for the individual investor and providing the BIG players with more significant advantages.

Thank You for your consideration
Walter Wright
