C.F.C. OF THE SECRETARIAT

To whom it may concern,

It has been brought to my attention that the CFTC is considering stopping the release of COT data on August 21st. I think this is outrageous, the only thing that the CFTC should consider is releasing this data in a more timely manner (like every day) to allow more transparency in the markets and to prevent abuse by Commercial traders and Hedge Funds. If the CFTC does quit providing this data it will prove to me that there is no thing as a free market left in the US. For the sake of the US and its people I hope the CFTC does not allow this to happen. Thanks for your help,

Maria Barcia
