COMMODITY FUTURES  
TRADING COMMISSION  
RECEIVED FOR  
PUBLIC RECORD

Dear Ms. Webb,

I am writing to express my firm's  
support for the application of Cantor  
Financial Futures Exchange, Inc. as a  
contract market in futures contracts.  
Our support is based on our belief  
that the use of technology in  
facilitating trading directly benefits  
our clients in several ways. The more  
automation that is brought into the  
trade execution process, the fewer  
trade errors will occur, speed of  
execution will increase, costs of  
execution will decline and information  
on the markets' liquidity will be more  
readily and widely available.

It is our opinion that competition,  
especially competition that uses  
technology wisely, will do a great deal  
to enhance the efficiency of the market  
place. In the interest of our clients,  
we hope the commission approves CFFE's  
application.

Sincerely,

Peter B. Mauthe, President  
Trendstat Capital Management, Inc.
