COMMENT

Chairman William Cairns,

'99 DEC 29 AM 9 56

OFFICE OF THE SECRETARIAT

My name is Zott Gilbreath, Cotton farmer - client of KCI Seminars and CCF fax subscriber.

I received one of Kent Calhoun's ads and thought it was put together very well. So well I bought his 5 most instructive technical lessons video. This video was so good I attended his seminar in Dallas, Tx August 1999. This seminar was what I know as the best available to the American public. Kent taught me more in 2 days than I've tried to teach myself in 17 yrs of trading.

His teaching, software, faxes are invaluable to me.

I'm amazed each day that I watch market's how Kent's work will be the final tools I've been looking for these last 17, quibling years.

His weekly faxes that I've been receiving since August are a very large part of my continuing education.

The purpose of the CFTC is to protect the public, not harm them. I know without Kent Calhoun CCF weekly faxes I will be greatly harmed financially and

crippled in my learning process.

Not only is the CFTC action against
Sant Calhoun a diservice to me but you
are denying the public his teachings,
which they so desperately need.

Much to the disain of the public and
America's historical, economical, and
sociological structure, it has taken a
step backward.

After reviewing the charges against
Sant Calhoun I conclude that he has done
nothing wrong, all charges should be dropped
immeditly.

He should be praised for his teaching
correct market analysis.

I pray you will consider my views for
they are true and correct.

Respectfully,
Ett Gilbreath
