Re: Proposed KCBOT wheat contract rule enhancements

Dear Ms. Donovan:

We are writing to express our support for proposed changes by the Kansas City Board of Trade to the wheat futures contract, which were outlined to you in a letter dated June 21, 2007 from Jeff Borchardt, KCBOT President.

Specifically:

1. Additional Delivery Locations
2. Contract Location Differentials
3. Eliminating #3 HRW as Deliverable Grade
4. Maximum 10 IDK per 100 Grams
5. Increased Load-out Fee
6. Increased Storage Fee
7. Load-out Rate changes
8. Maximum 5 cents Per Bushel Reissue Fee

In particular, we see added delivery points as a benefit to producers. Also, with increasing quality demands from foreign buyers, eliminating #3 HRW as a deliverable grade will enhance the quality of wheat in the marketing system. Again, we support the proposed changes as outlined by the KCBOT and the suggested July 2008 contract month implementation.

Sincerely,

Dusti Fritz, CEO
