Rule 6.57, Post-Close Trading Session. Fifteen (15) minutes after the close of trading in all energy futures **and option** contracts traded on the NYMEX trading floor, or five (5) minutes after the closing range is established for all applicable contract month other than contract months in the Sour Crude Oil futures contract, whichever is later, trading shall resume for a period of two (2) minutes (the "Session") in all energy and metals futures **and option** contracts, subject to the following conditions:

- (A) Trading during the Session shall be limited to the first twelve (12) listed delivery months;
- (B) There shall be no maximum limits on the trading range in a Session and all trades occurring during the Session for a particular contract month of a futures contract shall be executed openly and competitively.
- (C) During the Session, Floor Members, Floor Brokers and their customers may participate in the same manner as trading occurring during the regular RTH session, except that any order submitted during the RTH session, including but not limited to resting orders such as stop orders, limit orders and good until cancelled (GTC) orders, will be deemed to have expired as of the end of RTH for purposes of this Session. Accordingly, in the event that a market participant with such an expired order seeks to participate in the Session, a new order must be submitted.
- (D) Prices for trades executed during the Session shall be reported on public ticker services as current market prices and trades executed during the Session shall not be considered in determining any settlement price; and
- (E) Floor Members executing trades during the Session shall mark a line across their trading cards prior to the entry of a Session trade.
- (F) Prohibition on Cross-Trades. A Floor Member who has in hand at any time in the post-close session buy and sell orders of different principals for the same commodity for future delivery in the same delivery month shall not execute such orders directly between such principals.
