Re: CBOE Futures Exchange, LLC Rule Certification
Submission Number CFE-2006-18

Dear Ms. Donovan:

Pursuant to Section 5c(e)(1) of the Commodity Exchange Act, as amended ("Act"), and §40.6(a) of the regulations promulgated by the Commodity Futures Trading Commission under the Act, CBOE Futures Exchange, LLC ("CFE") hereby submits an updated CFE Fee Schedule. The updated CFE Fee Schedule is marked to show changes from the current CFE Fee Schedule (additions are underlined and deletions are ~~stricken~~). The fees set forth in the updated CFE Fee Schedule will become effective on November 1, 2006 and will continue in effect until otherwise amended or modified by CFE.

The updated CFE Fee Schedule reflects the addition of Transaction fees for the CBOE S&P 500 BuyWrite Index ("BXM Index") futures contract, which was initially listed for trading on October 2, 2006. As with all new CFE products, Transaction fees for BXM Index futures are waived through the last day of the second calendar month in which the product is traded, and accordingly Transaction fees for BXM Index futures will begin to be assessed on December 1, 2006. The updated CFE Fee Schedule also reflects the deletion of Transaction fees for CBOE PowerPacks Index futures contracts and Russell Index futures contracts, which were delisted on July 3, 2006, and the deletion of Transaction fees for CFE's Gas At The Pump futures contracts, which were delisted on October 31, 2006. Lastly, the updated CFE Fee Schedule reflects the addition of a supplemental \$0.75 Transaction fee for Block Trades and Exchange of Future for Related Position transactions, which becomes effective on November 1, 2006. This supplemental Transaction fee is in addition to the regular Transaction fees applicable to the transaction.

CFE is not aware of any substantive opposing views to the updated CFE Fee Schedule. CFE hereby certifies that the updated CFE Fee Schedule complies with the Act and the regulations thereunder.

(For example, if the new product begins trading on April 5th, the Transaction fees for the product would be waived through May 31st).

² Including non-CBOE member permit holders that are majority owned by a CBOE member.

³ Billed monthly. These fees are payable by all Trading Privilege Holders, Authorized Traders and Vendors (including Vendors that distribute only historical data) purchasing direct connectivity from CFE. (These fees do not apply if adequate data line capacity between CBOEdirect and the server of a Trading Privilege Holder, Authorized Trader or Vendor is already in place.)

4. Market Data Fees:

A. <u>Vendor Connect Fees:</u> ⁴	<u>Amount</u>
• All Vendors	\$1,200/year

Market Data fees questions may be directed to Tom Knorrning at 312-786-7363 or knorrning@cboc.com

⁴ Billed annually. CFE bills all Vendors that either receive a data feed directly from CFE or receive data from a data feed from another CFE Vendor rather than directly from CFE. CFE Vendors that distribute only historical data are not obligated to pay Vendor Connect fees. In addition, these fees are waived with respect to any Trading Privilege Holder or Authorized Trader that is a Vendor solely by reason of distributing CFE market data to its Customers if it receives the market data directly from CFE (*i.e.*, not through a Vendor) and distributes the market data directly (*i.e.*, not through another Vendor) to its Customers. All Vendor Connect fees for any new Vendor that has not previously acted as a CFE Vendor will be waived through the end of the sixth calendar month following the last day of the month in which the Vendor begins to receive market data from CFE. (For example, if a Vendor receives market data from CFE commencing on April 5th, Vendor Connect fees would be waived through October 31. Vendor Connect fees payable by the Vendor for the remainder of the year would be pro-rated.)

⁵ Billed monthly. These fees are payable by each Vendor, based either on the number of Devices or the number of Authorized Users to which it disseminates CFE market data. Vendors that distribute only delayed data and/or historical data are not obligated to pay these fees. These fees are waived with respect to the Devices/Authorized Users of Trading Privilege Holders and Authorized Traders receiving CFE market data directly from CFE (*i.e.*, not through a Vendor), and are also waived with respect to the Devices/Authorized Users of any Customer of such a Trading Privilege Holder or Authorized Trader if the Trading Privilege Holder or Authorized Trader is a Vendor and the Customer receives the CFE market data directly (*i.e.*, not through another Vendor) from the Trading Privilege Holder or Authorized Trader. These fee waivers are available only to Trading Privilege Holders and Authorized Traders that comply with the reporting requirements of CFE Rule 408. See CFE Rule 126 for the definition of the term "Customer" and CFE Rule 408 for the definitions of the terms "Device" and "Authorized User".

⁶ Book Depth provides the five price increments closest to the surface quote on each side of the market.
