Ownership and Control Reports Forms 102A/102B/102S, 40/40S, and 71 Technical Guidance Document April 29, 2014 Version 3

CFTC

Commodity Futures Trading
Commission

This Technical Guidance Document (the “Technical Document”) provides technical specifications for transmitting Forms 102A, 102B, 102S, 40 and 71 via FTP XML submissions. This Technical Document is for informational use only, and is not a legal document. It is intended as a supplement to the OCR Final Rule (as defined below), which rule contains the regulatory requirements applicable to parties submitting the forms described above. When reviewing this Technical Document, reporting parties should review and consult the OCR Final Rule, including the requirements of the reporting forms attached as an appendix thereto. This Technical Document was drafted consistent with the OCR Final Rule, and all relevant communications from Commission staff are also intended to be consistent with the OCR Final Rule. In the event of any conflict between the requirements of the OCR Final Rule (including the questions and instructions on the reporting forms attached thereto) and either (a) this Technical

Document or (b) any verbal communications by Commission staff regarding this Technical Document or the OCR Final Rule, the OCR Final Rule controls.

3	4/29/2014	Removed duplicative row in Supplemental List III in Appendix B

Introduction

On November 18, 2013, the Commodity Futures Trading Commission (“Commission” or “CFTC”) adopted new rules and related forms to enhance its identification of futures and swap market participants (the “OCR Final Rule”). These final rules leverage the Commission's current position and transaction reporting programs by requiring the electronic submission of trader identification and market participant data on amended Forms 102 and 40, and on new Form 71. The new and amended forms require the reporting of certain trading accounts active on reporting markets that are designated contract markets or swap execution facilities. Among other information, the forms collect ownership and control information with respect to both position-based special accounts and trading accounts that meet specified volume-based reporting levels. This Technical Document is intended to provide technical specifications for transmitting Forms 102A, 102B, 102S, 40 and 71 via FTP XML submissions. At a later date, either an additional guidance document or an updated version of this document will be provided for registration and submission procedures in connection with the web-based CFTC Portal.

OCR Final Rule

When reviewing this Technical Document, reporting parties should review and consult the OCR Final Rule, including the requirements of the reporting forms attached as an appendix thereto. Reporting parties should visit this link¹ to view the OCR Final Rule on the Federal Register; visit this link² to view a pdf copy of the OCR Final Rule.

Technical Requirements

Please forward questions regarding format, content, and transmission of OCR data submissions to the CFTC at OCRTechSupport@cftc.gov.

OCR Submission Procedure(s)

There are two methods for submission of OCR related data – 1. CFTC Secure FTP or 2. CFTC Portal Electronic Form:³

CFTC Secure FTP

1. Create the report(s) and consolidate the report(s) into an XML-formatted file.
2. Name the file(s) using the OCR Reporting file name format.
3. Assemble and compress the files.
4. Connect to the CFTC FTP site.
5. Transmit the electronically formatted records to the Commission using Secure FTP.

Name the File(s) for XML submission

File Naming Convention – Batch Submission

- The file name for submission should be created in the following manner:

¹ <https://www.federalregister.gov/articles/2013/11/18/2013-26789/ownership-and-control-reports-forms-102102s-4040s-and-71>

³ See preceding Introduction for information regarding guidance on the Portal.

OCRFORM_[FORMNUMBER]_[IDENTIFIER]_[YYYYMMDD]_[SOURCE].format

File Naming Convention - Test Files

- Data providers can test their submissions by appending the string “TEST” to the end of their file names.

OCRFORM_[FORMNUMBER]_[IDENTIFIER]_[YYYYMMDD]_[SOURCE]_TEST.f

Your firm can contact our Technical Support representative at (TBD)

OCRTechSupport@cftc.gov to verify the results of test data you have submitted.

FORMNUMBER:

Form Number Submitted in File	FORMNUMBER in File Name
Form 102a, 102b, or 102s	102
Form 71	71
Form 40	40

For each different form number submitted send a separate XML file. For example, if you are submitting both a Form 102 and 71, they should be separate XML files. Also note for multiple submissions of the same form number they can be included in a single XML file. For example, if you are submitting multiple Form 102s, they can be in a single XML file.

IDENTIFIER:

This field is the 3 character identifier provided by the CFTC during the account registration process.

YYYYMMDD:

This field is the year (4 digits), month, and day of the report date.

SOURCE:

This field is the 1 character identifier which will be used to identify the origination of the file.

File Origination	SOURCE in Filename
Secure FTP Batch Submission	E

FORMAT:

Format of the File	FORMAT in Filename

Assemble and Compress the File(s)

The files should be compressed using an industry compression tool. Possible compression utilities are WinZip or GZIP. WinZip is available at <http://www.winzip.com>, and the GZIP utility is freely available at <http://www.gzip.org>.

Connect to CFTC with Secure FTP

The CFTC uses Secure FTP (SFTP) to receive files. Reporting parties that are transmitting files to the CFTC will need to obtain a Secure FTP client that is FIPS 140-2 compliant. Through the Secure FTP client, reporters can navigate to traders.cftc.gov and use their User ID and password to login and transmit XML submission files.

Reporting parties' SFTP account is already configured to require a password. If reporters want to bypass the password requirement, they will need to generate a Key Pair and send an email to FtpSupport@cftc.gov which issues reporters' Public Key and User ID. Reporters should keep their Private Key secure and only use it to communicate with the CFTC. The CFTC can accept two types of Keys: SSH Version 2.0 RSA key pair with bit strength between 2048 - 4096 or SSH Version 2.0 DSA 1024 bit key pair.

Many OCR reporting parties may already have FTP or SFTP accounts. Reporting parties with SFTP accounts can continue to use those accounts for OCR reporting. New reporters who do not already have an SFTP account, or reporters who only use non-secure FTP accounts, must request a Secure FTP account from the CFTC. See Appendix A to this Technical Document for FTP registration steps.

Transmit the File(s)

Transfer the compressed file(s) using normal FTP commands.

Upon receipt of the file, software at the CFTC will ingest the file through our firewall and begin processing the data.

Appendix A: SFTP Account Registration

To register an SFTP account:

1. Browse to the Account Creation Page on the Commission's website, <https://services.cftc.gov/CreateCFTCAccount/CreateLoginAccount.aspx>.
2. Confirm that you have read the agreement and agree to abide by its terms by selecting the **Agreement to Terms of Use** check box and clicking **Agree**.

CFTC DATA SUBMISSION ACCOUNT CREATION & USER REGISTRATION

These terms of use apply exclusively to your access to, and use of, CFTC data submission systems and do not alter in any way the terms or conditions of any other agreement you may have with the CFTC.

These terms of use may be changed at any time without notice by the CFTC.

If any provision of these terms of use shall be deemed unlawful, void, or for any reason unenforceable, then that provision shall be deemed severable from these terms of use and shall not affect the validity and enforceability of any remaining provisions.

User ID and Password

A unique User ID and Password will be generated by the CFTC and e-mailed to the e-mail address you provide. You agree to notify the CFTC immediately if you have reason to believe your password has been lost or stolen; your account has been accessed improperly; or attempts have been made to access your account without your permission.

Only one individual or entity can use each User ID and Password. Accounts are non-transferable.

User IDs and Passwords may be used only to submit valid data and may not be used for any fraudulent purposes. The CFTC reserves the right to reset any Passwords that have been lost or stolen or have not been used for more than 120 days.

Privacy Act Disclosure

The CFTC is authorized to collect reports and information from traders with derivatives positions pursuant to, among other sections, Sections 2(d), 4i, 4t and 8 of the Commodity Exchange Act (7 U.S.C. 2(d), 6i, 4t and 12). The information requested is used generally to gather information concerning the size and composition of the derivatives markets and to facilitate the CFTC's market and financial surveillance responsibilities. Information collected may be used by the Commission for investigations or litigation and, in limited circumstances, may be made public in accordance with provisions of the Commodity Exchange Act. Information may also be disclosed to other government agencies, and, in certain situations, it may be disclosed to any "registered entity" (as defined in Commodity Exchange Act Section 1a), to any registered futures association registered under Section 17 of the Commodity Exchange Act, and to any national securities exchange or national securities association registered with the Securities and Exchange Commission to assist those organizations in carrying out their self-regulatory responsibilities under the Securities Exchange Act of 1934, 15 USC 78a, *et seq.*

The complete listing of routine uses of the information contained in these records, in accordance with the Privacy Act, 5 U.S.C. §522a, and the Commission's rules thereunder, 17 CFR Part 146, is found in the Commission's compilation of its System of Records Notices, 76 Fed. Reg. 5974 (February 2, 2011), as may be amended. Disclosure of the information requested is mandatory for covered individuals and organizations, and failure to comply may result in the imposition of criminal or civil sanctions.

Supplemental List III: List of Business Purposes of Commodity Derivatives Trading

Business Purpose Code	Business Purpose Name	Business Purpose Description	Business Purpose Example
11	Offsetting Cash or Spot Market Input Price Risk	Using derivative markets for commodities that are direct inputs or purchases for your business so as to offset price risk associated with your purchase of these inputs	You are a grain processor, so you use wheat futures to offset the price risk incidental to your cash purchases of wheat
12	Offsetting Cash or Spot Market Output Price Risk	Using derivative markets for commodities that are direct outputs or sales of your business so as to offset price risk associated with your sale of these outputs	You are a gasoline refiner, so you use gasoline futures to offset price risk associated with your production of gasoline
13	Offsetting Other Cash or Spot Market Price Risks (Cross Price Risk)	Using derivative markets for a commodity that is not a direct input or output of your business, but which has significant price correlations with the direct inputs or outputs of your business	You manufacture ethanol which is used as an additive in and competitor for gasoline as a combustive fuel. While you neither directly consume nor produce gasoline, you may find that the price you receive for your ethanol product is highly correlated with the price of gasoline, and therefore you reduce ethanol price risk by using gasoline futures contracts
14	Other Physical Risk Management Strategies	Managing other price risks incidental to the operation of your business or physical assets through the use of commodity derivative markets	You are a manufacturer with significant international sales, so you use foreign currency futures to offset risks associated with changes in the competitiveness of your exports and therefore the value of your physical assets such as production plants, land, machinery, etc
15	Client Futures/Options Trading	Fulfilling customer/client desire for portfolio diversification or exposure to various asset classes through your	You collect funds and execute trading strategies through the use of futures/options markets at the expressed intent and for the

Business Purpose Code	Business Purpose Name	Business Purpose Description	Business Purpose Example
		activity as a Commodity Pool Operator, Commodity Trading Advisor, or other similar role	sole benefit of clients
16	Managing Client Swaps Exposure	Reducing risk stemming from holding or executing swaps contracts on behalf of clients or customers through the use of futures/options markets	You sell crude oil swaps to a client and agree to accept the risk inherent in the index price. You offset this risk through purchases of crude oil futures, in effect transferring price risk from the client to another market participant
17	Making Markets/Providing Liquidity	Engaging in derivatives transactions to assume risk and help transfer ownership of derivative positions from one market participant to another, realizing the bid-ask spread as the return	You accept risk by buying and selling futures/options contracts so that other traders can move into and out of positions when they wish. You then find other traders willing to take the other side of those transactions
18	Arbitrage	Using derivative markets as part of a strategy designed to realize risk-free profit from pricing anomalies	You realize that the wheat futures contract is trading at a discount (even after considering storage, transport, etc.) relative to the wheat cash price, and therefore find it profitable to purchase the wheat futures contract, take delivery, and then resell the wheat in the cash market for a risk-free profit
19	Establishing Price Exposure	Using derivative markets as a way to express your belief in the future movement of market prices. This strategy does not involve offsetting risks incidental to your business, but instead involves directional trading	You conduct research and believe that crude oil prices are due to rise, so you take long futures positions in crude oil to profit from your predictions
20	Financial Asset Management	Using derivatives to diversify,	You hold Treasury bonds as a component

Business Purpose Code	Business Purpose Name	Business Purpose Description	Business Purpose Example
		rebalance, or otherwise allocate financial assets so that risks to the value of the investment portfolio are reduced. This strategy is used by entities such as pension funds and endowments to manage overall risk to their financial portfolios	of your investment portfolio, and use futures contracts to reduce overall portfolio risk that would result from falling bond prices
21	Managing Proprietary Swaps Exposure	Reducing risk stemming from your proprietary holding or execution of swaps contracts through the use of futures/options markets	You trade interest rate swaps as part of your business or investment strategy, and offset some of the risk inherent in those swaps through your use of Eurodollar futures markets
22	Other: Specify	List and explain your business purpose if the above categories do not adequately describe the reason you trade in a particular commodity derivative market
