SUPPLEMENTARY INFORMATION:

I. LabCFTC

The purpose of LabCFTC is twofold: First, to encourage responsible FinTech innovation in the markets the CFTC oversees, and second, to help accelerate Commission engagement with FinTech solutions that may enable the CFTC to carry out its mission responsibilities more effectively and efficiently. LabCFTC offers an additional, dedicated point of contact for FinTech innovators to engage with the CFTC, learn about the CFTC's regulatory framework, and obtain feedback on the implementation of innovative ideas for the market. Such feedback may include information that, particularly at an early stage, could help innovators/entities save time and money by helping them understand relevant regulations and the CFTC's oversight approach. LabCFTC also is designed to

foster and increase the CFTC's familiarity with FinTech and its understanding of new technology that may have application within the CFTC's own operations through collaboration with FinTech industry and CFTC market participants. To accomplish CFTC's goals, LabCFTC will facilitate: The monitoring of trends and developments to ensure that CFTC's regulatory framework supports—and does not unduly impede—responsible technological innovation; the promotion of information-sharing about applications of FinTech, including potential use cases, benefits, risks, and solutions; the engagement with academia, students, and professionals on application of FinTech relevant in the CFTC space; and the CFTC's participation in studies and research that promote responsible FinTech innovation. Previously, this information was generally collected under CFTC-2, Commission Correspondence files.
