Subject: Desperate Need for Position Limits in Silver Futures

Honorable Officials:

Commodities generally had a decent day on Wednesday, 12/9:

Corn rose 2.24%

Orange juice rose 3.33%

Natural gas rose 4.85%

Yes, there were declines but the worst I saw was Coffee, down 1.61%

Therefore I trust that you are Rigorously Investigating why silver fell 5.12%!! Its sister precious metal, gold, fell only 1.83%.

Thank you,

Robert L. Taylor
