Subject: REVISION OF FEDERAL SPEC POSITION

I am sending this to voice my disagreement to allowing the funds to have expanded spec positions. As an industry we cannot continue on our present course. Although I recognize the need for speculation in the futures market it must have limits on it. The futures markets were set up to help the country elevator, farmers and grain traders protect their financial positions in the grain market. Lets don't allow big money to take over. We are headed for a train wreck in the agriculture industry if this is allowed to happen.
