

Exhibit C – Board of Directors.

Attach as Exhibit C, a narrative that sets forth the fitness standards for the Board of Directors and its composition including the number or percentage of public directors.

1. Introduction

BGC Derivative Markets, L.P. (“the “Facility”) is commencing operations with a four-person Board of Directors appointed by the General Partner, BGC Derivatives Markets Holdings, LLC.¹

2. Selection of Directors

The Board of Directors is selected with the goal of ensuring that the Facility achieves the highest level of operational success while fully complying with its statutory, regulatory, and self-regulatory obligations under the Commodity Exchange Act and Commission Regulations.

A. Prospective Director Must Have Sufficient Industry Expertise

In addition to possessing a strong reputation and the capacity to exercise sound judgment, a prospective Director must have sufficient relevant industry experience. Particularly initially, the Board requires deep experience with swaps trading facilities and swap trading services, in order to effectively guide and support the creation and operation of the regulated entity. In general, relevant experience includes positions at another trading facility, such as a designated contract market or derivatives clearing organization, or in financial services, risk management, or clearing services. Also relevant is experience in operations, compliance, legal, trading, position limits, transactions, recordkeeping and reporting, and financial resources, as well as experience in executive roles.

B. Prospective Director Must be in Good Standing

Each prospective Director is required to certify that he or she is not subject to a statutory disqualification, which would disqualify the prospective Director from serving as a Director of the Facility.² These questions address whether the prospective Director is statutorily disqualified from registering with the Commission under Section 8a(2) of the Act due to, among other things, suspension or revocation of registration, certain court orders prohibiting action in the capacity of a registrant under the Act, certain felony convictions, or findings of violation of the Act or certain other Federal statutes. The Facility will also disqualify a prospective Director if the person has a history of serious disciplinary offenses, including violations of self-regulatory organization rules, the Act, or Commission Regulations.

3. Composition of the Board of Directors

The initial Directors of the Facility are Louis Scotto, Jeffrey Hogan, Daniel LaVecchia, and Michael Snow. Michael Snow is serving as a public director.

¹ The Board shall be reconstituted as required by any future Commission rulemaking.

² The form of this questionnaire is attached as Appendix A.
