

Chicago Mercantile Exchange Inc. – Exhibit E

This exhibit includes an overview of the organizational structure of the CME SDR division of Chicago Mercantile Exchange Inc. (“CME SDR”) and a description of the division’s operations and technology departments.

CME SDR Organizational Structure

CME SDR Division– Job Descriptions

President

The CME SDR President is the primary executive responsible for all business matters related to the business of CME SDR. The CME SDR President will be responsible for all strategic decisions related to the business of CME SDR and will assume the primary leadership role of the CME SDR organization.

CCO

The CME SDR CCO will administer and monitor compliance for CME SDR and will report to the Board and the President on at least an annual basis regarding compliance. The CME SDR CCO will, among other things, respond to CFTC requests and inquiries and will oversee the process of providing access to CME SDR systems to domestic and foreign regulators. The CME SDR CCO will establish business requirements for CME SDR systems. The CCO will supervise the activities of the Compliance Officer.

Compliance Officer

The Compliance Officer will perform compliance-related tasks under the supervision of the CCO. These tasks will include, among other things, transaction reviews for data accuracy and end user exemption validation. The Compliance Officer will also participate in system development initiatives.

Operations Manager

The Operations Manager will oversee a team providing support to CME SDR customers for critical assistance with connectivity, submission and information needs. Responsibilities will include overseeing customer onboarding activities and presiding over day to day customer support provided by the operations team. The Operations Manager will also manage overall training programs for operational personnel.

Operations Analysts (3)

Each Operations Analyst will work as a member of a team under the supervision of the Operations Manager providing support to CME SDR customers for critical assistance with connectivity, submission and informational needs. This support will include the onboarding and registration of clients as well as fielding and handling customer support questions. It is anticipated that these support activities will involve extensive customer interaction via telephone and electronic avenues. Operations Analysts will also be responsible for performing many other operational checkpoint tasks and procedures for the purposes of monitoring CME SDR performance.

Project Manager

The Project Manager will coordinate efforts and establish accountability for CME SDR development projects.
