**Re: Amendments to Reportable Position levels for Certain Energy Contracts
Submission Pursuant to Section 5c(c)(1) of the Act and Regulation 40.6**

Dear Ms. Jurgens:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended, and Commission Regulation 40.6(a), ICE Futures U.S., Inc. (“Exchange”) hereby self certifies amendments to Resolution No. 2 of Chapter 18, as set forth in Exhibit A. Resolution No. 2 of Chapter 18 contains the position limit table for all Exchange Energy Contracts. Amendments to the table reduce the reportable position level for 35 Energy Contracts from 25 lots to 1 lot. All positions in these contracts will be reportable, which will increase transparency and allow the Exchange to more closely monitor participant positions. The amendments will become effective on February 21, 2013.

The Exchange certifies that the rule amendments comply with the requirements of the Commodity Exchange Act and the rules and regulations promulgated thereunder. Specifically, the amendments further the effectiveness of Core Principle 5 (Position Limits). The reduction of the reportable position levels increase transparency and helps the Exchange monitor position limits and accountability levels to reduce the potential for manipulation or congestion. No substantive opposing views were expressed by members or others with respect to the amendments. The Exchange further certifies that, concurrent with this filing, a copy of this submission was posted on the Exchange’s website, which may be accessed at (<https://www.theice.com/notices/Notices.shtml?regulatoryFilings>).
