Subject: Outrageously High Position Limits in Silver

Honorable Officials:

I ask, how does your Commission justify proposing a silver speculative position limit of 26,500,000 ounces? Oh, I forgot, this is 5300 contracts of nothing more than PAPER silver!

By vivid contrast, ACTUAL silver shortage will soon hit us hard.

Hopefully you are concerned that: Not only the American public and government entities, but I foresee that even the CME and the big commercial bankster short sellers, would accuse you of regulatory incompetence.

Robert L. Taylor
