Subject: POSITION LIMIT OF 1500 CONTRACTS

Honorable Chairman Gensler and members of the Commission:

It is truly disheartening to see the criminal actions of JP Morgan et al as they continue to blatantly manipulate our Silver market. They are conducting an organized crime scheme for extreme profit, against the will and favor of the American people. Your Commission, individually and collectively, are the police who are simply looking the other way as this crime continues to play out. I truly don't understand why you have not made any decisive move to date. The crooks are robbing every house in American as you sit at the corner in full view, eating your donuts and sipping your coffee, watching them get away with their diabolical acts. I have absolutely no doubt now that your Commission is intertwined in the collusion of corruption, and you are all protecting the "system" and the people that you know and live off of. This will come to an end. You can be heroes and Stand Up For America and it's hardworking people and stop this crime in process, or you can continue to do nothing and face ultimate humiliation and disgrace as accusations, lawsuits and indictments unfold. America is paying your salaries to carry out your mission. If you've forgotten what your mission is, I have inserted an excerpt below from your www.cftc.gov website:

"The CFTC's mission is to protect market users and the public from fraud, manipulation, and abusive practices related to the sale of commodity and financial futures and options, and to foster open, competitive, and financially sound futures and option markets."

Please take action now and implement a position limit of 1500 contracts. You've heard America speak on this, and it is your duty to take positive and decisive action to protect this market from manipulation and corruption. Your actions on this will quickly reverse negative sentiment against the CFTC and US Government, and restore our faith in the free market system.

I appreciate this opportunity to voice my feelings on this issue, and thank you in advance for your attention to this.

Respectfully yours,

Rick Cordes
