Fair, Simple and Sound - SilverSeek.com

Dear CFTC Commissioners,

Mr. Butler has provided you with enough information and evidence of manipulation going on in the silver market for you to take action.

It is incumbent on you to see that a free market exists. I don't understand why American citizens such as yourself would not want to correct this problem. Continued ignoring of this most obvious manipulation makes me wonder if there is a hidden agenda within your commission or possibly being beholden to the firms engaged in these "illegal acts".

Being a student of economics and with many years in business, I understand governments desire to suppress the value of both gold and silver once the currency becomes 100% fiat. But that desire is contrary to the good and well being of the people of this nation.

You are educated people and know what both Mr. Butler and I say here to be true. Unless I am mistaken, you have a solemn duty to protect the integrity of markets you regulate and uphold our constitution.

I urge you to stop delaying and take the action you know to be right and instill position limits in both the gold and silver markets.

Thank you for your immediate attention to this matter. If we can't trust you, who can we trust.

Sincerely,

Jim Rafton
