PART 772—[AMENDED]

23. Section 772.1 is amended by revising the definition of “Cryptanalytic items” to read as follows:

§ 772.1 Definitions of Terms as Used in the Export Administration Regulations (EAR).

“*Cryptanalytic items*”. Systems, equipment, applications, specific electronic assemblies, modules and integrated circuits designed or modified to perform cryptanalytic functions, software having the characteristics of cryptanalytic hardware or performing cryptanalytic functions, or technology for the development, production or use of cryptanalytic commodities or software.

Notes: 1. Cryptanalytic functions may include cryptanalysis, which is the analysis of a cryptographic system or its inputs and outputs to derive confidential variables or sensitive data including clear text. (ISO 7498-2-1988(E), paragraph 3.3.18).

2. Functions specially designed and limited to protect against malicious computer damage or unauthorized system intrusion (e.g., viruses, worms and trojan horses) are not construed to be cryptanalytic functions.

N.B. to Cryptography Note: Mass market encryption commodities and software eligible for the Cryptography Note are subject to the notification or review requirements described in § 742.15(b)(1) and (b)(2) of the EAR, unless specifically excluded from these requirements by § 742.15(b)(3) of the EAR. Mass market commodities and software employing a key length greater than 64 bits for the symmetric algorithm must be reviewed in accordance with the requirements of § 742.15(b)(2) of the EAR in order to be released from the “EI” and “NS” controls of ECCN 5A002 or 5D002. All other mass market commodities and software eligible for the Cryptography Note are controlled under ECCN 5A992 or 5D992 (without review) and may be exported or reexported to most destinations without a license, following notification, in accordance with the requirements of § 742.15(b)(1) of the EAR.

Note: Encryption software is controlled because of its functional capacity, and not because of any informational value of such software; such software is not accorded the same treatment under the EAR as other “software”; and for export licensing purposes, encryption software is treated under the EAR in the same manner as a commodity included in ECCN 5A002.

Note: Encryption software controlled for “EI” reasons under this entry remains subject to the EAR even when made publicly available in accordance with part 734 of the EAR. See § 740.13(e) of the EAR for information on releasing certain source code (and corresponding object code) which would be considered publicly available from “EI” controls.

COMMODITY FUTURES TRADING COMMISSION

17 CFR Part 3

RIN 3038-AB89

Registration of Intermediaries

AGENCY: Commodity Futures Trading Commission.

ACTION: Final rules.

SUMMARY: The Commodity Futures Trading Commission (the "Commission" or "CFTC") is adopting amendments to its rules, which governs registration of intermediaries in the futures industry. These amendments are necessary to facilitate the change from the current paper-based registration system to online registration. It is expected that the online registration system will provide applicants with a more streamlined process for registering, resulting in less redundancy and quicker processing of applications by the National Futures Association. The amendments will permit a floor broker that receives a temporary license to act in the capacity of a fully registered floor broker, and an applicant for registration as an associated person to be granted a temporary license upon filing the Form 8-R and a sponsor's certification, but prior to submission of fingerprints. Several other amendments are technical in nature to accommodate the transfer from a paper-based to an electronic system and to recognize derivatives transaction execution facilities.

EFFECTIVE DATE: June 6, 2002.

SUPPLEMENTARY INFORMATION:

I. Background

The Commission has previously delegated the authority to process applications for registration of intermediaries and floor traders under the Commodity Exchange Act (the "Act")¹ to the National Futures Association ("NFA").² NFA submitted to the Commission, for its approval, pursuant to section 17(j) of the Act, amendments to NFA registration rules that would require applicants seeking registration under the Act as futures commission merchants ("FCMs"), introducing brokers ("IBs"), commodity pool operators ("CPOs"), commodity trading advisors ("CTAs"), leverage transaction merchants ("LTMs"),

associated persons ("APs"), floor brokers ("FBs"), and floor traders ("FT") to file applications electronically through an online registration system.³ On May 30, 2002, the Commission approved these proposed amendments to the NFA registration rules.

Technological advancements have resulted in fundamental changes in the futures industry, as is the case in almost every other industry. The Commission has encouraged and attempted to facilitate the use of electronic technology in the futures industry.⁴ The Commission also believes that it must constantly look at ways that technology can better assist the Commission in fulfilling its regulatory mission.⁵

NFA's new online registration system should streamline the registration process and result in a system that is easier to use for applicants, registrants, and regulators. The new system should make it quicker and easier for persons to provide NFA with the required information and enable NFA to process more efficiently this information in determining whether to grant an application for registration, while maintaining most of the features of the current system. Additionally, information on registrants should be more readily accessible by the public, NFA, and the Commission.

On April 12, 2002, in order to facilitate the change to an online registration system, the Commission proposed the rule amendments being adopted herein.⁶ The Commission did not receive any comment letters on the proposed amendments.

II. The Rule Amendments

A. Additional Categories and Sponsors

As part of the new online registration system, applicants that have a current

³ Agricultural trade option merchants as well as applicants for registration as FCMs and IBs pursuant to section 4f(a)(2) of the Act (notice-registration of securities broker-dealers whose only futures-related activity involves security futures products) will still file paper applications.

⁴ For example, the Commission has created a Technology Advisory Committee, see 66 FR 57427 (Nov. 15, 2001); see also 65 FR 12466 (Mar. 9, 2000) (adopting new Rule 1.4, which permits the use of electronic signatures in lieu of handwritten signatures where the Act or Commission rules require a customer's signature). Additionally, the Commission had previously authorized NFA to implement a pilot program that allowed certain registrants to enter registration data electronically for APs and branch office managers of these registrants. 55 FR 35925 (Sep. 4, 1990).

⁵ For example, the National Association of Securities Dealers, the registered national securities association responsible for processing the registration filings of certain persons required to register with the Securities and Exchange Commission, has required all registration filings to be submitted via the World Wide Web to its Central Registration Depository system since 1999.

⁶ 67 FR 19358 (Apr. 19, 2002).

active status, either as a registrant or as a listed principal, and who seek to add an additional registration category will be required to file a "short path" version of the form required for a new applicant.⁷ This "short path" form will require the applicant to supply only necessary information that is not already in the registration database. For example, if an entity registered as an IB applies to become registered also as a CTA, the entity will complete the "short path" Form 7-R, which requires the applicant to select the appropriate categories for which it would be registered and to indicate the category in which it intends to vote on NFA membership matters. Likewise, natural persons currently registered as APs, FBs, FTs, or listed as branch managers or principals that seek to add an additional category will complete a "short path" Form 8-R.

The Form 7-R will no longer require an applicant to list principals that are natural persons because when a Form 8-R is filed indicating a principal category, the system will require the appropriate information, including information regarding the sponsor firm. Currently, under Commission Rule 3.10(a)(2)(i),⁸ each Form 7-R must be accompanied with a Form 8-R and fingerprints for each natural person who is a principal of the applicant. The rule does not apply to a principal that has a current Form 8-R on file. However, because the necessary information about the firm for whom a natural person is a principal is gathered through the Form 8-R, if a natural person with a current active status seeks to add a principal category or to become a principal of another firm, then it will be necessary for a "short path" Form 8-R to be filed.⁹ Accordingly, the Commission is amending Rule 3.10(a)(2)(i) to reflect this change.

Currently, a person who is unconditionally registered as an AP may become associated as an AP with another sponsor if the new sponsor files a Form 3-R with NFA. The Form 3-R must contain a certification signed by each sponsor acknowledging that each sponsor, in addition to being responsible for supervising the AP, is jointly and severally liable for the conduct of the AP. As noted above, under the new online registration system, APs with a current status seeking to add another sponsor will file

⁷ Currently, such applicants are required to file a Form 3-R (which is akin to the new "short path" form) or Form 8-R, depending upon their current status and the additional category requested.

⁸ Commission rules referred to herein may be found at 17 CFR Chap. 1 (2001).

⁹ Fingerprints will still not be required.

¹ 17 U.S.C. 1 *et seq.* (2000).

² See, e.g., 58 FR 19657 (Apr. 15, 1993) (floor traders); 51 FR 34490 (Sep. 29, 1986) (floor brokers); 49 FR 39593 (Oct. 9, 1984) (futures commission merchants, commodity pool operators, commodity trading advisors, and associated persons thereof); 48 FR 35158 (Aug. 3, 1983) (introducing brokers and associated persons thereof).

a "short path" Form 8-R, which, similar to the current paper Form 3-R, will require the submission of only that information not already in the database required for adding the applicable sponsor. Accordingly, the Commission is amending Rule 3.12 to reflect the fact that the sponsor must file a Form 8-R instead of the Form 3-R.

Maintaining the requirement that all of the sponsors of the AP sign and file the acknowledgment mandated under the current rule in an electronic environment would require sending the filing via traditional delivery or via a complicated and costly electronic signature system, both resulting in a delay in adding the sponsor. Additionally, the Commission believes it is unnecessary to require the signed acknowledgment where the rule makes clear that a sponsor is responsible for supervising its APs and is liable for their conduct.¹⁰ Accordingly, the Commission is removing the requirement that a signed certification be submitted to add an additional sponsor. Instead, the NFA, upon receipt of the Form 8-R for an AP seeking to add a sponsor, shall notify the existing sponsors of the AP of the application. The amended rule will continue to hold each sponsor responsible for the supervision of the AP and make each sponsor jointly and severally liable for the conduct of the AP with respect to customers common to that sponsor and another sponsor.¹¹ Requiring a signed acknowledgement of this fact would present an added burden for registrants that the Commission does not believe is necessary.

NFA's amended Registration Rule 207(a) will permit a person whose application for registration as an AP is pending, or who is temporarily licensed as an AP, to apply to become registered as an AP of another sponsor. Pursuant to amended Registration Rule 207(b), the AP will become registered as an AP of the new sponsor only if he or she is already registered as an AP with another sponsor. The Commission believes that NFA's amended Registration Rule 207 is consistent with Commission Rule 3.12(f) as amended herein.

B. Updates

1. Annual and Triennial Updates

Pursuant to Commission Rule 3.31, any applicant or registrant must promptly correct any inaccuracy in its Form 7-R or Form 8-R. Accordingly,

¹⁰ Existing Commission rules also make clear the sponsor's responsibility and liability to supervise its APs. See, e.g., Rule 166.3.

¹¹ NFA Registration Rule 207, as amended, holds sponsors to the same standards.

registrants are under an ongoing duty to ensure that their registration filings are accurate. Currently, pursuant to Rule 3.10(d), a firm is required to file annually with NFA a Form 7-R. For this purpose, NFA sends to each firm a pre-printed paper copy of the firm's Form 7-R that the firm must then update and file with NFA. Similarly, pursuant to Rule 3.11(d), every three years the NFA provides each registered FB and FT with a paper printout of the information contained in NFA's registration database concerning the registrant. If the information in the printout is inaccurate, the registrant must correct the information and return the printout to NFA. Otherwise, the registrant is not required to return the printout and is deemed to have recertified the registration information contained in the printout.

As noted above, these persons are already under an ongoing obligation to update the applicable registration information when necessary. The continuation of the annual and triennial update process is redundant and results in unnecessary costs to both NFA and the registrant. Accordingly, the Commission is amending the rules to delete these requirements.

2. Changes in Form of Organization

Pursuant to Rule 3.31, a change in the form of organization of a registrant requires that the registrant correct its Form 7-R. Currently, when a firm files a Form 3-R to report a change in the form of the organization, it must be accompanied by a certification "signed in a manner sufficient to be binding under local law" that the registrant will be liable for all obligations of the pre-existing organization. Similar to the acknowledgment currently required when an AP adds a sponsor, the Commission believes it is an unnecessary burden on registrants to require a signed certification by the registrant acknowledging its liability for the obligations of the pre-existing organization when Commission rules, and NFA rules, can make clear the registrants' responsibilities. Accordingly, the Commission is amending Rule 3.31 to make clear that, when a registrant reports a change in the form of its organization by filing a Form 3-R under Rule 3.31, it remains liable for all obligations of the pre-existing organization.

Notwithstanding the above, under the amendments being adopted herein, where a registrant is ceasing to be or is becoming a sole proprietorship, the registrant will have to file a Form 7-W, withdrawing the registration of the pre-existing organization, and file a Form 7-

R regarding the new organization. A change to or from a sole proprietorship to another form of business entity, such as a corporation, is not a mere change in the form of organization. There is a fundamental difference between a natural person and a corporation. A corporation undertaking business that was being conducted by a sole proprietor is not a continuation of an existing organization, but is the creation of a completely new and separate legal entity, thus requiring the filing of a Form 7-W regarding the pre-existing organization and a Form 7-R on behalf of the new organization.

C. Temporary Licenses

1. Initial Filing

Pursuant to Commission Rule 3.40, an applicant for registration as an AP, FB, or FT, may be granted a temporary license upon the filing of a completed Form 8-R, the applicant's fingerprints, and, (a) if the applicant is applying for registration as an AP, the required sponsor's certification, or (b) if the applicant is applying for registration as an FB or FT, the required proof of having been granted trading privileges by a contract market. Under the online registration system, there will be a delay between the filing of the Form 8-R, which will occur instantaneously via the Internet, and the filing of the applicant's fingerprints, which must still be physically provided on a fingerprint card. Accordingly, the Commission is amending Rule 3.40 to provide that NFA may grant a temporary license to an applicant for registration as an AP upon filing of the completed Form 8-R and the sponsor's certification, but before the applicant's fingerprints are filed. The fingerprints must be filed with NFA within 20 days. This will not result in any change of the policies that NFA uses in determining to grant a temporary license to an AP.

FBs and FTs will have to continue to file the current documents required under the rule, including fingerprints, to receive a temporary license. Temporary licenses for FBs and FTs will not be granted online because, to be eligible for a temporary license, FB and FT applicants must have been granted trading privileges on a contract market or DTF. It has been the experience of the Commission and NFA that FB and FT applicants, especially new applicants, almost never receive trading privileges before applying for registration. In fact, the applicant's fingerprint cards and registration fees are almost always received before an exchange grants them trading privileges. Moreover, if NFA were to grant an FB or FT applicant a

temporary license and later withdraw it, such action could have larger financial implications for the individual than would be the case for an AP applicant. For example, an FB or FT applicant must make sizeable investments to obtain trading privileges on the floor of an exchange.

2. Restrictions on Activities

Currently, an applicant for registration as an FB who is granted a temporary license, and has not been registered as an FB during the preceding 60 days, is only permitted to act as an FT. The Commission does not believe that this difference is required. The fitness standards for becoming registered as an FB or an FT are the same. Likewise, the fitness standards for becoming temporarily licensed as an FB or an FT should be the same. When the Commission adopted rules that limited FBs granted temporary licenses to acting as FTs, it noted that, after gaining further experience in the area, it might revisit the issue.¹² In the nine years since applicants for registration as FBs have been permitted to receive a temporary license, the Commission and NFA have found that it is very rare that a temporary license granted to an applicant for registration as an FB has had to be terminated as a result of the ensuing fitness check. This is attributable to the fact that, in order to be granted a temporary license as an FB, an applicant must have been granted trading privileges by a contract market and a contract market conducts its own fitness check before granting a person trading privileges. Generally, information that would prevent an applicant from becoming registered with the Commission as an FB would also prevent the person from obtaining trading privileges on a contract market. Accordingly, the Commission is amending its rules to permit an applicant for registration as an FB who has been granted a temporary license to act in the capacity of an FB for the duration of the temporary license.

3. Special Temporary Licenses

Currently, pursuant to Commission Rule 3.11(c)(1), an FB or FT, whose registration has terminated within the preceding sixty days, and who has been granted trading privileges at a new contract market that has filed with NFA the certification required under Rule 3.40(c), regarding the applicant, will be granted a temporary license to act as an FB or FT upon mailing a Form 8-R, a fingerprint card, and if applicable, a supplemental sponsor certification.

These are the same submissions necessary to be granted a temporary license under Commission Rule 3.40. However, pursuant to Rule 3.11(c)(1), once the applicant has mailed the Form 8-R and the fingerprint card to NFA the applicant's temporary license will be granted, as opposed to the requirement under Rule 3.40 that the documents be filed with NFA. However, the applicant must have been granted trading privileges by a new contract market and the contract market must have made the required certification before the applicant could be granted the temporary license. The Commission does not believe that it is necessary to maintain both rules for granting temporary licenses to FBs and FTs when the practical result under either rule is the same. Accordingly, the Commission is removing Rule 3.11(c)(1). All temporary licenses for FBs and FTs will be granted pursuant to Rule 3.40.

The Commission is also removing Rule 3.11(c)(2). Currently, pursuant to Commission Rule 3.11(c)(2), any FB or FT who continuously maintains trading privileges at a contract market may change their registration category from an FB to an FT or vice versa upon mailing to NFA a completed Form 3-R indicating an intention to change categories. As noted above, under NFA's online registration system, applicants for adding additional registration categories will file a "short path" Form 8-R. Additionally, under Commission Rule 3.11(a), an applicant for registration as an FB or FT is not required to file a fingerprint card if the applicant has a current Form 8-R on file with NFA.¹³ Accordingly, removing Rule 3.11(c)(2) should not negatively affect those already registered as FBs or FTs seeking to switch registration categories.

Similar to the granting of a temporary license as a new applicant for AP registration, as discussed above, the Commission is also amending Rule 3.12(d) to permit the granting of a special temporary license to an AP whose registration terminated within the preceding 60 days upon the filing of a completed Form 8-R, but prior to the applicant's fingerprints being filed with NFA. The fingerprints must be filed with NFA within 20 days.

D. FCM and IB Withdrawal From Registration

Currently, pursuant to Commission Rule 3.33(c)(1), when an FCM or an

independent IB is requesting withdrawal from registration because it has ceased engaging in activities that require registration, their request for withdrawal must be accompanied by Form 1-FR-FCM or 1-FR-IB¹⁴ completed within a month of the date of the request for withdrawal. Pursuant to NFA Financial Requirement section 1(b), each FCM for which NFA is the designated self-regulatory organization must file a Form 1-FR-FCM for each month end. Accordingly, for such FCMs, a Form 1-FR-FCM for the previous month will have already been filed. Additionally, an IB is not permitted to hold customer funds. Therefore, requiring an IB seeking withdrawal to file Form 1-FR-IB in every instance is unnecessary. Moreover, if there was a reason for the Commission to be concerned about the financial state of a particular IB requesting withdrawal, the Commission may, pursuant to Rule 3.33(f)(4), require that the IB provide the appropriate financial statements, including a Form 1-FR-IB, before it is permitted to withdraw its registration. Accordingly, the Commission is removing Rule 3.33(c)(1).

E. Certification Signatories

Commission Rules 3.12(c)(1), 3.12(d)(3) (sponsor certifications regarding an applicant for AP registration), 3.33(b) (Form 7-W for a firm's withdrawal of registration), 3.44(a)(4) (FCM certification regarding a temporary license for an IB) require that only certain persons may sign the pertinent documents on behalf of the registrant.¹⁵ Under the online registration system, where the pertinent documents will be filed electronically, it would be difficult, if not impossible, to ensure that only one of the enumerated persons was actually submitting the document.

NFA, in its amended Registration Rule 802, provides that the electronic filing of required documents constitutes, among other things, the applicant's, registrant's, or sponsor's certification that the person who electronically files the document is authorized by the entity to make the required certifications, representations, requests, acknowledgements, authorizations, and agreements contained therein.

¹⁴ The Forms 1-FR-FCM and 1-FR-IB are statements of the financial condition of an FCM or IB respectively, used, in part, to ensure compliance with applicable Commission minimum financial requirements.

¹⁵ For example, Rule 3.12(c)(1) requires that the sponsor's certification be signed by an officer if the sponsor is a corporation, a general partner, if a partnership, or the sole proprietor, if a sole proprietorship.

¹² 58 FR 19575, 19583 (Apr. 15, 1993).

¹³ Amended NFA Registration Rule 205(b) similarly provides that an applicant for FB or FT registration need not file a fingerprint card or pay the registration fee if the applicant has a current Form 8-R on file.

Moreover, amended NFA Registration Rule 801(b) provides that any registration filing made on behalf of a registrant or applicant by a person authorized by the applicant or registrant shall be deemed to be a filing of such registrant or applicant.¹⁶

Therefore, the entity filing the pertinent certification or form under Commission Rules 3.12(c)(1), 3.33(b), 3.44(a)(4) will be held accountable for any representations in the applicable document. Accordingly, the Commission is amending these rules to make clear that a person duly authorized by the registrant or sponsor must file the relevant certification or form.

F. Other Amendments

The Commission is also making certain technical amendments. For example, the Commission is amending Rules 3.11 and 3.31 so as to reference both contract markets and derivatives transaction execution facilities. Additionally, the Commission is removing references in part 3 to part 180, which has been removed and reserved.

III. Related Matters

A. Regulatory Flexibility Act

The Regulatory Flexibility Act ("RFA")¹⁷ requires that agencies, in proposing rules, consider the impact of those rules on small businesses. The Commission has previously established certain definitions of "small entities" to be used by the Commission in evaluating the impact of its rules on such entities in accordance with the RFA.¹⁸ The Commission has previously determined that FCMs, registered CPOs, and LTM's are not small entities for the purpose of the RFA.¹⁹ Therefore, the requirements of the RFA do not apply to those entities. With respect to the remaining entities, the rule amendments will not place any additional burdens upon such parties since all registrants are already subject to the registration filing requirements of the Act and part 3 of the Commission's regulations. To the contrary, the amendments will help to streamline and simplify the current registration procedures. The Commission notes that no comments

¹⁶ Under the amended NFA rules, FBs and FTs may not authorize any other person to file a Form 8-R on their behalf. Additionally, persons for whom a sponsor has filed a Form 8-R must verify the information themselves and may not authorize any other person to do so on their behalf.

were received from the public on the RFA and its relation to the rule amendments.

B. Paperwork Reduction Act

The Paperwork Reduction Act of 1995 ("PRA")²⁰ imposes certain requirements on federal agencies (including the Commission) in connection with their conducting or sponsoring any collection of information as defined by the PRA. The rule amendments do not require a new collection of information on the part of any entities subject to the proposed rule amendments. Accordingly, for purposes of the PRA, the Commission certifies that these rule amendments will not impose any new reporting or recordkeeping requirements. The Commission did not receive any comments on any potential paperwork burden associated with these amendments. The Commission has submitted hard copies of how the screens will appear in the electronic registration system to the Office of Management and Budget.

C. Cost-Benefit Analysis

Section 15(a) of the Act requires the Commission to consider the costs and benefits of its action before issuing a new regulation under the Act. By its terms, section 15(a) does not require the Commission to quantify the costs and benefits of a new regulation or to determine whether the benefits of the proposed regulation outweigh its costs. Rather, section 15(a) simply requires the Commission to "consider the costs and benefits" of its action.

Section 15(a) further specifies that costs and benefits shall be evaluated in light of five broad areas of market and public concern: protection of market participants and the public; efficiency, competitiveness, and financial integrity of futures markets; price discovery; sound risk management practices; and other public interest considerations. Accordingly, the Commission could in its discretion give greater weight to any one of the five enumerated areas and could in its discretion determine that, notwithstanding its costs, a particular rule was necessary or appropriate to protect the public interest or to effectuate any of the provisions or to accomplish any of the purposes of the Act.

These amendments are intended to facilitate a streamlined registration process that would result in less redundancy and quicker processing of applications. The Commission is considering the costs and benefits of

these rules in light of the specific provisions of section 15(a) of the Act:

1. *Protection of market participants and the public.* While the amendments are expected to lessen the burden imposed upon applicants in the registration process, they do not reduce the fitness standards for becoming registered with the Commission. Accordingly, they should have no effect on the Commission's ability to protect market participants and the public.

2. *Efficiency and competition.* The amendments are expected to benefit efficiency and competition by more quickly facilitating entry into the industry and by enabling information to be collected and made available in a more timely manner.

3. *Financial integrity of futures markets and price discovery.* The amendments should have no effect, from the standpoint of imposing costs or creating benefits, on the financial integrity or price discovery function of the futures and options markets.

4. *Sound risk management practices.* The amendments being adopted herein should have no effect on the risk management practices of the futures and options industry.

5. *Other public interest considerations.* The amendments, in facilitating the change to an online registration system, are expected to result in a registration system that is easier to use and more efficient in its processing of registration applications. Additionally, the system should permit more information about registrants to be readily accessible by the public more quickly.

After considering these factors, the Commission has determined to adopt the amendments discussed above. The Commission invited public comment on its application of the cost-benefit provision. The Commission did not receive any comments regarding the application of the cost-benefit provision.

D. Administrative Procedure Act

The Administrative Procedure Act provides that the required publication of a substantive rule shall be made not less than 30 days before its effective date, but provides an exception "for good cause found and published with the rule."²¹ On June 3, 2002, NFA will bring its new registration system online. As part of this changeover, NFA has shut down its old mainframe-based registration database, and is currently not capable of accepting hardcopies of registration filings and entering the information into its registration database system. Moreover, the Commission

²¹ 5 U.S.C. 553(d)(3).

notes that NFA has spent much of the last few months making the futures industry aware of the change to an online registration system, through its Web site as well as seminars and training workshops held in New York, New Jersey, and Chicago. Accordingly, the Commission has determined to make the rule amendments being adopted herein effective immediately.

A floor broker or floor trader is prohibited from engaging in activities requiring registration under the Act or from representing himself to be a registrant under the Act or the representative or agent of any registrant during the pendency of any suspension of such registration or of all such trading privileges. RIN 1515-AD12

Extension of Import Restrictions Imposed on Archaeological and Ethnological Materials From Peru

AGENCY: Customs Service, Treasury.

ACTION: Final rule.

SUMMARY: In T.D. 97-50, the Customs Regulations were amended to reflect the imposition of import restrictions on certain archaeological and ethnological materials originating in Peru. These restrictions were imposed pursuant to an agreement between the United States and Peru that was entered into under the authority of the Convention on Cultural Property Implementation Act in accordance with the 1970 United Nations Educational, Scientific and Cultural Organization (UNESCO) Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property. Recently, the Assistant Secretary for Educational and Cultural Affairs, United States Department of State, determined that conditions continue to warrant the imposition of these import restrictions for a period of five years from June 9, 2002. Thus, this document amends the Customs Regulations to reflect that the import restrictions continue. T.D. 97-50 contains the Designated List of Archaeological and Ethnological Materials that describes the articles to which the restrictions and this extension of restrictions apply.

EFFECTIVE DATE: This regulation becomes effective on June 6, 2002.

FOR FURTHER INFORMATION CONTACT: (Regulatory Aspects) Joseph Howard, Intellectual Property Rights Branch (202) 927-2336; (Operational Aspects) Al Morawski, Trade Operations (202) 927-0402.

SUPPLEMENTARY INFORMATION:

Background

Pursuant to the provisions of the 1970 UNESCO Convention, codified into U.S. law as the Convention on Cultural Property Implementation Act (Pub. L. 97-446, 19 U.S.C. 2601 *et seq.*) (the Act), the United States entered into a bilateral agreement with the Republic of Peru on June 9, 1997, concerning the imposition of import restrictions on certain pre-Columbian archaeological materials of Peru dating to the Colonial period and certain Colonial ethnological material from Peru. The U.S. Customs Service issued T.D. 97-50 (62 FR 31713, June 11, 1997) amending § 12.104g(a) of the Customs Regulations (19 CFR 12.104g(a)) to reflect the imposition of these restrictions for a period of five years.

Prior to the issuance of T.D. 97-50, Customs issued T.D. 90-37 (55 FR 19029, May 7, 1990) imposing emergency import restrictions on certain archaeological materials of Peru from the Sipan Archaeological Region forming part of the remains of the Moche culture. Under T.D. 90-37, § 12.104g(b) (19 CFR 12.104g(b)) of the regulations pertaining to emergency restrictions was amended accordingly. This emergency protection was extended in T.D. 94-54 (59 FR 32902, June 27, 1994). Subsequently, the archaeological materials covered by T.D. 90-37 were subsumed in T.D. 97-50 when it was published in 1997, at which time the emergency restrictions of T.D. 90-37 (as extended by T.D. 94-54) were removed from § 12.104g(b).

On March 5, 2002, the Assistant Secretary of Educational and Cultural Affairs, Department of State, after considering the findings and recommendations of the Cultural Property Advisory Committee and concluding that the cultural heritage of Peru continues to be in jeopardy from pillage of the archaeological and ethnological materials subject of the import restrictions of T.D. 97-50, made the necessary determinations to extend the import restrictions for an additional five years (in the Determination to Extend the Memorandum of Understanding Between the United States of America and the Government of Peru Concerning the Imposition of Import Restrictions on Archaeological Material from the Prehispanic Cultures and Certain Ethnological Material from the Colonial Period of Peru, Signed on June 9, 1997). Accordingly, Customs is amending § 12.104g(a) to reflect the extension of the import restrictions.

The Designated List of Archaeological and Ethnological Materials from Peru describing the materials covered by

these import restrictions is set forth in T.D. 97-50. The list and accompanying image database may also be found at the following internet Web site address: <http://e.usia.gov/education/culprop>.

It is noted that the materials identified in T.D. 97-50 as "certain pre-Columbian archaeological materials of Peru dating to the Colonial period and certain Colonial ethnological material from Peru" are referred to in the Determination to Extend as "Archaeological Material from the Prehispanic Cultures and Certain Ethnological Material from the Colonial Period of Peru." The materials identified in T.D. 97-50 and those identified in the Determination to Extend are one and the same materials.

The restrictions on the importation of these archaeological and ethnological materials from Peru are to continue in effect for five years from June 9, 2002. Importation of these materials continues to be restricted unless the conditions set forth in 19 U.S.C. 2606 and 19 CFR 12.104c are met. For example, these materials may be permitted entry if accompanied by appropriate export certification issued by the Government of Peru, or documentation showing that exportation from Peru occurred on or before June 11, 1997, or, with respect to materials from the Sipan archaeological region, on or before May 7, 1990. *See* 19 U.S.C. 2606(b)(1) and (2)(B); 19 CFR 12.104c(a) and (c).

Inapplicability of Notice and Delayed Effective Date

Because the amendment to the Customs Regulations contained in this document extends import restrictions already imposed on the above-listed cultural property of Peru by the terms of a bilateral agreement entered into in furtherance of a foreign affairs function of the United States, pursuant to the Administrative Procedure Act (5 U.S.C. 553(a)(1)), no notice of proposed rulemaking or public procedure is necessary and a delayed effective date is not required.

Regulatory Flexibility Act

Because no notice of proposed rulemaking is required, the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) do not apply. Accordingly, this final rule is not subject to the regulatory analysis or other requirements of 5 U.S.C 603 and 604.

Executive Order 12866

This amendment does not meet the criteria of a "significant regulatory action" as described in Executive Order 12866.
