

I would like to voice my objection and concern over the new 300 pt. limit. I am an IB with over 20 yrs. experience and the overwhelming majority of my customers are equally concerned. They feel the current system is better; i.e. 150 pts., but with expanded limits. My customers, as well as myself, believe it would lead to decreased liquidity in the market, as people would be less likely to fully participate given the increased risk exposure involved.

Thank You,
Elaine Johnson
