RECEIVED

**RE: Section 5c(c), Part 40.6(a) – Certification for Earlier Sunday Opening Time for CME Foreign Exchange Futures and Options Traded on CME Globex®.
CME Submission 07-13.**

Dear Ms. Donovan:

Chicago Mercantile Exchange Inc. ("CME" or "Exchange") hereby notifies the Commission that, effective Sunday, March 25, 2007, CME foreign exchange ("FX") futures and options contracts will open for trading at 3:00 p.m. Central Time ("CT") on CME Globex, which is two hours earlier than the current Sunday FX futures and options product opening time of 5:00 p.m. CT. The earlier Sunday opening time enables CME FX futures and options contracts to capture more of the Asian interbank FX market, where trading begins in New Zealand and Australia each day and continues as markets in Japan, South Korea, China and Singapore open. Also effective Sunday, March 25, 2007, please note that the Exchange is shortening the CME Globex pre-market open for FX futures and options from 45 minutes to 30 minutes. Therefore, the pre-market open will begin at 2:30 p.m. on Sundays, starting Sunday, March 25th.

The Exchange notes that this action neither violates nor is inconsistent with any provision of the Commodity Exchange Act or of the rules there under. There were no substantive opposing views to this proposal. Shareholders/members will be notified of this change in CME trading hours in CME Special Executive Report, S-4546, dated Tuesday, February 13, 2007, and in the March 2007 *CME Update*, dated Monday, March 5, 2007.

If you require any additional information, please do not hesitate to contact Mr. Steven Youngren at 312-930-4583 or via e-mail at syoungre@cme.com. Please reference our CME Submission 07-13 on all future correspondence regarding this notification.

Sincerely,

John W. Labuszewski
Managing Director, Research & Product Development
