

February 28, 2007

Ms. Eileen A. Donovan  
Acting Secretary  
Commodity Futures Trading Commission  
Three Lafayette Center  
1155 21<sup>st</sup> Street, N.W.  
Washington, D.C. 20581

Reference File # 2771.01  
Rule Certification

Dear Ms. Donovan:

Pursuant to Commission Regulation 40.6(a), the Chicago Board of Trade (CBOT<sup>®</sup>) hereby submits the following:

- **Designate 30-Year Interest Rate Swap futures for trading pursuant to existing Regulation 331.05 (copy attached), at a minimum size threshold of 2,000 contracts on an outright basis for the period ending January 31, 2008.**

This designation will add 30-Year Interest Rate Swap futures to a program that already is in effect for CBOT's 10-Year and 5-Year Interest Rate Swap products. The CBOT intends to implement this designation concurrently with the launch of trading in 30-Year Interest Rate Swap futures (currently targeted for trade date March 19, 2007).

There were no opposing views concerning this designation.

The CBOT certifies that this designation complies with the Commodity Exchange Act and the rules thereunder.

Sincerely,

Paul J. Draths  
Vice President and Secretary

COMMODITY FUTURES TRADING COMMISSION

**331.05 Block Trade Transactions** – The Exchange may designate any contract initially listed for trading on or after December 31, 1999 as eligible for Block Trade transactions under this Regulation and shall determine the minimum size thresholds for the contracts in which Block Trade transactions are permitted. In determining the minimum size threshold, the Exchange shall take into consideration (to the extent available) the size distribution of transactions in the contract, the size distribution of transactions in the related cash or over-the-counter markets, and all other information relevant to transaction size in the relevant contract. The hours of operation of the Block Trade facility shall be determined by the Exchange.

Members may enter into transactions outside of the Exchange's central markets, at prices mutually agreed, with respect to contracts that have been designated by the Exchange for such purpose, provided that the following conditions are satisfied:

- a) Each buy or sell order underlying a Block Trade must (i) state explicitly that it is to be, or may be, executed by means of a Block Trade and (ii) be at least for the minimum transaction size as determined by the Exchange. Orders may not be aggregated in order to achieve the minimum transaction size; provided, that a commodity trading advisor registered (or exempt from registration) under the Commodity Exchange Act, including without limitation any investment advisor registered (or exempt from registration) under the Investment Advisors Act of 1940, or a foreign person performing a similar role or function subject as such to foreign regulation, with total assets under management exceeding \$25 million, may aggregate customer orders in order to achieve the minimum transaction size.
- b) The price at which a Block Trade is executed must be fair and reasonable in light of (i) the size of such Block Trade; (ii) the price and size of other trades in the same contract at the relevant time; and (iii) the price and size of trades in other relevant markets, including without limitation the underlying cash market or other related futures markets, at the relevant time. The price at which a Block Trade is executed shall not affect conditional orders such as limit orders or stop orders. The price at which a Block Trade is executed shall not be used in establishing settlement prices.
- c) Each nonmember customer to a Block Trade transaction must qualify as an "eligible contract participant", as that term is defined in Section 1a(12) of the Commodity Exchange Act, provided that, if any Block Trade is entered into on behalf of customers by a commodity trading advisor registered (or exempt from registration) under the Act, including without limitation any investment advisor registered (or exempt from registration) under the Investment Advisors Act of 1940, or a foreign person performing a similar role or function subject as such to foreign regulation, with total assets under management exceeding \$25 million, the individual customers need not so qualify.
- d) Each Block Trade executed pursuant to this Regulation must be cleared through the clearing members. Information identifying the relevant contract, contract month, price, quantity, time of execution, counterparty clearing member, and for options, strike price, put or call and expiration month, for each Block Trade must be reported by the seller to the Exchange within five minutes immediately following execution of such Block Trade. The Exchange will publicize information identifying the trade as a Block Trade and identifying the relevant contract, contract month, price or premium, quantity and, if applicable, the underlying commodity, whether the transaction involved a put or a call and the strike price, for each Block Trade immediately after such information has been reported to the Exchange.
- e) Each clearing member and member that is party to a Block Trade shall record the following details on its order ticket: the contract (including the delivery or expiry month) to which such Block Trade relates; that the trade is a Block Trade; the number of contracts traded; the price of execution or premium; the time of execution; the identity of the counterparty; for options, strike price, and put or call and, if applicable, details regarding the customer for which the Block Trade was executed, the underlying commodity, whether the transaction involved a put or a call and the strike price. Upon request by the Exchange, such clearing member or member shall produce satisfactory evidence, including without limitation the order ticket referred to in the preceding sentence, that the Block Trade meets the requirements set forth in this Regulation.
