### Update of EEX FBOT Application

Dear Mr. Andresen,

Enclosed please find the European Energy Exchange's updated application for the Foreign Board of Trade registration with the Commodity Futures Trading Commission. As agreed we will forward Supplement S-1 of the application regarding the clearing organization of the European Energy Exchange until the end of October 2016.

The enclosed files contain:

- A table of contents
- A terminology index
- Exhibits A-I for the Form FBOT
- Supporting documentation

The European Energy Exchange has taken it upon itself to answer all questions as thoroughly and clearly as possible. It is of utmost priority for the European Energy Exchange to be able to ensure its good standing with the Commodity Futures Trading Commission and status as a foreign board of trade by means of the submission of this application.

We look forward to hearing back from you regarding our application for registration. Please do not hesitate to contact us or either of our regulators should any questions or concerns arise during the review process.

Yours sincerely,

Peter Reitz  
Chief Executive Officer
