EXHIBIT A

Lead Market Maker Program

Program Purpose

The purpose of the Lead Market Maker Program (the "**Program**") is to support the development of the products listed below by increasing liquidity in the Exchange's central limit order book and, therefore, benefit all Participants in the market.

Product Scope

All cryptocurrency futures contracts available for trading on the Exchange.

Eligible Participants

In order to be considered, Participants must agree to make two-sided markets, have a demonstrable ability to quote two-sided markets during all trading hours, have the technological and operational ability to connect to the Exchange, and be ready to begin making two-sided markets. In determining whether to accept a Participant, Exchange staff will take into account a variety of factors, which may include among other things, industry reputation, the robustness of the quoting obligations to which the Participant will commit, the likelihood the Participant will be able maintain such obligations, demonstrated track record of being a top tier market maker in related derivatives and/or spot markets, and commit to completing necessary connectivity and testing to support the relevant products. The Exchange may add or subtract from the aforementioned criteria as it deems necessary.

Program Term

The initial term of the Program shall be effective as of the date of certification (with quoting requirements and rebates effective as of January 1, 2023) and shall end on June 30, 2023, unless otherwise extended by the Exchange.

Obligations

[REDACTED]

Monitoring and Termination of Status

The Exchange will monitor each Participant's trading activity and performance and retains the right to revoke Participant's status if it determines that a Participant failed to meet the obligations of the Program. Any trades that result in a self-match will not be counted toward a Participant's quoting requirements and thus will not count when calculating rebates or bonuses.
