Re: **Rule Certification for an
Energy Broker Incentive Program
Reference File: SR-NFX-2016-71**

Dear Mr. Kirkpatrick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended (“Act”), and Sections 40.2 and 40.6 of the Commission’s regulations thereunder, NASDAQ Futures, Inc. (“NFX” or “Exchange”) submits this self-certification to recertify the Exchange’s broker incentive program (the “Energy Broker Incentive Program” or “Program”) for certain energy contracts (the “Energy Contracts”).¹ This self-certification does not propose any changes or amendments to the current Program other than to extend the Program Term. The Exchange agrees to recertify this Program within one year of this certification.

The Program is designed to incentivize Off-Exchange Reporting Brokers (“ORBs”) to increase their volume in certain Energy Contracts they submit to NFX as Block Trades, thereby enhancing market liquidity for these products.² The Exchange believes that the resulting increase in liquidity generated by the Program benefits all participants in the market. The Exchange believes that the Energy Broker Incentive Program complies with Core Principle 4 (Monitoring of Trading), Core Principle 9 (Execution of Transactions) and Core Principle 12 (Protection of Market Participants). The Energy Broker Incentive Program will not impact order execution priority or otherwise give participants any execution preference or advantage. The Energy Broker Incentive Program will not impact the Exchange’s ability to perform its trade practice and market surveillance obligations under the Act and Exchange staff will monitor

¹ The Exchange initially filed the Program as SR-NFX-2015-45 on June 19, 2015 and the Program launched on July 24, 2015. The Program has since been amended a number of times.

² “Off-Exchange Reporting Broker” is defined in Chapter I, Section 1 of the NFX Rulebook as an Authorized Customer who has received authorization from the Exchange as provided in Chapter V, Section 4(m) which in turn provides that an Off-Exchange Reporting Broker may access the Trading System directly for the purpose of submitting transactions for reporting and clearing if the Off-Exchange Reporting Broker has received authorization from the Exchange and from a Clearing Futures Participant in a form prescribed by the Exchange.

trading in the Energy Broker Incentive Program's products to prevent manipulative trading and market abuse. Additionally, the Exchange has systems to track Energy Broker Incentive Program participants' volume to ensure proper distribution of earned incentives. Finally, NFX rules include prohibitions against fraudulent, non-competitive, unfair or abusive practices.

The terms and conditions of the Energy Broker Incentive Program are attached hereto as Exhibit 1. The amendment in Exhibit 1 will be implemented on July 24, 2016.

There were no opposing views among the NFX's Board of Directors, members or market participants. The Exchange hereby certifies that the amendment to include the New Contracts to the Energy Broker Incentive Program complies with the Commodity Exchange Act and regulations thereunder. The Exchange also certifies that notice of pending certification and a copy of this submission have been concurrently posted on the Exchange's website at <http://business.nasdaq.com/futures>.

If you require any additional information regarding the submission, please contact Stephen Matthews at +1 301 978 8458 or via e-mail at steve.matthews@nasdaq.com. Please reference SR-NFX-2016-71 in any related correspondence.
