**Re: Amendments to the Carbon Futures Contract Screen Volume Incentive Program  
- Submission Pursuant to Section 5c(c)(1) of the Act and Regulation 40.6**

Dear Mr. Kirkpatrick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended, and Commission Regulation 40.6, ICE Futures U.S., Inc. (“Exchange”) submits, by written certification, notice that the Exchange is amending the Carbon Screen Volume Incentive Program (the “Program”) as set forth in Exhibit A.

The Exchange certifies that the Program complies with the requirements of the Commodity Exchange Act and the rules and regulations promulgated thereunder. In particular, the amendments comply with Core Principle 4 (Monitoring of Trading), Core Principle 9 (Execution of Transactions) and Core Principle 12 (Protection of Market Participants). The Program is structured so that they do not create incentives for participants to engage in market abuses such as manipulative trading or wash sales. In addition, the Exchange’s Market Regulation Department actively monitors for trading abuses using electronic exception reports and will take appropriate action against any participants engaging in market abuses. The Program does not impact order execution priority or otherwise give participants any execution preference or advantage.

The Exchange further certifies that, concurrent with this filing, a notice of pending certification was posted on the Exchange’s website. A copy of this submission may be accessed at (<https://www.theice.com/futures-us/regulation#rule-filings>). The extension will become effective on May 11, 2023. The Exchange is not aware of any substantive opposing views with respect to the extension.
