Re: Crypto Price Liquidity Retainer Program

Pursuant to Commodity Exchange Act (“CEA”) Section 5c and Commodity Futures Trading Commission (“CFTC”) Regulation 40.6(a) ForecastEx LLC (“ForecastEx”, the “Exchange”, or the “Clearinghouse”) is submitting this rule amendment which modifies the ForecastEx Crypto Price Liquidity Retainer Program, to go into effect on September 29, 2026.

ForecastEx is amending the Crypto Price Liquidity Retainer Program, which is an incentive program that incentivizes quoting by Market Makers in ForecastEx Markets. ForecastEx is extending the effective date of the Crypto Price Liquidity Retainer Program from September 30, 2026 to October 31, 2026.

ForecastEx certifies that the proposed amendments comply with the Commodity Exchange Act (“CEA”) and CFTC regulations. ForecastEx further certifies that a copy of the 40.6 filing has been posted to the ForecastEx Website.

ForecastEx has reviewed the Core Principles for Designated Contract Markets (“DCMs”) and has determined that the amendments may relate to the following Core Principles.

CFTC Regulation 38.250 – Prevention of Market Disruption: This core principle requires that the contract market prevent market disruptions. The liquidity retainer program that is the subject of this rule helps support continuous two sided markets which reduce risks of gaps, volatility spikes, and illiquidity, all of which has the net effect of making disruptions less likely.

CFTC Regulation 38.500 – Execution of Transactions: This core principle requires that the contract market provide a competitive, open, and efficient market mechanism for executing transactions. ForecastEx is creating a liquidity retainer program for financials which supports the objective of maintaining continuous two-sided markets which supports efficient markets.

No substantive opposing views were offered in response to this submission.
