Washington, DC 20581

Re: Weekly Notification of Rule Amendments

Dear Mr. Kirkpatrick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act and CFTC Regulation 40.6(d), QCX LLC d/b/a Polymarket US (“Polymarket US” or the “Exchange”) submits this weekly notification of amendments to the Polymarket US Fee Schedule during the preceding week.

The amendment changes the taker fee formula for Combinatoric Contracts (combos) from $\text{Fee} = 0.0695 \times C \times p \times (1 - p)$ to $\text{Fee} = C \times p \times [0.0695(1 - p) + 0.04(1 - p)^4]$, effective 12:00 a.m. ET on Friday, September 25, 2026. C is the number of Contracts and p is the trade price. The standard taker fee formula for straight trades remains $\text{Fee} = 0.0695 \times C \times p \times (1 - p)$.

Exhibit A contains the Fee Schedule Amendments, with additions underlined and deletions struck through. Please contact me using the information below if you have any questions regarding this submission.

Sincerely,

/s/ Megan McGrath
Chief Compliance Officer
Polymarket US

EXHIBIT A
FEE SCHEDULE AMENDMENTS
(additions underlined; deletions ~~struck through~~)

1. Combinatoric Contract (combo) taker fee

Effective 12:00 a.m. ET on Friday, September 25, 2026

For combination Contracts, fees are calculated using the following formula:

$$\begin{aligned} & \text{Fee} = 0.0695 \times C \times p \times (1 - p) \\ & \text{Fee} = C \times p \times [0.0695(1 - p) + 0.04(1 - p)^4] \end{aligned}$$

- C is the number of Contracts
- p is the trade price (\$0.01 to \$0.99)
