Re: OneChicago, LLC Security Futures Product Rule Submission  
Updating Position Limits for Certain Security Futures Products  
(OneChicago Submission Number 20-001)

Dear Mr. Kirkpatrick:

Pursuant to section 5c(c)(1) of the Commodity Exchange Act, as amended (the “Act”), and § 41.24(a) of the regulations promulgated by the Commodity Futures Trading Commission (“CFTC” or the “Commission”) under the Act, OneChicago, LLC (“OneChicago” or the “Exchange”) hereby submits the following security futures product rule amendment, which will become effective on February 3, 2020.

Section 41.25(a)(3) of the Commission’s regulations establishes speculative position limits for security futures products. Designated contract markets (“DCMs”) may adopt position limits of 25,000 contracts for security futures products but may adopt increased position limits so long as the free float of the underlying security does not exceed 12.5% of the position limit. DCMs may also adopt Position Accountability for products so long as they meet criteria related to the trading volume over the past six months and free float for the underlying security. OneChicago has recalculated the position limits for its security futures products based on these criteria, and is amending position limits for all products. The complete schedule of updated position limits is included as attachment A to this submission.

\* \* \*

The purpose and effect of the rule amendment is to set position limits for OneChicago products in accordance with § 41.25 of the Commission’s regulations. Comments on this security futures rule amendment have not been solicited and none have been received. OneChicago is not aware of any substantive opposing views to this rule amendment. OneChicago certifies that the rule amendment complies with the Act, including the core principles, and the Commission’s regulations

# OneChicago ✕

promulgated thereunder. OneChicago further certifies that a copy of this submission has been posted on the [OneChicago website](#).

OneChicago staff has reviewed the core principles applicable to DCMs, and has concluded that the proposed rule amendment may have some bearing upon the following core principles:

*Core Principle 5:* Core Principle 5 requires that a DCM adopt position limits or position accountability to reduce the potential threat of market manipulation or congestion. This rule amendment supports Core Principle 5 in that it adjusts position limits for OneChicago products pursuant to Commission regulation § 41.25.

If you have any questions or comments related to this filing, please feel free to contact me by telephone at (312) 883-3436 or through e-mail at [gdeese@onechicago.com](mailto:gdeese@onechicago.com).

Respectfully Submitted,

17 JANUARY 2020

## UPDATING POSITION LIMITS

Effective Date

---

February 3, 2020

OneChicago LLC (“OneChicago”) is amending its Position Limits. On November 26, 2019, the Commodity Futures Trading Commission (“Commission” or “CFTC”) made effective amendments to 17 CFR § 41.25 and appendix A to subpart C of part 41. These amendments allow DCMs to increase the default position limit to 25,000 (100-share) contracts and allow for higher position limits as long as the free float of the underlying security does not exceed 12.5% of the position limit.

All OneChicago products have a new position limit. Most position limits are significantly higher under the new formula.

New position limits are listed in [OneChicago Submission 20-001](#).

Position Limits are also published daily on OneChicago’s [FTP site](#).
