Re: Gemini Titan, LLC Product Self-Certification under 17 C.F.R. § 40.2(a) for "Will the combined number of Runs scored by the New York Yankees and the Minnesota Twins be above 4.5 in the first 5 innings of the New York Yankees at Minnesota Twins game on September 16, 2026?" Event Contract.

Dear Mr. Kirkpatrick,

Pursuant to 17 C.F.R § 40.2(a), **Gemini Titan, LLC** (the "**Exchange**"), a designated contract market ("**DCM**"), hereby notifies the Commodity Futures Trading Commission (the "**Commission**") of its intention to list "**Will the combined number of Runs scored by the New York Yankees and the Minnesota Twins be above 4.5 in the first 5 innings of the New York Yankees at Minnesota Twins game on September 16, 2026?**" (the "**Contract**") for trading on the Exchange no earlier than Wednesday, September 16, 2026, which is no earlier than one business day following this submission.

Consistent with CFTC Staff Letter No. 26-08 (March 12, 2026) and CFTC Staff Letter No. 26-22 (July 24, 2026), the Exchange submits this Contract as a single, specific event contract identifying one identified combined-run threshold, one identified Innings Window, and one named game with one identified settlement source, rather than as a Broad Template Certification. The Exchange intends to rely on this certification as the referenced contract for a subsequent event contract series certification to be filed pursuant to 17 C.F.R. § 40.2(d), covering other half-point thresholds and MLB games that share an identical settlement source and methodology with this Contract, consistent with this Contract's own half-point threshold of 4.5, which ensures the combined run total can never equal the threshold and therefore cannot result in a push.

Along with this letter, the Exchange hereby submits:

(i)The Contract's Rules/terms and conditions as Attachment A;

(ii)A concise explanation and analysis demonstrating that the Contract complies with the Commodity Exchange Act (the "**Act**") as confidential attachment B; and

(iii)A confidential treatment request made pursuant to 17 C.F.R. § 145.9.

The Exchange hereby certifies that the listing of the Contract complies with the Act and the Commission regulations promulgated thereunder. The Exchange also certifies that it is not aware of any substantive opposing views regarding the listing of the Contract, and that this submission, except for the appendices for which confidential treatment has been requested, has been concurrently posted on the Exchange's website at https://www.gemini.com/titan/product-filings.

The Exchange respectfully requests confidential treatment for the materials identified in the separately attached confidential treatment request (the **"Confidential Materials"**). This request is made pursuant to 17 C.F.R. § 145.9 and should be construed to cover the Confidential Materials in their entirety. If the Commission receives a FOIA request for the Confidential Materials, please notify the undersigned so the Exchange may provide the detailed written justification contemplated by the Commission's FOIA rules. The Exchange understands that the request itself may be treated as a public document under § 145.9(d)(6).

If you have any questions regarding this submission, please contact the undersigned at the information below.

Sincerely,

Andrew R. Beatty
Chief Legal Officer
Gemini Titan, LLC

Attachment A

Rule Text for "Will the combined number of Runs scored by the New York Yankees and the Minnesota Twins be above 4.5 in the first 5 innings of the New York Yankees at Minnesota Twins game on September 16, 2026?"

(a) General

(1)These Contract Rules govern the trading of "Will the combined number of Runs scored by the New York Yankees and the Minnesota Twins be above 4.5 in the first 5 innings of the New York Yankees at Minnesota Twins game on September 16, 2026?" (the "Contract") on the Exchange and the clearing of the Contract through the Clearing House.

(2)Capitalized Terms used, but not defined herein, have the meanings ascribed to them in the Exchange Rulebook.

(3)This Contract references a single numerical threshold, a single statistic, a single Innings Window, and a single identified MLB game, and does not admit of any additional parameters, iterations, or permutations. The Exchange intends to separately submit a certification pursuant to 17 C.F.R. § 40.2(d) that references this Contract as the basis for an event contract series covering other half-point thresholds and MLB games that share an identical settlement source and methodology with this Contract, mirroring this Contract's own 4.5 threshold, a half-point number chosen so that the combined run total can never equal the threshold and no push can occur.

(b) Underlying

(1)The Underlying for the Contract is whether the combined number of runs officially scored by the New York Yankees and the Minnesota Twins during the first 5 innings (the "Innings Window") of the game scheduled between the New York Yankees and the Minnesota Twins on September 16, 2026, at Target Field, Minneapolis, Minnesota, with a scheduled first pitch of 1:40 PM ET (the "Game"), is above 4.5, as documented by the Source Agency. The combined total is calculated as the sum of each team's officially recorded run total during the Innings Window. Revisions to the Underlying made after Expiration will not be accounted for in determining the Expiration Value.

(2)The Contract is cash-settled and applies solely to the Game.

(3)The Source Agency is MLB.com and its official Stats API (statsapi.mlb.com). If the Source Agency is not available, the Exchange may use the following, in hierarchical order, as a backup: (i) ESPN and (ii) NBC, TBS, Apple, Netflix, Fox, or the official broadcast or streaming partner of the Game.

(4)The Expiration Value is the value of the Underlying as documented by the Source Agency on the Expiration Date at the Expiration Time.

(c) Contract Size

(1)The Contract has a notional size of one dollar ($1.00).

(d) Settlement and Expiration

(1)The Payout Criterion for the Contract is whether the combined number of runs officially scored by the New York Yankees and the Minnesota Twins during the Innings Window is above 4.5, subject to the following rules:

(i)The recorded value reflects only runs that were actually scored during the Innings Window by either team, regardless of the manner in which they were scored (including by hit, walk, error, wild pitch, passed ball, hit batsman, balk, fielder's choice, sacrifice, or any other means recognized under MLB's official scoring rules) or the amount of playing time any individual player received. Without limitation, a decision by team personnel regarding lineup construction, substitutions, or in-game strategy for any reason does not affect settlement; the Contract settles on the actual recorded value at the Expiration Time.

(ii)If the Game is shortened, called, or otherwise ends prior to the completion of the regulation number of innings (including because of weather, curfew, or a mercy rule): (A) if the Innings Window was completed before the Game was shortened, called, or otherwise ended, the Contract shall settle based on the combined run total actually recorded by both teams during the Innings Window, without regard to the number of innings ultimately completed in the Game or whether MLB declares the Game official; and (B) if the Innings Window was not completed before the Game was shortened, called, or otherwise ended, the Contract shall resolve to the last fair price determined in the sole discretion of the Exchange.

(iii)If the Game is postponed prior to commencement for any reason (including rain, weather, or field conditions), the Contract shall remain open and active pending the rescheduling and completion of the Game.

(iv)If the Game commences but is suspended before the Innings Window is completed, and is intended by MLB to be resumed and completed at a later date (including on a subsequent day), the Contract shall remain open and active, expiring one hour after the Innings Window is completed, as reported by the Source Agency.

(v)If, under clause (iii) or (iv) above, the Innings Window is not completed and no result is recorded by the Source Agency by the final scheduled day of the current MLB regular season (or, if the Game is a postseason game, the final scheduled day of the applicable postseason round), the Contract shall resolve to the last fair price determined in the sole discretion of the Exchange. If the Game is postponed or suspended for more than two weeks, the Exchange may resolve the Contract to the last fair price determined in its sole discretion.

(vi)If the Game is officially cancelled with no result declared and no make-up game scheduled, the Contract shall resolve to the last fair price determined in the sole discretion of the Exchange.

(vii)The value as recorded by the Source Agency at the Expiration Date determines settlement. Changes to the result occurring after the Expiration Date will not affect settlement.

(2)The Settlement Date of the Contract shall be no later than the day after the Expiration Date, unless the Market Outcome is under review pursuant to Rule 7.1 of the Rulebook.

(3)The Expiration Date of the Contract shall be the date one hour after the Innings Window is completed, as reported by the Source Agency, or as otherwise determined pursuant to Section (d)(1) above.

(4)The Expiration Time of the Contract shall be one hour after the Innings Window is completed, as reported by the Source Agency.

(e) Listing and Trading Hours

(1)As outlined in Rule 5.16 of the Rulebook, trading shall be available at all times outside of any maintenance windows, which will be announced in advance by the Exchange.

(2)The Last Trading Date and Last Trading Time of the Contract will be the same as the Expiration Date and Expiration Time.

(f) Price Limits and Minimum Quote Increment

(1)The Minimum Quote Increment for the Contract is $0.01, provided that the Exchange may set a smaller Minimum Quote Increment for the Contract, which may be as small as $0.0001, pursuant to Rule 13.1(c) of the Rulebook.

(2)There shall be no Orders for transactions in the Contract at a price less than one cent ($0.01) or more than ninety-nine cents ($0.99).

(g) Position Accountability and Position Limits

(1)The position accountability level shall be $25,000 of notional exposure.

(2)No position limits apply. The Contract is not considered an economically equivalent swap under 17 C.F.R. §150.1.

(h) Additional Settlement Contingencies

(1)Before Settlement, the Exchange may, at its sole discretion, initiate the Market Outcome Review Process pursuant to Rule 7.1 of the Rulebook. If an Expiration Value cannot be determined on the Expiration Date (including because the Game is cancelled or a team has forfeited, withdrawn, or been disqualified in a scenario not described above), the Exchange has the right to determine payouts pursuant to Rule 7.1 of the Rulebook.
