Re: Class Certification of NCAAF Total Swaps Pursuant to Section 5c(c) of the Commodity Exchange Act and CFTC Regulation 40.2(d)

Dear Sir or Madam:

Pursuant to Section 5c(c) of the Commodity Exchange Act (the “Act”), 7 U.S.C. § 7a-2(c), and Commission Regulation 40.2(d), 17 C.F.R. § 40.2(d), Ludlow Exchange, LLC (“Ludlow” or the “Exchange”), a registered designated contract market doing business as Novig, hereby certifies a class of NCAAF Total swaps (the “Class”) for listing on the Exchange.

A description of the Class and the certifications required by Regulation 40.2(d) follow:

The Previously Certified Contract. On September 15, 2026, the Exchange submitted and certified the NCAAF Total Contract pursuant to Commission Regulation 40.2(a), CFTC Submission No. 2609-1512-0754-53 (the “Previously Certified Contract”). The submission included the complete terms and conditions governing the Previously Certified Contract, including its pricing sources, formulas, procedures, and methodologies for determining reference values and payment obligations.

The Class. Each particular swap within the Class is an event contract based on the total points scored in a specified NCAAF college football game or a designated segment of that game, measured against a total line. Each swap will be governed by the terms and conditions of the Previously Certified Contract. The values assigned to <game>, <team 1>, <team 2>, <scope>, <time period>, <count>, <comparison operator>, <date>, and <scheduling week> may vary among swaps within the Class and will be specified by the Exchange before the applicable swap is listed. No other term affecting the pricing source, calculation of the reference value, payment obligations, settlement procedure, or settlement currency may vary among swaps within the Class.

Identical Pricing Sources and Methodology. Each swap within the Class will use the NCAA, the Governing Body of <game>, as the Source Agency and the identical source hierarchy specified in the Previously Certified Contract, applied in order: (i) the official results publication of the NCAA; (ii) any other official channel maintained or expressly authorized by the NCAA, such as ESPN, the Associated Press, Fox Sports, or the official broadcaster of <game>; (iii) the official records of any renamed, reorganized, or successor Governing Body of <game>; and (iv) a result reported concordantly by at least two independent sources with a credible reputation regarding events relative to the NCAA. The reference value for each swap is the arithmetic sum of all Points recorded within <scope> during <time period> of <game>, as recorded by the Source Agency. <scope> is either both <team 1> and <team 2> (a game total)

or one named side (a team total), and only Points officially recorded by the Source Agency count toward the reference value. Settlement follows the Payout Criterion: if the total Points recorded within <scope> during <time period> of <game> is <comparison operator> <count>, the Member holding the YES side receives the Settlement Value, and if it is not, the Member holding the NO side receives the Settlement Value. Because <count> is always expressed as a half-integer number of points, the total can never equal <count>, and every swap resolves YES or NO; no swap within the Class can settle as a tie or a split. Each swap settles on an unequivocally determined Expiration Value under the Expiration Value Determination Rule, on the basis of the Points recorded by the Source Agency and regardless of whether the Source Agency designated <game> as official or complete, which is satisfied where the applicable <time period> has reached its Conclusion or where the Payout Criterion has been satisfied, or can no longer be satisfied, on the basis of the total Points already recorded. Shortened Play does not, in itself, void a swap, and where play ends by Shortened Play the applicable <time period> reaches its Conclusion. Under the Forfeit Rule, a forfeit before Commencement settles the swap to Void, and a forfeit after Commencement is treated as <game> having reached its Conclusion at the time of forfeiture, except that a score recorded to reflect the forfeit itself rather than Points scored in play is not used to determine the Expiration Value. Where a swap settles to Void—including under the Expiration Value Determination Rule, the Scheduling and Postponement Rule, which is measured by reference to <scheduling week>, the Format Change Rule, the Forfeit Rule, the No Result and Data Availability Rule, the Extraordinary Circumstances Rule, or the General Market Suspension Rule—or where any other provision otherwise provides for settlement at fair value, the swap will be resolved under the identical Fair Value Settlement Rule, including its Reference Time, Calculation Window, composite Fair Value Price sources, normalization methodology, Data Integrity exclusions, Fallbacks, and payment allocation. The determination of the Expiration Value is final under the Determination Finality Rule. Each swap will be denominated and settled in United States dollars.

Certifications. Pursuant to Section 5c of the Act and Commission Regulations 40.2(a)(3)(iv), 40.2(a)(3)(vi), and 40.2(d), the Exchange hereby certifies that:

- (i) each particular swap within the Class is based upon an excluded commodity specified in Commission Regulation 40.2(d)(1), specifically an occurrence, extent of an occurrence, or contingency within Section 1a(19)(iv) of the Act;
- (ii) each particular swap within the Class is based upon an excluded commodity with an identical pricing source, formula, procedure, and methodology for calculating reference prices and payment obligations;
- (iii) the pricing source, formula, procedure, and methodology for calculating reference prices and payment obligations in each particular swap within the Class are identical to those used in the Previously Certified Contract;
- (iv) each particular swap within the Class is based upon an excluded commodity involving an identical currency, the United States dollar;
- (v) each particular swap within the Class complies with the Act and the Commission's regulations thereunder; and

LUDLOW EXCHANGE, LLC.

New York, NY

(vi) concurrently with the filing of this submission, the Exchange has posted on its public website at <https://www.ludlowexchange.com/filings> a notice of pending class certification and a copy of this submission.

Submission Timing. The Exchange has filed this submission electronically through the CFTC Portal and will not list or facilitate trading in any swap within the Class unless the Commission has received this submission by the open of business on the business day preceding the listing, as required by Commission Regulation 40.2(a)(2).

Sincerely,

Calvin Smith
