

Attachment A: Terms & Conditions
FIRST ROUND ELECTION WINNER CONTRACTS: BRAZIL (FREWCBR)

Product Name: Will any candidate win the October 4, 2026 Brazilian presidential election outright in the first round?

Category: Politics

Type: Event Contract

Capitalized terms used, but not defined herein, have the meanings ascribed to them in the QCX LLC d/b/a Polymarket US (the “Exchange” or “PMUS”) Rulebook. “Contract Terms” means the specific parameters applicable to each Contract available for trading on the Exchange.

Size: Each Contract has a notional size of \$1.00.

Minimum Tick: The Minimum Tick size for the Contract will not be less than \$0.001, and not be greater than \$0.01.

Position Accountability Level: The Position Accountability Level will be \$25,000 of notional exposure.

Position Limits: No position limits apply.

Margin: Margin is 100% of the at-risk amount.

Issuance: Contracts may be listed by the Exchange at any time. Contract iterations will be issued on an as-needed basis at the discretion of the Exchange.

Settlement Amount: The Settlement Amount is \$1.00 per Contract, payable in accordance with the Payout Condition.

Expiration Value: The Expiration Value is the value of the Underlying as documented by the designated Source at Expiration.

Underlying

The Underlying for each Contract is the result of the first round of the October 4, 2026 Brazilian presidential election. Any instructional examples set forth in these Terms & Conditions (the “Product Specifications”) or in the Contract Terms are provided for convenience only, are non-exhaustive, and are not intended to limit the scope of the applicable definitions or criteria.

Parameters

- **the October 4, 2026 Brazilian presidential election:** The specific election in which the first round result is observed. The October 4, 2026 Brazilian presidential election must be an election for public office in Brazil in which a second round or runoff is only mandated if no candidate meets the applicable requirements to be declared the winner in the first round.

Sources

The Exchange will serve as the Source Agency for all Contracts. In determining the Contract Outcome for each Contract, the Exchange will reference the following source hierarchy (collectively, the “Sources”):

- **Primary Sources:** The official electoral authority responsible for certifying the results of the October 4, 2026 Brazilian presidential election.
- **Secondary Sources:** Reuters, Associated Press, Bloomberg News, Agence France-Presse, The New York Times, The Wall Street Journal, Financial Times, The Korea Herald, The Times of India, The Washington Post, BBC, France 24, Deutsche Welle, NHK World, Al Jazeera English, Axios, Politico, Semafor, NPR, ABC, CBS, NBC, CNN, Fox News, and MSNBC.

The Exchange may designate additional or substitute Sources. All instructions on how to access the Underlying data via the designated Source will be made available to market participants. The Source hierarchy is designed to produce reliable, publicly verifiable settlement data that is resistant to manipulation or premature disclosure. QCX LLC d/b/a Polymarket US is not affiliated with, and has no ownership interest in or control over, any of the Sources enumerated herein.

Expiration Date and Time

Unless otherwise provided in the Payout Condition, the Expiration Date will be the earlier of: (i) the day of the official declaration of the result by the designated Source, or (ii) two years after the October 4, 2026 Brazilian presidential election. The Expiration Time will be 11:59:59 PM ET on the Expiration Date, or such other time as specified in the Contract Terms. As provided for by 10.3 and 10.4 of the Rulebook, if any circumstances arise that would prevent a Contract’s value from being determined accurately at Expiration, including but not limited to delayed data from a relevant source, the Exchange may adjust the Expiration Date.

Last Trading Date and Time

The Last Trading Date and Time will be the same as the Expiration Date and Time, unless otherwise specified in the Contract Terms, or unless the Contract Outcome Review Process is initiated.

Settlement Date and Time

The Settlement Date and Time will be no later than the day after the Expiration Date, unless otherwise specified in the Contract Terms, or unless the Contract Outcome Review Process is initiated.

Payout Condition

Contracts pay out if the Payout Condition is met. The Payout Condition for the Contract is met if any candidate wins the October 4, 2026 Brazilian presidential election outright in the first round of the October 4, 2026 Brazilian presidential election. The Payout Condition is evaluated as follows:

- **First Round Winner:** A candidate wins the October 4, 2026 Brazilian presidential election outright in the first round if they satisfy all applicable requirements to win the October 4, 2026 Brazilian presidential election outright in the first round under the rules of the relevant jurisdiction and are declared the winner of the October 4, 2026 Brazilian presidential election by the electoral authority responsible for determining the results of the October 4, 2026 Brazilian presidential election. If no candidate satisfies the applicable requirements to win the October 4, 2026 Brazilian presidential election outright in the first round, the Payout Condition is not met, and the avoidance of a second round or runoff through the withdrawal or disqualification of another candidate, or any other circumstance does not impact the Contract Outcome.
- **Ties:** If a tie at the applicable winning threshold in the first round of the October 4, 2026 Brazilian presidential election is resolved through the legal or constitutional tiebreak mechanism of the applicable jurisdiction such that a candidate is declared the winner of the October 4, 2026 Brazilian presidential election outright without a second round or runoff being held, the Payout Condition is evaluated on the official declaration resulting from that mechanism. If the tie results in a second round or runoff being held, the Payout Condition is not met.
- **Official Results:** Unless otherwise specified in the Contract Terms or these Terms & Conditions, settlement is based on the official results of the October 4, 2026 Brazilian presidential election. Adjustments to those results will be reflected in settlement only if reported by Expiration; revisions reported after Expiration will not qualify.
- **Delayed Election:** If the October 4, 2026 Brazilian presidential election is postponed or rescheduled, and a replacement election has been scheduled by Expiration, the Contract will remain open and refer to the outcome of that election.
- **Cancellation or Indefinite Delay:** If the October 4, 2026 Brazilian presidential election is indefinitely delayed or canceled outright and no replacement election has been scheduled by Expiration, the Exchange may settle Contracts at last fair market prices or initiate the Contract Outcome Review Process.
- **Annulled Elections:** If results are formally annulled by a court or other electoral authority before Expiration, the Contract remains open until the earlier of the certification of the results of the re-run election or Expiration. If the results of the re-run election are not available by Expiration, the Contract settles under the Cancellation or Indefinite Delay provision. If results are formally annulled by a court or authority after Expiration, settlement will not be affected.
- **Competing Claims:** Where multiple authorities present different outcomes of the October 4, 2026 Brazilian presidential election that materially differ with respect to the Contract Outcome, the Exchange may determine the outcome through the hierarchy of Sources. If such a determination is not possible, the Exchange may initiate the Contract Outcome Review Process.
- **Extra-Constitutional Interruptions:** Military coups, revolutions, foreign interventions, or other extra-constitutional events do not affect settlement if the electoral process was completed and results sufficient to determine the underlying were declared by the Sources prior to such event. If the extra-constitutional event prevents the electoral process from being completed, the Exchange may settle Contracts at last fair market prices or initiate the Contract Outcome Review Process.
- **Disputed Results and Delayed Certifications:** If voting in the October 4, 2026 Brazilian presidential election has concluded but the official results have not been certified by the Sources by Expiration, whether because certification is delayed, withheld, or subject to formal contest, challenge, annulment, recount, or other proceedings, and such contention or recount may materially impact the Contract Outcome, the Contract will remain open until the Underlying is finally determined, or can be determined through the hierarchy of Sources, provided such determination occurs by Expiration. If no such results are available by Expiration, and the Contract Outcome cannot be determined as otherwise provided in these Terms & Conditions or the relevant Contract Terms, the Exchange may initiate the Contract Outcome Review Process. If the election is re-run, or a replacement election is held, and its results reported by Expiration, those results govern the Contract Outcome.
- **Accelerated Settlement:** This Contract may be settled on an accelerated basis if a qualifying outcome occurs before Expiration. In the absence of confirmation from a Primary Source, the Exchange, in determining whether a qualifying outcome has occurred, may accept the consensus of Secondary Sources that have made declarations determinative of a

given outcome. This applies both to declarations determining that the Payout Condition has been satisfied, and those that determine that it definitively cannot be satisfied. A Secondary Source is understood to have made a qualifying declaration when it either issues a formal projection by its centralized decision desk, or makes an unambiguous statement in a news article. A statement is unambiguous only if it conveys, in substance, that the relevant underlying has been determined; statements indicating that an outcome is “leading,” “on track,” “likely,” or similar conditional language will not qualify.

- **Final Settlements:** Once an outcome has been determined by the Exchange in accordance with the objective criteria set forth herein, such determination will be final and will not be subject to appeal or revision for purposes of settlement.

In the event of a dispute as to whether the Payout Condition has been met, the Exchange will resolve such dispute in accordance with the procedures set forth in the PMUS Rulebook.

Eligibility

In addition to the Source Prohibition, and the general prohibition against trading on material nonpublic information in violation of a pre-existing duty, the Exchange will institute additional prohibitions for trading the Contract. Persons under 18 years of age are not permitted to create Polymarket US accounts. The following individuals will be prohibited from trading:

- Candidates in the October 4, 2026 Brazilian presidential election and members of their campaign committees;
- Current and former employees, officers, directors, contractors, and consultants of the Source with access to the data used to settle the Contract prior to its publication;
- Participants in any pre-release lock-up, embargo, or advance-access arrangement for the data used to settle the Contract;
- Ultimate beneficial owners of entities with advance access to, or the ability to influence, the Contract or the data used to determine it; and
- Household members and immediate family of all of the above.

Modifications

Before Settlement, the Exchange may initiate the Contract Outcome Review Process. If any event or any circumstance which may have a material impact on the reliability or transparency of a Contract’s Sources or the Underlying related to the Contract arises, the Exchange retains the authority to designate a new Source and Underlying for that Contract and to change any associated Payout Condition and Contract Terms after the first day of trading.
