	activation of the Kill Switch.	

Rule S3-408. No Cancellation Ranges and Reasonability Limits

- (a) Order and transaction prices on the Platform must be reasonable in relation to market prices. Transactions on the Platform will be deemed reasonable and not cancellable within a specified range of an anchor price. The anchor price at any given time will be the average of the mid-prices recorded in StreamGlobal for the previous minute immediately prior to the transaction in question for the Product in question. Tradition SEF will apply the formulas in S3-408(c) and S3-408(d) to create ranges around the anchor price. Transactions at prices falling within the reasonability range will be deemed binding and not cancellable. Transactions at prices outside of the reasonability range may be deemed to be an error and may be subject to cancellation at the discretion of the Market Regulation Department, which will review such transactions and make a determination based on the relationship of the transaction price to the reasonability range and market conditions at the time of the transaction.
- (b) Tradition SEF's Market Regulation department has the authority to expand the no cancellation and reasonability limits levels on any Contract to two (2) times the levels described above in volatile market conditions without prior notice.

Mid-Price Match - Order Book

(a)(d) The Mid-Price Match Order Book contains all Orders entered into the Platform for midprice matching by the Participants or Customers. Match participants are prevented from seeing details of interests building in the Order Book prior to the initiation of the pricematching function of the Match or during the Match itself, Interest in initiating a Match is indicated by the mid-price in the Order Book changing to a different color than midprices on the Order Book that do not have Match interests. The Match Order Book acts as a matching engine for Orders inputted during the Match, matching strictly on a "First In First Out" time priority basis. If an Order is filled fully or partially, the filled portion of the Match Order will be removed from the Match Order Book. Pursuant to Rule 412 of the Rulebook, when the Platform matches Orders, a Confirmation will be sent immediately from the Platform to each counterparty to the Transaction.
