### SUBMITTED VIA CFTC PORTAL

Secretary of the Commission Office of the Secretariat U.S. Commodity Futures Trading Commission Three Lafayette Centre 1155 21st Street, N.W. Washington, D.C. 20581

Re: KalshiEX LLC – CFTC Regulation 40.6(a) Notification Regarding the Amendment of the RAINNYC Contract

Dear Sir or Madam.

Pursuant to Section 5c(c) of the Commodity Exchange Act and Section 40.6(a) of the regulations of the Commodity Futures Trading Commission, KalshiEX LLC (Kalshi) hereby notifies the Commission that it is amending the RAINNYC contract (Contract). The Exchange intends to list the contract on a daily basis. However, during times of exception rain forecasts (e.g. in advance of a hurricane), the Exchange may list the contract out on a longer time duration. The Contract's terms and conditions (Appendix A) includes the following strike conditions:

- <date>
- <inches>

#### The amendments are as follows::

- 1. The Expiration Date is moved from a fixed date one day after <date> to the sooner of the nearest 10:00 AM following the release of the data for <date> or one week after <date>. This change benefits members by all but eliminating the risk of an expiration occurring with missing data while minimizing the time lag between the occurrence of the event and people receiving the money.
- 2. The settlement time has been shortened from one day after Expiration to no later than one day after Expiration, in order to further accelerate members receiving their money.
- 3. We also simplified the <greater than/less than> to simply "greater than" to make it consistent with its peer contract, RAINSEA.
- 4. We have also added enhanced instructions on how to access the Underlying.
- 5. Form language has been added to the Contingency section to be consistent with other contracts

Along with this letter, Kalshi submitted the following documents:

- A clean copy of the amended parts of the originally filed Contract (Introduction and Contract Terms and Conditions, as well as Appendix A); and
- A redline showing the amendments.

The Contract complies with the Act and Commission regulations thereunder. This submission (other than those appendices for which confidential treatment has been requested) has been concurrently posted on the Exchange's website at https://kalshi.com/regulatory/filings.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Elieze Mishry

# CONCISE EXPLANATION AND ANALYSIS OF THE PRODUCT AND ITS COMPLIANCE WITH APPLICABLE PROVISIONS OF THE ACT, INCLUDING CORE PRINCIPLES AND THE COMMISSION'S REGULATIONS THEREUNDER

Pursuant to Commission Rule 40.2(a)(3)(v), the following is a concise explanation and analysis of the product and its compliance with the Act, including the relevant Core Principles, and the Commission's regulations thereunder.

### I. Introduction

The "How much will it rain in New York City?" contract is a contract relating to the amount of precipitation in New York City. After careful analysis, Kalshi (hereafter referred to as "Exchange") has determined that the Contract complies with its vetting framework, which has been reviewed by the CFTC and formed part of the Exchange's application for designation as a Contract Market ("DCM") that was approved by the Commission.

Further information about the contract, including an analysis of its risk mitigation and price basing utility, as well as additional considerations related to the contract, is included in Confidential Appendix B.

Pursuant to Section 5c(c) of the Act and CFTC Regulations 40.2(a), the Exchange hereby certifies that the listing of the Contract complies with the Act, including regulations under the Act.

General Contract Terms and Conditions: The Contract operates similar to other binary contracts that the Exchange lists for trading. The minimum price fluctuation is \$0.01 (one cent). Price bands will apply so that Contracts may only be listed at values of at least \$0.01 and at most \$0.99. Further, the Contract is sized with a one-dollar notional value and has a minimum price fluctuation of \$0.01 to enable Members to match the size of the contracts purchased to their economic risks. The Exchange has further imposed position limits (defined as maximum loss exposure) of \$25,000 USD on the Contract. As outlined in Rule 5.12 of the Rulebook, trading shall be available at all times outside of any maintenance windows, which will be announced in advance by the Exchange. Members

will be charged fees in accordance with Rule 3.6 of the Rulebook. Fees are charged in such amounts as may be revised from time to time to be reflected on the Exchange's Website. Additionally, as outlined in Rule 7.2 of the Rulebook, if any event or any circumstance which may have a material impact on the reliability or transparency of a Contract's Source Agency or the Underlying related to the Contract arises, Kalshi retains the authority to designate a new Source Agency and Underlying for that Contract and to change any associated Contract specifications after the first day of trading. That new Source Agency and Underlying would be objective and verifiable. Kalshi would announce any such decision on its website. All instructions on how to access the Underlying are non-binding and are provided for convenience only and are not part of the binding Terms and Conditions of the Contract. They may be clarified at any time. Furthermore, the Contract's payout structure is characterized by the payment of an absolute amount to the holder of one side of the option and no payment to the counterparty. During the time that trading on the Contract is open, Members are able to adjust their positions and trade freely. After trading on the Contract has closed, the Expiration Value and Market Outcome are determined. The market is then settled by the Exchange, and the long position holders and short position holders are paid according to the Market Outcome. In this case, "long position holders" refers to Members who purchased the "Yes" side of the Contract and "short position holders" refers to Members who purchased the "No" side of the Contract. If the Market Outcome is "Yes," meaning that the number of inches of precipitation recorded for the statistical period of <date> for New York City is strictly greater than <inches>, then the long position holders are paid an absolute amount proportional to the size of their position and the short position holders receive no payment. If the Market Outcome is "No," then the short position holders are paid an absolute amount proportional to the size of their position and the long position holders receive no payment. Specification of the circumstances that would trigger a Market Outcome of "Yes" are included below in the section titled "Payout Criterion" in Appendix A.

# APPENDIX A – CONTRACT TERMS AND CONDITIONS

## TERMS OF CONTRACTS TRADED ON KALSHI

Official Product Name: How much will it rain in New York City?

Ticker and Rulebook: RAINNYC

## **RAINNYC**

**Scope:** These rules shall apply to the contract referred to as RAINNYC

**Underlying:** The Underlying for this Contract is the number of inches of precipitation recorded for the specified <date> published in the National Weather Service's ("NWS") Daily Climate Report for Central Park, New York City, New York. Data that is revised past the Expiration Date and Expiration time of the contract will not be used to determine the Expiration Value of the Contract.

**Instructions:** Please navigate to

https://www.weather.gov/wrh/Climate?wfo=okx, select the tab of "Observed Weather", selecting "Central Park NY". Scroll down to the report for <date>. Specifically, it is in the section labeled "Precipitation" in a column titled "Observed Value". Precipitation is reported in inches. As stated on the NWS website, "These data are preliminary" and "are subject to revision."

Revisions made during the statistical period or the period between the Last Trading Date and Time and Expiration Date and Expiration time may be taken into account in determining the contract. If the aforementioned section for the most recently published NWS Daily Climate Report for the day after <date> does not have the row "Yesterday" and instead says "Today", navigate to the most recently published NWS Daily Climate Report for the day after <date> which has a row labeled "Yesterday" in the aforementioned section (and the Underlying is documented in the manner described above). In the event that no such section from the day after <date> is available, navigate to the most recent published report (that is published by Expiration) from <date> in the section labeled "Precipitation" in a column titled "Observed Value" and row titled "Today".

These instructions on how to access the Underlying are provided for convenience only and are not part of the binding Terms and Conditions of the Contract. They may be clarified at any time.

**Source Agency:** The Source Agency is the National Weather Service.

**Type:** The type of Contract is a Binary Contract.

**Issuance:** The Contract is based on the outcome of a recurrent data release which is issued on a daily basis. Thus, Contracts will generally be issued on a daily basis.

**Inches:** Kalshi may list RAINNYC contracts with <inches> levels that fall within an inclusive range between a maximum value of 100 inches and a minimum value of 0 inches at consecutive

increments of .01 inches. Due to the potential for variability in the Underlying, the Exchange may modify <inches> levels in response to suggestions by Members.

**Date:** <date> refers to a date specified by Kalshi. Kalshi may list contracts corresponding to different statistical periods of <date>.

**Payout Criterion:** The Payout Criterion encompasses the Expiration Values that are strictly greater than <inches>.

**Minimum Tick:** The Minimum Tick size for the referred Contract shall be \$0.01.

**Position Limit:** The Position Limit for the \$1 referred Contract shall be \$25,000 per Member.

**Last Trading Date:** The Last Trading Date is <date>. The Last Trading time is 11:59pm ET.

**Settlement Date:** The Settlement Date of the Contract shall be no later than the day after the Expiration Date unless Market Outcome is under review pursuant to Rule 7.1.

**Expiration Date:** The Expiration Date of the Contract shall be the sooner of the first 10:00 AM ET after the release of the data for <date>, or one week after <date>.

**Expiration Time:** The Expiration Time of the Contract shall be 10:00am ET.

**Settlement Value:** The Settlement Value for this Contract is \$1.00.

**Expiration Value:** The Expiration Value is the value of the Underlying as documented by the Source Agency on the Expiration Date at the Expiration time

Contingencies: Before Settlement, Kalshi may, at its sole discretion, initiate the Market Outcome Review Process pursuant to Rule 6.3(c) of the Rulebook. Additionally, as outlined in Rule 7.2 of the Rulebook, if any event or any circumstance which may have a material impact on the reliability or transparency of a Contract's Source Agency or the Underlying related to the Contract arises, Kalshi retains the authority to designate a new Source Agency and Underlying for that Contract and to change any associated Contract specifications after the first day of trading.
