

COMMODITY FUTURES TRADING COMMISSION

17 CFR Part 4

RIN Number 3038-XXXX

**Amendments to Compliance Requirements for Commodity Pool Operators on Form
CPO-PQR**

AGENCY: Commodity Futures Trading Commission

ACTION: Notice of proposed rulemaking

SUMMARY: The Commodity Futures Trading Commission (CFTC or Commission) is proposing amendments to Regulation 4.27 and Form CPO-PQR, as codified at appendix A to part 4 of the Commission's regulations. Specifically, the proposal would: (1) eliminate the pool-specific reporting requirements in existing Schedules B and C of Form CPO-PQR, other than the pool schedule of investments, and (2) amend the information in existing Schedule A of the form to request Legal Entity Identifiers (LEIs) for commodity pool operators (CPOs) and their operated pools that have them, and to eliminate questions regarding pool auditors and marketers. All CPOs would be required to file the resulting amended Form CPO-PQR quarterly, but would also be allowed to file NFA Form PQR, a comparable form required by the National Futures Association (NFA), in lieu of filing the revised Form CPO-PQR. Relatedly, the Commission would also no longer accept Form PF filing in lieu of the revised Form CPO-PQR. The Commission preliminarily believes that these amendments would focus Form CPO-PQR on data elements that facilitate the Commission's oversight of CPOs and their pools in connection with its use of other

(subject to technical corrections)

Commission data streams and regulatory initiatives while reducing overall data collection requirements for market participants.

DATES: Comments must be received on or before **[INSERT DATE 60 DAYS AFTER PUBLICATION ON CFTC.GOV]**.

ADDRESSES: You may submit comments, identified by RIN number _____, by any of the following methods:

- CFTC Comments Portal: <https://comments.cftc.gov>. Select the “Submit Comments” link for this rulemaking and follow the instructions on the Public Comment Form.

- Mail: Christopher Kirkpatrick, Secretary of the Commission, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street, N.W., Washington, DC 20581.

- Hand Delivery/Courier: Follow the same instructions as for Mail, above.

Please submit your comments using only one of these methods. Submissions through the CFTC Comments Portal are encouraged.

All comments must be submitted in English, or if not, accompanied by an English translation. Comments will be posted as received to <https://comments.cftc.gov>. You should submit only information that you wish to make available publicly. If you wish the Commission to consider information that you believe is exempt from disclosure under the Freedom of Information Act (FOIA), a petition for confidential treatment of the exempt

Sterling, Director, at 202-418-6700 or jsterling@cftc.gov; Amanda Leshar Olear, Deputy Director, at 202-418-5283 or aolear@cftc.gov; Division of Swap Dealer and Intermediary Oversight, Commodity Futures Trading Commission, Three Lafayette Centre, 1151 21st Street, N.W., Washington, DC 20581.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 1a(11) of the Commodity Exchange Act (CEA or the Act)² defines the term “commodity pool operator” (CPO), as any person³ engaged in a business that is of the nature of a commodity pool, investment trust, syndicate, or similar form of enterprise, and who, with respect to that commodity pool, solicits, accepts, or receives from others,

¹ 17 CFR 145.9. The Commission’s regulations are found at 17 CFR Ch. I (2019).

² 7 U.S.C. 1, *et seq.* (2019). The Act is accessible through the Commission’s website, <https://www.cftc.gov>.

³ *See* 17 CFR 1.3 (defining “person” to include individuals, associations, partnerships, corporations, and trusts).

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

funds, securities, or property, either directly or through capital contributions, the sale of stock or other forms of securities, or otherwise, for the purpose of trading in commodity interests.⁴ CEA section 4m generally requires each person who satisfies the CPO definition to register as such with the Commission.⁵ CEA section 4n requires registered CPOs to maintain books and records and file such reports in such form and manner as may be prescribed by the Commission.⁶

In 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act)⁷ amended the Investment Advisers Act of 1940 (Advisers Act)⁸ to require advisers to large private funds⁹ to register with the Securities and Exchange Commission (SEC).¹⁰ Congress further directed the SEC to adopt rules requiring registered private fund advisers¹¹ to file reports containing such information as is deemed necessary and appropriate in the public interest and for investor protection and for the

⁴ 7 U.S.C. 1a(11).

⁵ 7 U.S.C. 6m(1).

⁶ 7 U.S.C. 6n(3)(A). Registered CPOs have regulatory reporting obligations with respect to their operated pools. *See* 17 CFR. 4.22.

⁷ Pub. L. 111-203, 124 Stat. 1376 (2010).

⁸ 15 USC 80b-1 *et seq.*

⁹ Section 202(a)(29) of the Advisers Act defines the term “private fund” as “an issuer that would be an investment company, as defined in section 3 of the Investment Company Act of 1940 (15 U.S.C. 80a-3), but for section 3(c)(1) or 3(c)(7) of that Act.” *See* 15 U.S.C. 80ab-2(a)(29).

¹⁰ *See* Dodd-Frank Act section 403 of the (amending Advisers Act 203(b), 15 U.S.C. 80b-3(b), to incorporate private fund adviser registration); Dodd-Frank Act sections 402, 407, 408 (establishing certain exemptions from private fund adviser registration); Advisers Act section 202(a)(29), 15 U.S.C. 80a-3 (defining “private fund”).

¹¹ As used in this release, the term “private fund adviser” refers to any investment adviser that is (i) registered or required to be registered with the SEC (including any investment adviser that is also registered or required to be registered with the CFTC as a CPO or CTA) and (ii) advises one or more private funds (including any commodity pools that satisfy the definition of “private fund”).

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

assessment of systemic risk.¹² Pursuant to section 204 of the Advisers Act, as amended, those records and reports must include, among other things, a description of the amount of assets under management, use of leverage, counterparty credit risk exposure, and trading and investment positions for each private fund advised by the adviser.¹³ These records and reports must also be made available to the Financial Stability Oversight Counsel (FSOC).¹⁴ Through these requirements, Congress sought to make available to the SEC and FSOC information regarding the size, strategies and positions of large private funds, which Congress believed could be crucial to regulatory attempts to deal with a future crisis.¹⁵

Pursuant to Advisers Act section 211, as amended, rules establishing the form and content of reports filed by private fund advisers that are dually registered with the SEC and the CFTC (together, the Commissions) must be promulgated jointly by both agencies after consultation with FSOC.¹⁶ Accordingly, in 2011 the Commissions jointly adopted sections 1 and 2 of Form PF.¹⁷ In adopting Form PF, the Commissions stated that the form was designed to provide FSOC empirical data from which it may make a determination about the extent to which the activities of private funds or their advisers

(subject to technical corrections)

pose systemic risk.¹⁸ The SEC added that the policy judgements implicit in the Form PF reporting requirements reflected FSOC's role as the primary user of the reported information and that the SEC would not necessarily have required the same scope of reporting if the information reported on Form PF were intended solely for the SEC's use.¹⁹

Following the adoption of Form PF, and on its own initiative, the Commission adopted its own new reporting requirement for CPOs: Form CPO-PQR and Regulation 4.27, which requires certain CPOs to report on Form CPO-PQR.²⁰ The Commission proposed this new reporting requirement after reevaluating its regulatory approach to CPOs in light of the 2008 financial crisis and purposes and goals of the Dodd-Frank Act so as to determine the necessary level of regulation in the then-current economic environment. The amendments to Part 4, including this new reporting requirement, were intended to: (1) align the Commission's regulatory structure for CPOs with the purposes of the Dodd-Frank Act; (2) encourage more congruent and consistent regulation of similarly situated entities among Federal financial regulatory agencies, such as dually registered CPOs required to file Form PF; (3) improve accountability and increase transparency of the activities of CPOs and the commodity pools that they operate or

(subject to technical corrections)

advise; and (4) facilitate a data collection that would potentially assist FSOC.²¹ To that end, the requirements of Form CPO-PQR were modeled closely after those of Form PF.²²

In adopting Form CPO-PQR, the Commission indicated that the collected data would be used for several broad purposes, including: increasing the Commission’s understanding of its registrant population; assessing the market risk associated with pooled investment vehicles under its jurisdiction; and monitoring for systemic risk.²³ Specifically, the Commission was interested in receiving information regarding the operations of CPOs and their pools, including their participation in commodity interest markets, their relationships with intermediaries, and their interconnectedness with the financial system at large.²⁴ In proposing the majority of more pool-specific questions in the form in particular, the Commission believed the incoming data would assist the Commission in monitoring commodity pools in such a way as to allow the Commission to identify trends over time, including a pool’s exposure to asset classes, the composition and liquidity of a commodity pool’s portfolio, and a pool’s susceptibility to failure in times of stress.²⁵ Although the Commission recognized that the data had some limitations, it believed that, in light of the recent financial crisis and the sources of risk delineated in the Dodd-Frank Act with respect to private funds, the detailed, pool-specific

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

information to be provided in Form CPO-PQR was necessary and appropriately balanced to assess the risks posed by a pool or a CPO as a whole.²⁶

After seven years of experience with Form CPO-PQR, the Commission is reassessing the scope of Form CPO-PQR and how it aligns with the Commission's current regulatory priorities. The Commission's ability to make full use of the more detailed information collected under Form CPO-PQR has not met the Commission's initial expectations. At the same time, however, the Commission has devoted substantial resources to developing other data streams and regulatory initiatives designed to enhance its ability to broadly surveil financial markets for risk posed by all manner of market participants, including CPOs and their operated pools.

Under these circumstances, and as further explained in discussion that follows, the Commission preliminarily believes that Form CPO-PQR could be revised in a way that would support the Commission's ability to exercise its oversight of CPOs and their operated pools while reducing reporting burdens for market participants, thereby further promoting the integrity, resilience, and vibrancy of the U.S. derivatives markets.

II. Overview of Current Form CPO-PQR

The amount of information that a CPO is currently required to disclose on Form CPO-PQR varies depending on the size of the operator and the size of the operated pools.²⁷ The form identifies three classes of filers: Large CPOs, Mid-Sized CPOs, and Small CPOs. The thresholds for determining Large and Mid-Sized CPOs generally align

²⁶ *Id.*

²⁷ *See* 17 CFR pt. 4 app. A.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

with those in Form PF.²⁸ a Large CPO is a CPO that had at least \$1.5 billion in aggregated pool assets under management (AUM)²⁹ as of the close of business on any day during the reporting period; a Mid-Sized CPO is a CPO that had at least \$150 million, but less than \$1.5 billion, in aggregated pool AUM as of the close of business on any day during the reporting period. Although not defined in Form CPO-PQR, Small CPO, as used herein, refers to all other CPOs, *i.e.*, a CPO that had less than \$150 million in aggregated pool AUM during the entire reporting period. The reporting period for Large CPOs is any of the individual calendar quarters (ending March 31, June 30, September 30, and December 31); for all other CPOs, the reporting period is the calendar year-end.

Form CPO-PQR consists of three schedules: Schedules A, B, and C. Schedule A requires all CPOs to disclose basic identifying information about the CPO (Part 1) and about each of the CPO's pools and the service providers they used (Part 2). Large CPOs submit Schedule A on a quarterly basis; all other CPOs submit it annually. Schedule B requires additional detailed information for each pool operated by Mid-Sized and Large CPOs regarding each pool's investment strategy; borrowings and types of creditors; counterparty credit exposure; trading and clearing mechanisms; value of aggregated derivative positions; and a schedule of investments. Large CPOs submit Schedule B on a quarterly basis, while Mid-Sized CPOs submit it annually.

²⁸ See Instructions to Form PF, available at <http://www.sec.gov/about/forms/formpf.pdf>. Private fund investment advisers with "regulatory AUM," as that term is defined in Form PF, of at least \$150 million are required to file Section 1 of Form PF; private fund investment advisers with regulatory AUM equal to or exceeding \$1.5 billion are required to file Sections 1 and 2 of Form PF. *Id.*

²⁹ AUM refers to the amount of all assets that are under the control of the CPO. See 17 CFR pt. 4 app. A.

Voting Draft – As approved by the Commission on 4/14/2020
(subject to technical corrections)

Schedule C requires further detailed information about the pools operated by Large CPOs on an aggregate and pool-by-pool basis. Part 1 of Schedule C requires aggregate information for all pools operated by a Large CPO, including (1) a geographical breakdown of the pools' investment on an aggregated basis and (2) the turnover rate of aggregate portfolio of pools. Part 2 of Schedule C requires certain detailed information for each Large Pool the Large CPO operates, where a "Large Pool" is defined as a commodity pool that has a net asset value (NAV)³⁰ individually, or in combination with any parallel pool structure,³¹ of at least \$500 million as of the close of business on any day during the reporting period.³² Specifically, Part 2 requires information with respect to each Large Pool the Large CPO operates during the given reporting period, including information regarding the Large Pool's: (1) identity; (2) liquidity; (3) counterparty credit exposure; (4) risk metrics; (5) borrowing; (6) derivative positions and posted collateral; (7) financing liquidity; (8) participant information; and (9) the duration of its fixed income assets. Large CPOs submit Schedule C on a quarterly basis and Part 2 of Schedule C on a quarterly basis for each Large Pool they operate during the reporting period.

If a CPO is dually registered with the SEC as an Investment Adviser and is required to file Form PF regarding its advisory services to private funds³³ during the

³⁰ The term "net asset value" has the same meaning as in Commission regulation 4.10(b). *See id.*

³¹ The term "parallel pool structure" means any structure in which one or more pools pursues substantially the same investment objective and strategy and invests side by side in substantially the same assets as another pool. *See id.*

³² *Id.*

³³ The term "private fund" has the same meaning as the definition of "private fund" in Form PF. 17 CFR pt. 4, app. A.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

reporting period, the CPO is deemed to have satisfied its Schedule B and Schedule C filing requirements by completing and filing certain questions in Form PF.³⁴

In addition to Form PF and Form CPO-PQR, in 2010 NFA implemented its form PQR (NFA Form PQR) to elicit data in support of a risk-based examination program for CPOs.³⁵ Pursuant to NFA Rule 2-46, all CPO NFA members, which include all CPOs registered with the Commission, must file NFA Form PQR on a quarterly basis.³⁶ By rule, NFA accepts the filing of Form CPO-PQR, but not Form PF, in lieu of filing its form for any quarter in which a Form CPO-PQR filing is required under Regulation 4.27. As such, dually-registered CPOs that file Form PF in lieu of a Form CPO-PQR filing are currently required to file NFA Form PQR with NFA quarterly.

III. Proposed Regulations

As indicated above, the Commission is proposing amendments to Form CPO-PQR that would reduce the amount of reporting required thereunder while still supporting the Commission's ability to oversee the activities of CPOs and their operated pools. Notably, the proposal would eliminate the pool-specific information currently required to be reported in Schedules B or C of the form, with the exception of the pool schedule of investments (question 6 of Schedule B). The information required in current Schedule A would remain with a few amendments, notably the addition of questions regarding LEIs. The retained reporting requirements – the reporting requirements in current Schedule A, as proposed to be amended, plus the schedule of investments from Schedule B – would

³⁴ *See id.*

³⁵ NFA Rule 2-46 (2010).

³⁶ *Id.* All registered CPOs are required to be NFA members pursuant to 17 CFR 170.17.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

be combined to form the entirety of Form CPO-PQR, referred to herein as “Revised Form CPO-PQR.” The proposal would require all CPOs to file Revised Form CPO-PQR on a quarterly basis, but would permit CPOs to file a comparable form required by NFA, NFA Form PQR, in lieu of Revised Form CPO-PQR. As a corollary, the Commission would also revise Regulation 4.27(d) to eliminate the ability of dually regulated CPOs that are required to file Form PF with respect to one or more of their operated private funds to file Form PF in lieu of filing current Form CPO-PQR, while retaining Form PF as the Commission’s form. The sections that follow explain these proposed changes in further detail.

A. Elimination of Pool-Specific Reporting Requirements in Schedules B and C

As mentioned above, the Commission is proposing to eliminate the majority of the information required to be reported in current Schedules B and C of Form CPO-PQR. The eliminated data elements include detailed, pool-specific information, provided on both the individual and aggregate level, such as questions about investment strategy and counterparty credit exposure, asset liquidity and concentration of positions, clearing relationships, risk metrics, financing, and investor composition.

In adopting Form CPO-PQR, the Commission was interested in receiving information regarding the operations of CPOs and their operated pools, including their participation in commodity interest markets, their relationships with intermediaries, and their interconnectedness with the financial system at large.³⁷ In proposing the majority of the elements in Schedules B and C in particular, the Commission believed they would assist the Commission in monitoring commodity pools in such a way as to allow the

³⁷ Form CPO-PQR Final Rule, 77 FR at 11266.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

Commission to identify trends over time, including a pool's exposure to asset classes, the composition and liquidity of a commodity pool's portfolio, and a pool's susceptibility to failure in times of stress.³⁸

After seven years of experience with Form CPO-PQR, however, the Commission acknowledges that challenges with the data collected in Schedules B and C, combined with resource constraints in the face of broader Commission priorities, have frustrated the Commission's ability to fully realize that vision. To begin, in an effort to take into account the different ways CPOs maintain information, the Commission allowed CPOs flexibility in how they calculated and presented certain of the data elements.³⁹ For example, Form CPO-PQR gives Large CPOs the option of reporting either the duration, weighted average tenor, or 10-year equivalents of fixed income portfolio holdings, understanding that Large CPOs may use a wide range of metrics to measure interest rate sensitivity. As a result, the Commission's ability to identify trends across CPOs or pools using Form CPO-PQR data has been substantially challenged.

Additionally, taking into account the volume and complexity of the data it was requesting, the Commission determined not to require the data to be provided in real-time but rather only mandated post hoc quarterly or annual filings. The Commission acknowledged the limitations of this filing schedule at the time but also recognized the time it would take to produce the requested information and concluded that Form CPO-PQR struck an appropriate balance in addressing the Commission's need for timely

³⁸ Form CPO-PQR Proposal, 76 FR at 7981.

³⁹ Form CPO-PQR Final Rule, 77 FR at 11271.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

information and providing CPOs sufficient time to prepare it.⁴⁰ As the Commission has reviewed the data over the years, however, it has become apparent that the infrequent and delayed nature of such reporting has made it difficult to assess the impact of CPOs and their operated pools on markets as conditions and relative CPO risk profiles may have changed, potentially significantly, by the time Form CPO PQR is filed with the Commission.

Part of the Commission’s rationale for promulgating Schedules B and C was a need for additional information about CPOs that are non-dual registrants to “identify significant risk to the stability of the derivatives market and the financial market as a whole.”⁴¹ In making the assessment that the information then available about the operations of CPOs and their operated firms was insufficient, the Commission focused primarily on the limited data that it received under other provisions of Part 4, such as the annual pool financial statements under Regulation 4.22, which it believed was not well suited for the stated purpose of identifying risk to the either stability of the derivatives markets or the financial markets in general.⁴² Moreover, the Commission did not at the time believe that it had the capability to use that information to assess the relationship between a large position held by a pool and the rest of the pool’s other derivatives positions and securities investments.⁴³

⁴⁰ Form CPO-PQR Final Rule, 77 FR at 11267.

⁴¹ *Id.* at 11266.

⁴² Form CPO-PQR Proposed Rule, 76 FR at 7978 (Feb. 11, 2011) (“The information that the Commission currently receives is limited, not designed to measure systemic or market risk in any meaningful way, and is only submitted by registered CPOs on an annual basis.”).

⁴³ Form CPO-PQR Final Rule, 77 FR at 11268.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

However, in the ten years since the Dodd-Frank Act was passed, the Commission has devoted significant resources to regulatory initiatives and data streams designed to enhance the Commission's ability to broadly surveil financial markets for risk posed by all manner of market participants, including CPOs. These data streams include extensive information related to trading, reporting, and clearing of swaps. Notably, the Commission has developed a regime requiring the reporting of detailed swap transaction information to swap data repositories (SDRs), including for those transactions entered into by CPOs and the pools they operate.⁴⁴ Specifically, swap transaction data related to both over-the-counter and exchange traded swaps is required to be reported to SDRs,⁴⁵ and consequently, swaps entered into by CPOs and pools, whether on an exchange or over-the-counter, are reported to SDRs and included in the data set that Commission staff can use to conduct broader market surveillance.

The Commission has also maintained, and in some instances enhanced, its daily reporting regime for derivatives clearing organizations (DCOs), clearing members, designated contract markets (DCMs), futures commission merchants (FCMs), swap dealers, and large traders. Commission regulations require DCOs to make extensive daily reports, containing information on the positions and activities of clearing members and customers, including commodity pools, to the Commission.⁴⁶ Commission regulations also require reporting by clearing members and large traders themselves.⁴⁷ Through this data, the Commission can analyze positions and risks at the DCO, clearing

⁴⁴ See 17 CFR pts. 45, 49; App. 1 to pt. 45.

⁴⁵ 17 CFR pt. 45.

⁴⁷ 17 CFR pt. 18.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

member, or customer level, including customer positions at more than one clearing member, and clearing member positions at more than one DCO.

The Commission's risk surveillance program focuses on identifying, quantifying, and monitoring the risks to the financial system posed by DCOs, clearing participants, and other market participants – including CPOs and their operated pools. To this end, on a daily basis, Commission staff work to: (1) identify positions in cleared products that pose significant financial risk; and (2) confirm that these risks are being appropriately managed. Staff undertakes these tasks at the customer level, the firm level, and the DCO level. That is, staff identifies both the customers that pose risks to clearing members and clearing members that pose risks to DCOs.

Importantly, most of the transaction and position information the Commission uses for its surveillance activities is available on a more timely and frequent basis than the data received on the current iteration of Form CPO-PQR. Furthermore, Commission programs to conduct surveillance of exchanges, FCMs, and DCOs already include CPOs and do not rely on the information contained in Schedules B and C of Form CPO-PQR.

Taken together, these efforts have enhanced the Commission's ability to broadly and actively surveil financial markets, including with respect to the activities of CPOs and the pools they operate. In general, the Commission's alternate data streams provide a more timely, standardized, and reliable view into relevant market activity than that provided under Form CPO-PQR, which make them much easier to combine into a holistic surveillance program. Although none of the Commission's current data streams offers a substitute for the more detailed, pool-specific type of information set forth in Schedules B and C of Form CPO-PQR, the Commission preliminarily believes that,

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

taking into account the Commission’s current priorities and resource availabilities, a Revised Form CPO-PQR that could be more easily integrated with these existing and more developed data streams would enable the Commission, with some additional data analysis, to oversee and assess the impact of CPOs and their operated pools in the commodity interest markets in an effective manner. The inclusion of the LEIs for the CPO and its operated pools, as explained more fully below, would be key to helping facilitate this integration with respect to CPOs and pools that engage in the swaps markets. The Commission also preliminarily believes that this improved data integration would mitigate the need to engage in a more extensive, and likely more burdensome, effort to improve the utility of the data fields requested in current Schedules B and C.

The Commission notes that more than half of the largest CPOs and pools are captured within the statutory definitions of private fund investment advisers and private funds and as such are required to report on Form PF.⁴⁸ Other large asset managers that are registered as CPOs and file Form CPO-PQR are sponsors or advisers to investment companies registered under the Investment Company Act of 1940,⁴⁹ which, by definition, are not private funds.⁵⁰ Many of those registered investment companies are also commodity pools that trade commodity interests to a meaningful degree as part of their investment strategies; as a result, those investment companies’ principal investment advisers have registered with the Commission as CPOs.⁵¹ Registered investment

⁴⁸ Based on the data received for the reporting period of September 30, 2017, for example, eight out of the ten largest CPOs filed Form PF in lieu of Form CPO-PQR.

⁴⁹ 15 U.S.C. 80a-1, et seq.

⁵⁰ 15 U.S.C. 80b-2(29).

⁵¹ 17 CFR 4.5(c); 17 CFR 4.12(c).

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

companies are subject to a comprehensive scheme of periodic financial reporting under the federal securities laws, and most of that data is publicly available on the SEC's website through its EDGAR filing system.⁵² In addition, all CPOs file annual certified financial statements for their commodity pools with NFA pursuant to the Commission's regulations.⁵³ NFA reviews the information in commodity pool annual certified financial statements, uses it as an input for determining the frequency and scope of its examinations of CPOs in combination with the data that it collects on its NFA Form PQR, and communicates frequently with Commission staff regarding its examination of CPOs, as informed by its review of such financial statements and data filings

The Commission acknowledges that a determination to no longer routinely collect the pool-specific data in Schedules B and C would result in this information not being readily available to FSOC upon request, which was part of the Commission's envisioned purposes for Form CPO-PQR when it was first promulgated. As well, the Commission notes that many dually registered CPOs currently include commodity pools that are not private funds in data that they report on Form PF, in lieu of a filing on Form CPO-PQR for such pools, pursuant to Regulation 4.27(d), and that if the amendments proposed herein are adopted as final, these CPOs could decide to stop including these pools in their Form PF filing. The Commission understands that this could result in less information relevant to commodity pools being available to FSOC from Form PF. However, given

⁵² For instance, registered management investment companies – a category that includes those investment companies that are also commodity pools – file with the SEC annual reports on Form N-CEN, quarterly reports of their portfolio holdings on Form N-PORT, and information about their liquidity on Form N-LIQUID. Management investment companies that are regulated as money market funds are subject to different reporting, as are other registered investment companies that are organized as unit investment trusts, business development companies, and face-amount certificate companies.

⁵³ 17 CFR 4.7(b); 4.22(c) and (d).

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

that FSOC is otherwise provided with comparable data for the sizeable number of dually registered CPOs via Form PF, the Commission preliminarily believes FSOC's monitoring should not be materially affected compared to its current state.

B. Revised Form CPO-PQR

With the proposed elimination of the majority of the data fields set forth in Schedules B and C of current Form CPO-PQR, the resulting Revised Form CPO-PQR would consist of the information currently reported in Schedule A of Form CPO-PQR, with a couple deletions discussed below; the pool schedule of investments, currently reported under question 6 of Schedule B; and new questions to solicit LEIs for each CPO and its operated pools. All CPOs would be required to report all of this information quarterly, regardless of their AUM. As intimated above, the Commission preliminarily believes that this information, when integrated with other data streams available to the Commission, would provide an effective and efficient way for the Commission to oversee and assess the impact of CPOs and their operated pools in the commodity interest markets.

Current Schedule A provides the Commission basic identifying information about the CPO and its operated pools and the service providers they used, including the custodians and brokers used by the CPO with respect to some or all of the operated pools' assets and the pools' monthly rate of return. The Commission preliminarily believes that this basic, demographic information is useful in providing context with respect to the more granular information it receives regarding the positions held by commodity pools from other sources.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

At the moment, the data currently collected in Form CPO-PQR cannot be easily aggregated with other market information that the Commission collects, and, as such, has not been integrated into the Commission's market oversight function, which limits its utility to the Commission. Specifically, the lack of LEI information for CPOs and their operated pools makes it challenging to align it with the data received from DCOs, DCMs, SDRs, and FCMs to compile a view into the operations of CPOs and pools and the various roles such entities inhabit within the commodity interest markets. The Commission is therefore proposing to amend Form CPO-PQR to include a question seeking the CPO's and the operated pools' LEIs, to the extent they have them. The inclusion of existing LEIs within this smaller data set on Revised Form CPO-PQR should enable the Commission to more efficiently and accurately synthesize the various Commission data streams on an entity-by-entity basis. Furthermore, inclusion of LEIs may permit better use of SDR and other data to illuminate the risk inherent in pools and pool families. The Commission also anticipates that the inclusion of LEIs would greatly facilitate the aggregation of data from commodity pools under different levels of common control.

Although the Commission is proposing to continue to receive the majority of the information currently collected in Schedule A of Form CPO-PQR, it is also proposing to eliminate the questions regarding the pool's auditors and marketers. The Commission and NFA receive information regarding the independent certified public accountants that all CPOs are required to engage to prepare certified annual reports, including audited financial statements, for their operated commodity pools, which the Commission preliminarily believes obviates the need for obtaining this information through Revised

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

Form CPO-PQR.⁵⁴ With respect to a pool's marketers, staff generally accesses this information through sources other than Form CPO-PQR, such as registration records for APs associated with the offered pool's CPO or through the disclosure document for the pool. For example, persons soliciting for pool participation units are typically either associated persons of the CPO⁵⁵ or registered representatives of a broker dealer.⁵⁶ Such persons are subject to regulation by either the Commission and NFA, or the SEC and the Financial Industry Regulatory Authority (FINRA). As such, the Commission preliminarily believes that it readily has the means to learn who such persons are with respect to the offering of participation units in a particular commodity pool without requiring that information to be reported on Form CPO-PQR.

At present, most CPOs are only required to submit the information in Schedule A of Form CPO-PQR on an annual basis; only Large CPOs submit this information quarterly. In order to fully integrate the information reported on Revised Form CPO-PQR into the Commission's ongoing oversight of the derivatives markets and commodity pool industry, the Commission preliminarily believes that the reporting of this basic information on a more frequent quarterly basis would be necessary. The Commission therefore preliminarily believes that requiring reporting of this basic information on a more frequent quarterly basis would play an important role in facilitating Commission's ability to monitor trends in the commodity pool industry.

⁵⁴ 17 CFR 1.16.

⁵⁵ 17 CFR 1.3, *associated person*; 17 CFR 3.12.

⁵⁶ 17 CFR 3.12(h)(ii).

Voting Draft – As approved by the Commission on 4/14/2020
(subject to technical corrections)

The pool schedule of investments, currently in Schedule B, provides the Commission a fairly detailed breakdown of how the pool's investments are allocated by asset category (cash, equities, alternative investments, fixed income, derivatives, options, and funds). Although under the current iteration of Form CPO-PQR only Mid-Sized and Large CPOs are required to submit any information in Schedule B, and Mid-Sized CPOs only submit it annually, the Commission preliminarily believes that obtaining a pool schedule of investment from all CPOs with respect to their operated pools on a regular, quarterly basis would assist the Commission in understanding the composition of a pool's portfolio with a limited, if any, increase in their filing burden as the Commission notes that NFA Form PQR currently requires all CPOs regardless of size to file a pool schedule of investments each quarter.

C. NFA Form PQR

As proposed, Revised Form CPO-PQR would generally align with NFA Form PQR. NFA Form PQR was implemented in 2010 to elicit data to implement NFA's risk-based examination program for CPOs.⁵⁷ The form requests basic identifying information for CPOs and their operated pools, and a schedule of investments, and requires all CPOs to report this information quarterly. As a whole, current NFA Form PQR is essentially identical to current Schedule A of Form CPO-PQR combined with the pool of investments question from Schedule B. The Commission also understands that NFA has plans to include questions regarding LEIs in NFA Form PQR. If Revised Form CPO-

⁵⁷ NFA Form PQR assists NFA in assessing risks, identifying trends, and assigning audit priorities in its oversight of CPOs. See National Futures Association: CPO Quarterly Reporting Requirements – Proposed Adoption of Compliance Rule 2-46, https://www.nfa.futures.org/news/PDF/CFTC/CR2_46_CPO_Quarterly_Report_082009.pdf (last visited Dec. 30, 2019).

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

PQR is adopted as proposed, and NFA's amendments to include LEIs are also finalized, the forms will be substantively identical. Under those circumstances, the Commission would permit a CPO to file NFA Form PQR in lieu of Revised Form CPO-PQR, offering CPOs additional filing efficiencies without compromising the Commission's ability to obtain affected data.

As a corollary, the Commission is also proposing to revise Regulation 4.27(d), which currently permits dually regulated CPOs required to file Form PF with respect to one or more of their operated private funds to file Form PF in lieu of filing current Form CPO-PQR with respect to any commodity pools that are not private funds.⁵⁸ The Commission believes that this provision would be redundant in light of the proposed provision to accept NFA Form PQR and would frustrate an intended purpose of this proposed rulemaking, which is to allow the Commission to enhance the Commission's use of its own internal data streams to effectuate an efficient and effective oversight program of CPOs and their operated pools, given that Revised Form CPO-PQR would no longer be closely aligned in content or filing frequency with Form PF. The Commission is not, however, proposing to change Form PF's status as the Commission's form, nor is the Commission proposing to change its requirement that dually registered CPOs and CTAs continue to file Form PF with the SEC.

Many dually registered CPOs currently include commodity pools that are not private funds in data that they report on Form PF, in lieu of a filing on Form CPO-PQR for such pools, in reliance on Regulation 4.27(d). If Regulation 4.27(d) is revised to eliminate this option for dually registered CPOs, the Commission understands that some

⁵⁸ 17 CFR 4.27(d).

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

or even all dually registered CPOs that currently file Form PF in lieu of Schedules B and/or C of current Form CPO-PQR for their non-private fund pools could cease to include such non-private fund pools in their Form PF filings, resulting in a reduced data set collected on Form PF as compared to the status quo. The Commission preliminarily believes, however, that this loss of data to the SEC and FSOC would not meaningfully impact the efficacy and intent of Form PF in furthering the oversight of the private fund industry, given that it would only result in the loss of data on Form PF with respect to non-private fund pools.⁵⁹

IV. Request for Comments

The Commission requests comment on all aspects of this proposal. Additionally, the Commission would appreciate consideration of the following specific questions:

A. Scope of Proposed Revised Form CPO-PQR

1. CPOs that are jointly regulated by the Commission and the SEC are required to file Form PF with respect to private funds; many commodity pools are private funds within the meaning of Form PF. One of the Commission’s initial rationales for adopting Form CPO-PQR was to encourage more congruent and consistent regulation of similarly situated entities among Federal financial regulatory agencies, particularly with respect to dually registered CPOs required to file Form PF. If Revised Form CPO-PQR is adopted as proposed, Form PF and Form CPO-PQR would become less aligned, meaning that dually registered CPOs would have reporting obligations that are noticeably different

⁵⁹ Form CPO-PQR Final Rule, 77 FR at 11281 (“[T]o mitigate reporting costs to regulated entities that may be registered with both the Commission and with the SEC, the regulations have been modified to allow dually registered entities to file on [F]orm PF (plus the first schedule A of [F]orm CPO-PQR) for all of their commodity pools, even those that are not ‘private funds.’”). As noted previously, such CPOs relying upon on the Commission’s acceptance of Form PF in lieu of a Form CPO-PQR filing are currently required to file NFA Form PQR on a quarterly basis under NFA Rule 2-46.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

from those CPOs only subject to the Commission’s jurisdiction. Would such a relative lack of regulatory congruence negatively impact CPOs? Should the Commission instead rescind Form CPO-PQR in its entirety and require all CPOs to file all or part of Form PF with NFA? Why or why not?

2. Many dually registered CPOs currently include commodity pools that are not private funds in data that they report on Form PF, in lieu of a filing on Form CPO-PQR for such pools, pursuant to Regulation 4.27(d). If the amendments proposed herein are adopted as final, these CPOs could decide to stop including these pools in their Form PF filing. For CPOs in this category, if Form CPO-PQR is amended as proposed, would you cease reporting data for these pools on Form PF? Why or why not?

3. CPOs that operate commodity pools that are registered investment companies must report financial information about those pools to the SEC, while also providing annual pool financial statements to NFA. Is there any additional reporting of investment company financial information that the Commission has failed to consider in this proposal that addresses the concerns underlying Form CPO-PQR?

4. Are there any specific questions that the Commission has proposed to rescind that it should consider retaining? Why?

5. Are there ways the Commission could further clarify and refine the reporting instructions for completing Revised CPO-PQR in order to provide CPOs with greater certainty that they are completing the form correctly? For example, could the form’s references to other regulations or its defined terms be simplified or made clearer? Please suggest specific revisions.

B. NFA Form PQR

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

5. The Commission proposes to permit a timely filing with NFA of NFA Form PQR in lieu of a filing of the revised Proposed Form CPO-PQR. Should the Commission consider any other ways to further align with NFA Form PQR? What would those ways be? Please describe in detail.

6. The schedule of investments as it currently appears in both Revised Form CPO-PQR and NFA Form PQR requires significant granular information regarding numerous asset classes. Are there any asset classes that can or should be eliminated? Why or why not? Should the Commission consider amending the schedule of investments to align with the simpler schedule that appeared in NFA Form PQR in 2010?

C. Addition of LEIs

7. In order to further the analysis of Revised Form CPO-PQR across other existing Commission data sets, the Commission is proposing to require the inclusion of LEIs in Revised Form CPO-PQR, to the extent that the CPO or its operated pools otherwise already have LEIs. The inclusion of LEIs would also make this portion of Form CPO-PQR data more accessible for analysis consistent with these other data sets. Should the Commission include LEIs on Revised Form CPO-PQR? Why or why not?

V. Related Matters

A. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) requires Federal agencies, in promulgating regulations, to consider whether the rules they propose will have a significant economic impact on a substantial number of small entities and, if so, to provide a regulatory flexibility analysis regarding the economic impact on those entities. Each Federal agency is required to conduct an initial and final regulatory flexibility analysis for each rule of

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

general applicability for which the agency issues a general notice of proposed rulemaking.⁶⁰

The regulatory amendments proposed by the Commission today would affect only persons registered or required to be registered as CPOs. The Commission has previously established certain definitions of “small entities” to be used by the Commission in evaluating the impact of its rules on such entities in accordance with the requirements of the RFA.⁶¹ With respect to CPOs, the Commission previously has determined that a CPO is a small entity for purposes of the RFA, if it meets the criteria for an exemption from registration under § 4.13(a)(2).⁶² Because the regulations proposed today generally apply to persons registered or required to be registered as CPOs with the Commission, as well as from related compliance burdens, the RFA is not applicable to this Proposal.

Accordingly, the Chairman, on behalf of the Commission, hereby certifies pursuant to 5 U.S.C. 605(b) that these proposed amendments, if adopted, will not have a significant economic impact on a substantial number of small entities.

B. Paperwork Reduction Act

1. Overview

The Paperwork Reduction Act (PRA) imposes certain requirements on Federal agencies in connection with their conducting or sponsoring any collection of information

⁶⁰ 5 U.S.C. 601 et seq.

⁶¹ See, e.g., Policy Statement and Establishment of Definitions of “Small Entities” for Purposes of the Regulatory Flexibility Act, 47 FR 18618, 18620 (Apr. 30, 1982).

⁶² Id. at 18619-20. Section 4.13(a)(2) exempts a person from registration as a CPO when: 1) none of the pools operated by that person has more than 15 participants at any time, and 2) when excluding certain sources of funding, the total gross capital contributions the person receives for units of participation in all of the pools it operates or intends to operate do not, in the aggregate, exceed \$400,000. See 17 CFR 4.13(a)(2).

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

as defined by the PRA.⁶³ Under the PRA, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number from the Office of Management and Budget (OMB). Today's Proposal, if adopted, would result in a collection of information within the meaning of the PRA, as discussed below. The Commission is therefore submitting this NPRM to OMB for review.

The Proposal amends a single collection of information for which the Commission has previously received a control number from OMB. This collection of information is, "Rules Relating to the Operations and Activities of Commodity Pool Operators and Commodity Trading Advisors and to Monthly Reporting by Futures Commission Merchants, OMB control number 3038-0005" (Collection 3038-0005). Collection 3038-0005 primarily accounts for the burden associated with part 4 of the Commission's regulations that concern compliance obligations generally applicable to CPOs and CTAs, as well as certain enumerated exemptions from registration as such and exclusions from those definitions, and available relief from compliance with certain regulatory requirements.

As discussed above, the Commission's Proposal includes substantive changes to current Form CPO-PQR, such as (1) amending Schedule A, which would constitute the entirety of Proposed Form CPO-PQR, to add LEIs for each CPO and pool, (2) moving Schedule B's "Schedule of Investments" section to Schedule A, and (3) rescinding the remainder of the Form's current Schedules B and C.⁶⁴ Additionally, the Commission is

⁶³ See 44 U.S.C. 3501 *et seq.*

⁶⁴ See *infra* pt. III.A.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

proposing to permit the filing of NFA Form PQR with NFA in lieu of filing Form CPO-PQR by CPOs registered with the Commission. Therefore, the Commission is also proposing herein to amend Collection 3038-0005, such that the collection is consistent with the proposed restructuring of Form CPO-PQR, and reflects the expected adjustment in burden hours for registered CPOs filing the form, if revised as proposed, including the ability to file NFA Form PQR in lieu of filing Revised Form CPO-PQR.

This Proposal is not expected to impose any significant new burdens on CPOs. Rather, because approximately half of registered CPOs are Mid-Sized or Large CPOs under the current filing regime and will have to answer fewer questions as compared to the current filing requirements, and because the Commission anticipates that CPOs currently classified as Small CPOs will file their NFA Form PQR in lieu of the Revised Form CPO-PQR, it is reasonable for the Commission to infer that the proposed amendments will generally prove to be either less burdensome or without new net burden for all CPOs. The Commission is, however, amending the burden associated with the collection to reflect the increased frequency of filing for all CPOs to quarterly and increasing the hours per filing to reflect the addition of the pool schedule of investments to the questions in Revised Form CPO-PQR that were derived from current Schedule A. Although these proposed amendments result in an increase in the burden hours associated with Revised Form CPO-PQR, the Commission preliminarily expects that, in practice, CPOs will either experience no change in their burden or a decrease in burden.

As discussed above, the Commission is proposing herein to accept the filing of NFA Form PQR in lieu of a filing on Revised Form CPO-PQR. Because under the proposal any data filed on NFA Form PQR would become data collected by the

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

Commission, the burden associated with NFA Form PQR must be included in a collection of information with an OMB control number. Therefore, the Commission is amending the current burden associated with OMB Control Number 3038-0005 to also reflect the burden resulting from NFA Form PQR, which the Commission estimates to be substantively identical to that derived from Revised Form CPO-PQR.

Despite the fact that the Commission is proposing to accept the filing of NFA Form PQR in lieu of a filing on Revised Form CPO-PQR, the Commission preliminarily believes that it is necessary to retain its own form for data collection purposes to ensure that it retains the authority to address its data needs regarding CPOs in the future on a unilateral basis should the need arise. Moreover, given the Commission's preliminary expectation that it would incorporate the information collected on Revised Form CPO-PQR more consistently with its other data streams, the Commission preliminarily believes that retaining its own form independent of NFA's form avoids any appearance of the Commission leveraging NFA to avoid complying with the obligations associated with rulemaking. The Commission also preliminarily believes that doing so will ensure that members of the public will be able to exercise their rights to engage in comment as to the content and structure of the form consistent with the Administrative Procedures Act going forward.⁶⁵ Therefore, the Commission has preliminarily concluded that the amendments to Form CPO-PQR proposed herein are not unnecessarily duplicative to information otherwise reasonably accessible to the Commission.

2. Revisions to the Collections of Information: OMB Control Number 3038-0005

⁶⁵ 5 U.S.C. §500, et. seq.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

Collection 3038-0005 is currently in force with its control number having been provided by OMB, and it was renewed recently on January 30, 2019.⁶⁶ As stated above, Collection 3038-0005 governs responses made pursuant to part 4 of the Commission's regulations, pertaining to the operations of CPOs and CTAs, including the required responses of registered CPOs on Form CPO-PQR pursuant to Regulation 4.27.

Generally, the Commission is proposing adjustments, discussed below, to the information collection that result in an increase in the burden hours associated with the collection of information on the Revised Form CPO-PQR. The Commission preliminarily believes, however, as previously stated, that CPOs currently categorized as either Mid-Sized or Large CPOs are expected to experience a reduction in burden relative to the current filing requirements under Regulation 4.27 and Form CPO-PQR, and Small CPOs under the current filing requirements are expected to experience no increase in burden because they are currently required to file NFA Form PQR, which includes a schedule of investments that is identical to that under Revised Form CPO-PQR, on a quarterly basis, and, under this proposal, such CPOs would be permitted to file NFA Form PQR in lieu of filing Revised CPO-PQR.

The currently approved total burden associated with Collection 3038-0005, in the aggregate, is as follows:

Estimated number of respondents: 45,097.

Annual responses for all respondents: 118,824.

⁶⁶ See Notice of Office of Management and Budget Action, OMB Control No. 3038-0005, *available at* https://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201701-3038-005 (last retrieved July 31, 2018).

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

Estimated average hours per response: 3.16.⁶⁷

Annual reporting burden: 375,484.

The portion of the aggregate burden that is derived from the current Form CPO-PQR filing requirements is as follows.

Schedule A (for non-Large CPOs and Large CPOs filing Form PF):

Estimated number of respondents: 1,450

Annual responses for all respondents: 1,450.

Estimated average hours per response: 6.

Annual reporting burden: 8,700.

Schedule A (for Large CPOs not filing Form PF):

Estimated number of respondents: 250.

Annual responses for all respondents: 1,000.

Estimated average hours per response: 6.

Annual reporting burden: 6,000.

Schedule B (for Mid-Sized CPOs):

Estimated number of respondents: 400.

Annual responses for all respondents: 400.

Estimated average hours per response: 4.

Annual reporting burden: 1,600.

Schedule B (for Large CPOs not filing Form PF):

Estimated number of respondents: 250.

⁶⁷ The Commission rounded the average hours per response to the second decimal place for ease of presentation.

Voting Draft – As approved by the Commission on 4/14/2020
(subject to technical corrections)

Annual responses for all respondents: 1,000.

Estimated average hours per response: 4.

Annual reporting burden: 4,000.

Schedule C (for Large CPOs not filing Form PF):

Estimated number of respondents: 250.

Annual responses for all respondents: 1,000.

Estimated average hours per response: 18.

Annual reporting burden: 18,000.

The burden associated with NFA Form PQR is as follows:

Estimated number of respondents: 1,700

Annual responses by each respondent: 6,800.

Estimated average hours per response: 8.

Annual reporting burden: 54,400.

Total annual reporting burden for all CPOs for current Form CPO-PQR and NFA

Form PQR: 86, 900.

The Commission is proposing to no longer estimate burden hours according to each individual Schedule of Form CPO-PQR, because, pursuant to the Proposal, Revised Form CPO-PQR will only consist of one schedule. Therefore, the Commission is proposing to simplify the collection for Form CPO-PQR compliance to a single burden hours estimate for each registered CPO completing Revised Form CPO-PQR in its entirety.⁶⁸ As noted above, the Commission is also proposing to require that Revised

⁶⁸ The Commission is also proposing to accept NFA Form PQR in lieu of Revised Form CPO-PQR filing requirement, which the Commission has designed purposefully to be very similar. *See supra* pt. III.B. The

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

Form CPO-PQR be filed quarterly by each registered CPO, regardless of the size of their operations, which would result in four (4) annual responses by each respondent. Further, in the Commission's experience, the schedule of investments comprised a considerable portion of the burden hours previously associated with completing Schedule B, depending on the complexity of a CPO's operations and the number of pools it operates. Thus, the Commission is proposing an estimated average hours per response to ensure that burden continues to be counted. As noted above, although the estimated hours per response is expected to increase due to the retention of the schedule of investments and the frequency of response will increase as well for Small and Mid-Sized CPOs, as well as those Large CPOs filing Form PF, CPOs should not experience an increase in burden because all CPOs are already required to provide an identical schedule of investments as part of their existing NFA Form PQR filing requirement, which must be submitted on a quarterly basis, and the Commission preliminarily believes that CPOs will continue to make such filing in lieu of the Revised Form CPO-PQR.

Therefore, the Commission estimates the burden to registered CPOs for completing Revised Form CPO-PQR, as proposed herein, and NFA Form PQR, because of the option to file this form in lieu of Revised Form CPO-PQR, to be as follows:

For Revised Form CPO-PQR and NFA Form PQR for All Registered CPOs:

Estimated number of respondents: 1,700

Annual responses by each respondent: 6,800.

Estimated average hours per response: 8.

PRA estimates proposed herein assume that all registered CPOs will either file Revised Form CPO-PQR on a quarterly basis, or NFA Form PQR, but in no event will a CPO be required to file both.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

Annual reporting burden: 54,400.

The new total burden associated with Collection 3038-0005, in the aggregate, reflecting the adjustment in burden associated with § 4.27 and Revised Form CPO-PQR, is as follows:

Estimated number of respondents: 43,062.

Annual responses for all respondents: 113,980.

Estimated average hours per response: 3.25.

Annual reporting burden: 370,467.

3. Request for Comments on Collection

The Commission invites the public and other Federal agencies to comment on any aspect of the proposed information collection requirements discussed above. Pursuant to 44 U.S.C. 3506(c)(2)(B), the Commission solicits comments in order to (i) evaluate whether the proposed collections of information are necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (ii) evaluate the accuracy of the Commission's estimate of the burden of the proposed collections of information; (iii) determine whether there are ways to enhance the quality, utility, and clarity of the information proposed to be collected; and (iv) minimize the burden of the proposed collections of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology.

Those desiring to submit comments on the proposed information collection requirements should submit them directly to the Office of Information and Regulatory Affairs, OMB, by fax at (202) 395-6566, or by email at

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

OIRAsubmissions@omb.eop.gov. Please provide the Commission with a copy of submitted documents, so that all comments can be summarized and addressed in the final rule preamble. Refer to the ADDRESSES section of this NPRM for comment submission instructions to the Commission. A copy of the supporting statements for the collections of information discussed above may be obtained by visiting <http://www.RegInfo.gov>. OMB is required to make a decision concerning the collections of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

C. Cost-benefit Considerations.

Section 15(a) of the CEA requires the Commission to consider the costs and benefits of its discretionary actions before promulgating a regulation under the CEA or issuing certain orders.⁶⁹ Section 15(a) further specifies that the costs and benefits shall be evaluated in light of five broad areas of market and public concern: (1) Protection of market participants and the public; (2) efficiency, competitiveness, and financial integrity of swaps markets; (3) price discovery; (4) sound risk management practices; and (5) other public interest considerations. The Commission considers the costs and benefits resulting from its discretionary determinations with respect to the CEA section 15(a) considerations.

As discussed above, the Commission is proposing amendments to Form CPO-PQR that would significantly reduce the amount of reporting required thereunder. Specifically, the proposal would: (1) eliminate the pool-specific reporting requirements

⁶⁹ 7 U.S.C. 19(a).

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

in existing Schedules B and C of Form CPO-PQR, other than the pool schedule of investments (question 6 of Schedule B); (2) amend the information in existing Schedule A of the form to request LEIs for CPOs and their operated pools and to eliminate questions regarding the pool's auditors and marketers; (3) require all CPOs to submit all information retained in Revised Form CPO-PQR on a quarterly basis; and (4) allow CPOs to file NFA Form PQR in lieu of filing the Revised Form CPO-PQR, to the extent NFA Form PQR is amended to include LEIs. In the sections that follow, the Commission considers the various costs and benefits associated with each of aspect of the proposal. The baseline against which these costs and benefits are compared is the regulatory *status quo*, represented by Form CPO-PQR as currently codified in Appendix A to Part 4.

The consideration of costs and benefits below is based on the understanding that the markets function internationally, with many transactions involving U.S. firms taking place across international boundaries; with some Commission registrants being organized outside of the United States; with some leading industry members typically conducting operations both within and outside the United States; and with industry members commonly following substantially similar business practices wherever located. Where the Commission does not specifically refer to matters of location, the discussion of costs and benefits below refers to the effects of this proposal on all activity subject to the proposed and amended regulations, whether by virtue of the activity's physical location in the United States or by virtue of the activity's connection with or effect on U.S.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

commerce under CEA section 2(i).⁷⁰ Some CPOs are located outside of the United States.

1. Elimination of Pool-Specific Reporting Requirements in Schedules B and C

The Commission is proposing to eliminate the pool-specific reporting requirements in existing Schedules B and C of Form CPO-PQR, other than the pool schedule of investments (question 6 of Schedule B). The Commission acknowledges that this change, if adopted, could result in less information available to the Commission and, potentially, to FSOC. The detailed and specific information requested in Schedules B and C of Form CPO-PQR is not available to the Commission through any other of its data streams and, if put to its full use, would allow for monitoring of CPOs and their operated pools in a way that could help identify trends and points of stress. A main reason for the Commission's proposal to eliminate collection of this information stems from the challenges associated with the data set, including that it is only reported to the Commission on a quarterly basis, at its most frequent. Given the limitations associated with the data collected, the Commission has prioritized its limited resources to pursue other key regulatory initiatives.

However, considering the alternate data streams currently available to the Commission, the Commission preliminarily believes that the Commission could nevertheless effectively exercise its oversight of CPOs and their operated pools and potentially do so in a more efficient manner if Revised Form CPO-PQR were adopted as proposed. Furthermore, the Commission notes that, due in part to the identified data quality issues, FSOC has never received any Form CPO-PQR data; however, the

⁷⁰ 7 U.S.C. 2(i).

Voting Draft – As approved by the Commission on 4/14/2020
(*subject to technical corrections*)

Commission acknowledges that FSOC may receive less data as a result of the proposal, as some CPOs that are filing CFTC-only pool information through Form PF may stop doing so should this proposal be adopted as final. The Commission does not, however, believe that FSOC's monitoring abilities would be materially affected compared to the current status quo should Schedules B and C largely be eliminated.

The Commission's proposal to eliminate these reporting requirements would also reduce the ongoing variable compliance costs for Mid-Sized and Large CPOs, as they would no longer need to devote resources to compiling and reporting this data. Nor would CPOs be required to monitor their AUM with the specific purpose of determining their filing obligations as there would be a single requirement for all CPOs. It is possible that such cost savings may allow those CPOs to devote resources to other compliance or operational initiatives, or to potentially pass them on to pool participants through reduced fees. These cost savings would be minimized, however, for any CPO that is dually registered with the SEC and required to file Form PF, which requires reporting of information substantially similar to that required in Schedules B and C of current Form CPO-PQR. Additionally, the proposal would not alleviate any fixed costs affected CPOs may have already spent in developing systems and procedures designed to meet the reporting requirements in Schedules B and C, particularly if, again, such CPOs are also required to file Form PF.

2. Revised Form CPO-PQR

The proposal would amend the information in existing Schedule A of the form to request LEIs for CPOs and their operated pools. The addition of this question would allow the Commission to be able to integrate the data provided in Revised Form CPO-

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

PQR with the Commission's other more current data streams. Leveraging these other data sources would enable the Commission to continue its oversight and monitoring of counterparty risk and liquidity risk for some of the largest pools within the Commission's jurisdiction, thereby focusing on areas that are relevant for assessing market and systemic risk, while eliminating the burden associated with the collection of the more detailed information in current Schedules B and C, particularly with respect to pools that may meet the current Large Pool threshold in the future. The addition of this field should create a one-time cost for CPOs required to file Revised Form CPO-PQR, as LEIs do not change over time, potentially allowing fields for those questions to be prepopulated for subsequent filings.

The proposal would further eliminate questions regarding the pool's auditors and marketers. This amendment will result in reduced reporting costs for reporting CPOs while not affecting the scope of information available to the Commission, as the Commission already receives information regarding CPO's accountants and has alternate means of obtaining information about a pool's marketers. For example, persons soliciting for pool participation units are typically either associated persons of the CPO or registered representatives of a broker dealer. Such persons are subject to regulation by either the Commission and NFA, or the SEC and FINRA.

Currently, all CPOs other than Large CPOs submit the information in Schedule A on an annual basis. Increasing the frequency of reporting of this information will assist the Commission in its efforts to integrate Revised Form CPO-PQR with the Commission's other more timely data sources, so as to improve the effectiveness of its ability to monitor and oversee the activities of CPOs and their operated pools. Although

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

this would result in an increased regulatory cost for Small and Mid-Sized CPOs compared to the regulatory status quo, the costs as actually realized by these CPOs may not be as significant, as they are already reporting this information on a quarterly basis to NFA via NFA Form PQR.

Under current Form CPO-PQR, only Mid-Sized and Large CPOs are required to submit a pool schedule of investments, and Mid-Sized CPOs only submit that information annually. The proposal would require all CPOs to submit that information quarterly. The Commission believes that receiving this information from all CPOs and more frequently would, when combined with the proposed LEI requirements, further enhance its ability to integrate the information in Revised CPO-PQR with its other more current data streams and identify trends on a more timely basis, with the ultimate goal of supporting its oversight and monitoring of CPOs and their operated pools for market and systemic risk. As with the change in reporting frequency for the information in Schedule A, this change would result in an increased regulatory cost compared to the regulatory status quo for Small and Mid-Sized CPOs, as Small CPOs would be required to develop the procedures and systems necessary to take on the additional reporting obligations for the pool schedule of investments and both Small and Mid-Sized CPOs would now report that information on a quarterly basis. However, all CPOs are already required to report this information on a quarterly basis to NFA via NFA Form PQR, meaning the actual costs as realized by these CPOs may not be as significant.

The proposal would allow CPOs to file NFA Form PQR in lieu of filing the Revised Form CPO-PQR, to the extent NFA Form PQR is amended to include LEIs, as the Commission understands NFA has planned. Under NFA's rules, all CPOs regardless

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

of size are currently required to file NFA Form PQR on a quarterly basis. This provision would therefore operate to help CPOs maintain their current filing costs without affecting the scope of information available to the Commission under Revised Form CPO-PQR.

As mentioned above, the Commission acknowledges that, through the proposed revision of Regulation 4.27(d), the proposal could result in less data being collected on Form PF as compared to the current status quo. Many dually registered CPOs currently include commodity pools that are not private funds in data that they report on Form PF, in lieu of a filing on Form CPO-PQR for such pools, in reliance on Regulation 4.27(d). If Regulation 4.27(d) is revised, these CPOs could decide to stop including these pools in their Form PF filing. The Commission preliminarily believes, however, that this loss of data to the SEC and FSOC would not meaningfully impact the efficacy and intent of Form PF in furthering the oversight of the private fund industry, given that it would only result in the loss of data with respect to non-private fund pools; however, the Commission acknowledges that FSOC may lose data for a specific type of private fund asset class, managed futures.

3. Alternatives

In lieu of amending Form CPO-PQR as proposed, the Commission could require all CPOs, regardless of whether they are dually registered, to file Form PF. The Commission preliminarily believes that this alternative could operate to increase the reporting burdens for CPOs that are not dually registered with the SEC without feeding information directly to the Commission that could be integrated with its other data sources to develop its internal oversight initiatives over CPOs and their operated pools.

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

Alternatively, the Commission could devote resources to rectifying the challenges with the data reported under current Form CPO-PQR, and amend the Form to require greater consistency and frequency of reporting of the data fields proposed to be eliminated in this proposal. However, the Commission preliminarily believes that its limited resources could be better directed in line with its regulatory priorities, and that its objectives with respect to oversight of CPOs and their operated pools could be effectively and potentially, more efficiently, achieved through integration with existing data streams.

The Commission preliminarily believes that the proposed changes to Form CPO-PQR, relative to the alternatives, would permit the Commission to discharge its regulatory duties with respect to CPOs and their operated pools that might have the greatest impact on market and systemic risk while easing reporting obligations on a significant number of CPOs. The Commission requests comments and data on how potential alternatives would impact the potential costs and benefits to market participants and the public. Are there any other alternatives that may provide preferable costs or benefits than the costs and benefits related to the Proposal?

4. Section 15(a) Factors

a. Protection of Market Participants and the Public

The Commission preliminarily believes that the proposal would enhance the ability of the Commission to protect derivatives markets, its participants, and the public by allowing it to integrate the data provided in Revised Form CPO-PQR with other existing, more up-to-date, data streams in a way that would allow the Commission to better exercise its oversight of CPOs and their operated pools. The Commission notes

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

that the amendments proposed herein could result in a loss of data available to FSOC, which could limit FSOC's visibility into the activities of CPOs and their operated pools.

b. Efficiency, Competitiveness, and Financial Integrity of Markets

The Commission preliminarily believes that the proposal would assist the Commission in its efforts to support market efficiency, competitiveness, and financial integrity. Under the proposal, CPOs would continue to provide useful information about themselves and their pools to the Commission in a way that it could incorporate with other data streams to improve its oversight of CPOs, their pools, and how they operate within and affect the derivatives markets. Additionally, the Commission preliminarily believes that the specific requirement that a CPO prepare a pool schedule of investments on a quarterly basis for each of its operated pools could result in heightened diligence by the CPO with respect to the pools' ongoing operations and encourage particularly smaller CPOs to adopt more formalized controls for their businesses, which the Commission preliminarily believes would enhance the confidence of other market participants in transacting with CPOs and their operated pools.

c. Price Discovery

The Commission has not identified any impact that the Proposal would have on price discovery.

d. Sound Risk Management Practices

Although the Commission is proposing that it no longer require CPOs and their operated pools to report certain risk information, the Commission recognizes that CPOs will likely continue to benefit from possessing systems that collect and review risk-

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

related information. The Commission has not identified any other impact that the Proposal would have on sound risk management practices.

e. Other Public Interest Considerations

The Commission has not identified any impact on any other public interest considerations that the Proposal would have, but seeks public comment on any public interest the Commission should consider in this rulemaking.

5. Request for Comments

The Commission invites public comment on its cost-benefit considerations, including the Section 15(a) factors described above. Commenters are invited to submit with their comment letters any data or other information that they may have that quantifies the costs and benefits of the Proposal. In addition, the Commission invites the public comment on the following questions.

1. Has the Commission misidentified any costs or benefits? If so, please explain.

2. Please explain whether CPO compliance costs would increase or decrease as a result of reduced reporting requirements in this Proposal? Please provide all quantitative and qualitative costs, including, but not limited to personnel costs and technological costs.

3. Would harmonization of Form CPO-PQR with other similar forms, such as Form PF, provide a greater savings in compliance costs? If so, please describe all quantitative and qualitative savings. Please provide all quantitative and qualitative costs, including, but not limited to personnel costs and technological costs.

D. Antitrust laws

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

Section 15(b) of the CEA requires the Commission to “take into consideration the public interest to be protected by the antitrust laws and endeavor to take the least anticompetitive means of achieving the purposes of the CEA, in issuing any order or adopting any Commission rule or regulation (including any exemption under CEA section 4(c) or 4c(b)), or in requiring or approving any bylaw, rule, or regulation of a contract market or registered futures association established pursuant to section 17 of this Act.”⁷¹

The Commission preliminarily believes that the public interest to be protected by the antitrust laws is generally to protect competition. The Commission requests comment on whether the Proposal implicates any other specific public interest to be protected by the antitrust laws.

The Commission has considered the Proposal to determine whether it is anticompetitive and has preliminarily identified no anticompetitive effects. The Commission requests comment on whether the Proposal is anticompetitive and, if it is, what the anticompetitive effects are.

Because the Commission has preliminarily determined that the Proposal is not anticompetitive and has no anticompetitive effects, the Commission has not identified any less anticompetitive means of achieving the purposes of the Act. The Commission requests comment on whether there are less anticompetitive means of achieving the relevant purposes of the Act that would otherwise be served by adopting the Proposal.

List of Subjects in 17 CFR part 4

⁷¹ 7 U.S.C. 19(b).

Voting Draft – As approved by the Commission on 4/14/2020

(subject to technical corrections)

Advertising, Brokers, Commodity futures, Commodity pool operators, Commodity trading advisors, Consumer protection, Reporting and recordkeeping requirements.

For the reasons stated in the preamble, the Commodity Futures Trading Commission proposes to amend 17 CFR part 4 as set forth below:

PART 4 COMMODITY POOL OPERATORS AND COMMODITY TRADING ADVISORS

1. The authority citation for part 4 shall continue to read as follows:

Authority: 7 U.S.C. 1a, 2, 6(c), 6b, 6c, 6l, 6m, 6n, 6o, 12a, and 23.

2. Revise § 4.27(c)(1) to read as follows:

§ 4.27 Additional reporting by commodity pool operators and commodity trading advisors.

* * * * *

(c) Reporting.

(1) Each reporting person shall file with the National Futures Association, a report with respect to the directed assets of each pool under the advisement of the commodity pool operator consistent with appendix A to this part or commodity trading advisor consistent with appendix C to this part; Provided that, a commodity pool operator required to file NFA Form PQR with the National Futures Association for the reporting period may make such filing in lieu of the report required under this section consistent with appendix A to this part.

* * *

(d) *Investment advisers to private funds.* CPOs and CTAs that are dually registered with the Securities and Exchange Commission, and that are required to file Form PF under the rules promulgated under the Investment Advisers Act of 1940, shall file Form PF with the Securities and Exchange Commission. Dually registered CPOs and CTAs that file Form PF with the Securities and Exchange Commission will be deemed to have filed Form PF with the Commission for purposes of any enforcement action regarding any false or misleading statement of a material fact in Form PF.

* * *

3. In appendix A to part 4:

Voting Draft – As approved by the Commission on 4/14/2020
(subject to technical corrections)

- a. Remove appendix A; and
- b. Add appendix A.

Appendix A to read as follows: [FORMS CPO-PQR (app. A) attached hereto]

Issued in Washington, DC on _____, 2020, by the Commission.
Christopher Kirkpatrick
Secretary of the Commission

CFTC FORM CPO-PQR REPORT FOR COMMODITY POOL OPERATORS

Instructions for Using the Form CPO-PQR

READ THESE INSTRUCTIONS CAREFULLY BEFORE COMPLETING OR REVIEWING THE REPORTING FORM.

This document is not a reporting form. Do not send this document to NFA. It is a template that you may use to assist in filing the electronic reporting form with the NFA at: <http://www.nfa.futures.org>.

You may fill out the template online and save and/or print it when you are finished or you can download the template and/or print it and fill it out later.

DEFINED TERMS

Words that are underlined in this form are defined terms and have the meanings contained in the Definitions of Terms section.

GENERAL

Read the Instructions and Questions Carefully

Please read the instructions and the questions in this Form CPO-PQR carefully.

In this Form CPO-PQR, "you" means the CPO.

Call the CFTC with Questions

If there is any question about whether particular information must be provided or about the manner in which particular information must be provided, contact the CFTC for clarification.

REPORTING INSTRUCTIONS

1. All CPOs Are Required to Complete and File the Form CPO-PQR

All CPOs are required to complete and file a Form CPO-PQR for each Reporting Period during which they satisfy the definition of CPO and operate at least one Pool. Further, if a pool is operated by Co-CPOs and one of them is an Investment Adviser, the non-Investment Adviser CPO must file relevant section(s) even though a Form PF was filed for that pool by the Investment Adviser CPO.

2. Relationship to the National Futures Association's Form PQR

To the extent that a CPO has timely filed the National Futures Association's Form PQR, such filing shall be deemed to satisfy this Form CPO-PQR.

Form CPO-PQR must be completed and filed by each CPO for every Reporting Period during which they satisfy the definition of CPO and operate at least one Pool. All CPOs must complete and file Form CPO-PQR within 60 days of the close of the most recent Reporting Period. The information provided herein should be as of the last business day of the reporting period.

Part 1 of Form CPO-PQR surveys basic information about the reporting CPO. Part 2 of Form CPO-PQR asks for more specific information about each of the CPO's Pools, including questions about the Pool's key relationship and about the Pool's investment positions.

3. The CPO May Be Required to Aggregate Information Concerning Certain Types of Pools

For the parts of Form CPO-PQR that request information about individual Pools, you must report aggregate information for Parallel Managed Accounts and Master Feeder Arrangements as if each were an individual Pool, but not Parallel Pools. Assets held in Parallel Managed Accounts should be treated as assets of the Pools with which they are aggregated.

4. I advise a Pool that invests in other Pools or funds (e.g., a "fund of funds"). How should I treat these investments for purposes of Form CPO-PQR?

Investments in other Pools generally. For purposes of this Form CPO-PQR, you may disregard any Pool's equity investments in other Pools. However, if you disregard these investments, you must do so consistently (e.g., do not include disregarded investments in the net asset value used for determining whether the fund is a "Qualifying Pool"). For Question 9, even if you disregard these assets, you may report the performance of the entire Pool and are not required to recalculate performance in order to exclude these investments. Do not disregard any liabilities, even if incurred in connection with these investments.

Pools that invest substantially all of their assets in other Pools or funds. If you are the CPO for a Pool that: (i) invests substantially all of its assets in the equity of Pools or Private Funds for which you are not the CPO; and (ii) aside from such Pool or Private Fund investments, holds only cash and cash equivalents and instruments acquired for the purpose of hedging currency exposure, then you are only required to complete Schedule A for that Pool. For all other purposes, you should disregard such Pools. For example, where questions request aggregate information regarding the Pools you advise, do not include the assets or liabilities of any such Pool.

CFTC FORM CPO-PQR REPORT FOR COMMODITY POOL OPERATORS

Instructions for Using the Form CPO-PQR

Notwithstanding the foregoing, you must include disregarded assets in responding to Question 8.

5. I am required to aggregate funds or accounts to determine whether I meet a reporting threshold, or I am electing to aggregate funds for reporting purposes. How do I “aggregate” funds or accounts for these purposes?

Where two or more Parallel Pool Structures or Master-Feeder Arrangements are aggregated in accordance with Instruction 3, you must treat the aggregated funds as if they were all one Pool. Investments that a Feeder Fund makes in a Master Fund should be disregarded, but other investments of the feeder fund should be treated as though they were investments of the aggregated fund.

Where you are aggregating dependent parallel managed accounts to determine whether you meet a reporting threshold, assets held in the accounts should be treated as assets of the Pools with which they are aggregated.

Example 1. You advise a master-feeder arrangement with one feeder fund. The feeder fund has invested \$500 in the master fund and holds a foreign exchange derivative with a notional value of \$100. The master fund has used the \$500 received from the feeder fund to invest in corporate bonds. Neither fund has any other assets or liabilities.

For purposes of determining whether the funds comprise a qualifying Pool, this master-feeder arrangement should be treated as a single Pool whose only investments are \$500 in *corporate bonds* and a foreign exchange derivative with a notional value of \$100. If you elect to aggregate the master-feeder arrangement for reporting purposes, the treatment would be the same.

Example 2. You advise a parallel pool structure consisting of two pools, named parallel pool A and parallel pool B. You also advise a related dependent parallel managed account. The account and each fund have invested in corporate bonds of Company X and have no other assets or liabilities. The value of parallel pool A's investment is \$400, the value of parallel pool B's investment is \$300 and the value of the account's investment is \$200.

For purposes of determining whether either of the parallel pools is a qualifying Pool, the entire parallel fund structure and the related dependent parallel managed account should be treated as a single Pool whose only asset is \$900 of corporate bonds issued by Company X.

If you elect to aggregate the parallel fund structure for reporting purposes, you would disregard the dependent parallel managed account, so the result would be a single Pool whose only asset is \$700 of corporate bonds issued by Company X.

6. I advise a Pool that invests in entities that are not Pools, or are exempt. How should I treat these investments for purposes of Form CPO-PQR?

Except as provided in Instruction 4, investments in funds should be included for all purposes under this Form CPO-PQR. You are not, however, required to “look through” a Pool's investments in any other entity unless the Form CPO-PQR specifically requests information regarding that entity or the other entity's primary purpose is to hold assets or incur leverage as part of the Pool's investment activities.

7. The Form CPO-PQR Must Be Filed Electronically with NFA

CFTC FORM CPO-PQR REPORT FOR COMMODITY POOL OPERATORS

Instructions for Using the Form CPO-PQR

All CPOs must file their Forms CPO-PQR electronically using NFA's EasyFile System. NFA's EasyFile System can be accessed through NFA's website at www.nfa.futures.org. You will use the same logon and password for filing your Form CPO-PQR as you would for any other EasyFile filings. Questions regarding your NFA ID# or your use of NFA's EasyFile system should be directed to the NFA. The NFA's contact information is available on its website.

8. All Figures Reported in U.S. Dollars

All questions asking for amounts or investments must be reported in U.S. dollars. Any amounts converted to U.S. dollars must use the conversion rate in effect on the Reporting Date.

9. Use of U.S. GAAP

All financial information in this Report must be presented and computed in accordance with GAAP consistently applied.

10. Reporting of Legal Entity Identifiers (LEIs)

Form CPO-PQR includes questions asking CPOs for LEIs for the CPO and its operated Pools. CPOs are NOT required to obtain LEIs for themselves or their operated Pools if such CPOs or Pools are not otherwise required to have them.

11. Oath and Affirmation

This Form CPO-PQR will not be accepted unless it is complete and contains an oath or affirmation that, to the best of the knowledge and belief of the individual making the oath or affirmation, the information contained in the document is accurate and complete; provided however, that it shall be unlawful for the individual to make such oath or affirmation if the individual knows or should know that any of the information in this Form CPO-PQR is not accurate and complete.

CFTC FORM CPO-PQR REPORT FOR COMMODITY POOL OPERATORS

Form CPO-PQR Template

DEFINITIONS OF TERMS

Affiliated Entity: The term "Affiliated Entity" means any entity is an affiliate of another entity. An entity is an affiliate of another entity if the entity directly or indirectly controls, is controlled by or is under common control with the other entity.

Assets Under Management or AUM: The term "Assets Under Management" or "AUM" means the amount of all assets that are under the control of the CPO.

BP: The term "BP" means basis points.

Broker: The term "Broker" means any entity that provides clearing, prime brokerage or similar services to the Pool.

CDS: The term "CDS" means credit default swap.

CCP: The term "CCP" means a central counterparty or central clearing house, such as, but not limited to: CC&G, CME Clearing, The Depository Trust & Clearing Corporation (including FICC, NSCC and Euro CCP), EMCF, Eurex Clearing, Fedwire, ICE Clear Europe, ICE Clear U.S., ICE Trust, LCH Clearnet Limited, LCH Clearnet SA, Options Clearing Corporation and SIX x-clear.

Commodity Futures Trading Commission or CFTC: The term "Commodity Futures Trading Commission" or "CFTC" means the United States Commodity Futures Trading Commission.

Commodity Pool or Pool: The term "Commodity Pool" or "Pool" has the same meaning as "commodity pool" as defined in section 1a(10) of the Commodity Exchange Act.

Commodity Pool Operator or CPO: The term "commodity pool operator" or "CPO" has the same meaning as "commodity pool operator" defined in section 1a(11) of the Commodity Exchange Act.

Commodity Trading Advisor or CTA: The term "commodity trading advisor" or "CTA" has the same meaning as "commodity trading adviser" as defined in section 1a(12) of the Commodity Exchange Act.

Feeder Fund: See Master-Feeder Arrangement.

Financial Institution: The term "financial institution" means any of the following: (i) a bank or savings association, in each case as defined in the Federal Deposit Insurance Act; (ii) a bank holding company or financial holding company, in each case as defined in the Bank Holding Company Act of 1956; (iii) a savings and loan holding company, as defined in the Home Owners' Loan Act; (iv) a Federal credit union, State credit union or State-chartered credit union, as those terms are defined in section 101 of the Federal Credit Union Act; (v) a Farm Credit System institution chartered and subject to the provisions of the Farm Credit Act of 1971; or (vi) an entity chartered or otherwise organized outside the United States that engages in banking activities.

Form CPO-PQR: The term "Form CPO-PQR" means this Form CPO-PQR.

Form PF: The term "Form PF" refers to the Form PF.

CFTC FORM CPO-PQR REPORT FOR COMMODITY POOL OPERATORS

Form CPO-PQR Template

GAAP: The term “GAAP” means U.S. Generally Accepted Accounting Principles.

Investment Adviser: The term “Investment Adviser” has the same meaning as “investment adviser” as defined in Section 202(a)(11) of the Investment Advisers Act of 1940.

LEI: The term “LEI” means legal entity identifier as defined in Commission Rule 45.6.

Master Fund: See Master-Feeder Arrangement.

Master-Feeder Arrangement: The phrase “Master-Feeder Arrangement” means an arrangement in which one or more funds (“Feeder Funds”) invest all or substantially all of their assets in a single fund (“Master Fund”). A fund would also be a Feeder Fund investing in a Master Fund for the purposes of this definition if it issued multiple classes or series of shares or interests and each class (or series) invests substantially all of its assets in shares (or other interests in) a single underlying Master Fund.

National Futures Association or NFA: The term “National Futures Association” or “NFA” refers to the National Futures Association, a registered futures association under Section 17 of the Commodity Exchange Act.

Negative OTE: The term “Negative OTE” means negative open trade equity.

Net Asset Value or NAV: The term “Net Asset Value” or “NAV” has the same meaning as “net asset value” as defined in Commission Rule 4.10(b).

Non-U.S. Financial Institution: A “non-U.S. Financial Institution” means any of the following Financial Institutions: (i) a Financial Institution chartered outside the United States; (ii) a subsidiary of a U.S. Financial Institution that is separately incorporated or otherwise organized outside the United States; or (iii) a branch or agency that resides in the United States but has a parent that is a Financial Institution chartered outside the United States.

OTC: The term “OTC” means over-the-counter.

Parallel Managed Account: The term “Parallel Managed Account” means any managed account or other pool of assets that the CPO operates and that pursues substantially the same investment objective and strategy and invests side-by-side in substantially the same assets as the identified Pool.

CFTC FORM CPO-PQR REPORT FOR COMMODITY POOL OPERATORS

Form CPO-PQR Template

Parallel Pool Structure: The term “Parallel Pool Structure” means any structure in which one or more Pools pursues substantially the same investment objective and strategy and invests side by side in substantially the same assets as another Pool.

Private Fund: The term “Private Fund” has the same meaning as “private fund” as defined in Form PF.

Positive OTE: The term “Positive OTE” means positive open trade equity.

Reporting Date: The term “Reporting Date” means the last calendar day of the Reporting Period for which this Form CPO-PQR is required to be completed and filed. For example, the Reporting Date for the first calendar quarter of a year is March 31; the Reporting Date for the second calendar quarter is June 30.

Reporting Period: The term “Reporting Period” means any of the individual calendar quarters (ending March 31, June 30, September 30, and December 31) for all CPOs.

Trading Manager: The term “Trading Manager” means any entity or individual with sole or partial authority to invest Pool assets or to allocate Pool assets to other managers or investee Pools (including cash management firms). CTAs and other CPOs can be Trading Managers; however, a CPO should not identify itself as a Trading Manager.

Secured Borrowing: The term “Secured Borrowing” means obligations for borrowed money in respect of which the borrower has posted collateral or other credit support. For purposes of this definition, repos are secured borrowings.

Securities and Exchange Commission or SEC: The term “Securities and Exchange Commission” or “SEC” means the United States Securities and Exchange Commission.

Side Arrangements and Side Letters: The term “Side Arrangements” or the term “Side Letters” means any arrangement that is extended to less than 100% of the Pool's participants.

U.S. Financial Institution: The term “U.S. Financial Institution” means any of the following Financial Institutions: (i) a Financial Institution chartered in the United States (whether federally-chartered or state-chartered); (ii) a subsidiary of a Non-U.S. Financial Institution that is separately incorporated or otherwise organized in the United States; or (iii) a branch or agency that resides outside the United States but has a parent that is a Financial Institution chartered in the United States.

Unsecured Borrowing: The term “Unsecured Borrowing” means obligations for borrowed money in respect of which the borrower has not posted collateral or other credit support.

CFTC FORM CPO-PQR REPORT FOR COMMODITY POOL OPERATORS

Form CPO-PQR Template

INSTRUCTIONS FOR COMPLETING SCHEDULE A

Every CPO is required to complete and file Schedule A of this Form CPO-PQR. This Schedule A must be completed for every Reporting Period during which the CPO operated at least one Pool. Part 1 of Schedule A asks for information about the CPO. Part 2 of Schedule A asks for information about each individual Pool that the CPO operated during the Reporting Period. CPOs must complete and file a separate Part 2 for each Pool they operated any time during the Reporting Period.

Unless otherwise specified in a particular question, all information provided in this Schedule A should be accurate as of the Reporting Date.

PART 1 · INFORMATION ABOUT THE CPO

1. CPO INFORMATION

Provide the following general information concerning the CPO:

- a. CPO's Name:
- b. CPO's NFA ID#:
- c. CPO's LEI ID#:
- d. Person to contact concerning this Form CPO-PQR:
- e. CPO's chief compliance officer:
- f. Total number of employees of the CPO:
- g. Total number of equity holders of the CPO:
- h. Total number of Pools operated by the CPO:
- i. Telephone number and email for person identified in c. above

2. CPO ASSETS UNDER MANAGEMENT

Provide the following information concerning the amount of Assets Under Management by the CPO:

- a. CPO's Total Assets Under Management:
- b. CPO's Total Net Assets Under Management:

CFTC FORM CPO-PQR REPORT FOR COMMODITY POOL OPERATORS

Form CPO-PQR Template

PART 2 · INFORMATION ABOUT THE POOLS OPERATED BY THE CPO

REMINDER: The CPO must complete and file a separate Part 2 for each Pool that the CPO operated during the Reporting Period.

3. POOL INFORMATION

Provide the following general information concerning the Pool:

- a. CPO's Name:
- b. CPO's NFA ID#:
- c. CPO's LEI ID#:
- d. Pool's Name:
- e. Pool's NFA ID#:
- f. Pool's LEI ID#:

4. POOL THIRD PARTY ADMINISTRATORS

Provide the following information concerning the Pool's third party administrator(s):

- a. Does the CPO use third party administrators for the Pool?

If "Yes," provide the following information for each third party administrator:

- i. Name of the administrator:
- ii. NFA ID# of administrator:
- iii. Address of the administrator:
- iv. Telephone number of the administrator:
- v. Starting date of the relationship with the administrator:
- vi. Services performed by the administrator:

Preparation of Pool financial statements:

Maintenance of the Pool's books and records:

Calculation of Pool's performance:

Other:

5. POOL BROKERS

Provide the following information concerning the Pool's Broker(s):

- a. Does the CPO use Brokers for the Pool?

If "Yes," provide the following information for each Broker:

CFTC FORM CPO-PQR REPORT FOR COMMODITY POOL OPERATORS

Form CPO-PQR Template

- i. Name of the Broker:
- ii. NFA ID# of Broker:
- iii. Address of Broker
- iv. Telephone number of the Broker:
- v. Starting date of the relationship with the Broker:
- vi. Services performed by the Broker:
 - Clearing services for the Pool: Custodian services for some or all Pool assets:
 - Prime brokerage services for the Pool: Other:

6. POOL TRADING MANAGERS

Provide the following information concerning the Pool's Trading Manager(s):

- a. Has the CPO authorized Trading Managers to invest or allocate some or all of the Pool's Assets Under Management?

If "Yes," provide the following information for each Trading Manager:

- i. Name of the Trading Manager:
- ii. NFA ID# of the Trading Manager:
- iii. Address of the Trading Manager:
- iv. Telephone number of the Trading Manager:
- v. Starting date of the relationship with the Trading Manager:
- vi. What percentage of the Pool's Assets Under Management does the Trading Manager have authority to invest or allocate?

7. POOL CUSTODIANS

Provide the following information concerning the Pool's custodian(s):

- a. Does the CPO use custodians to hold some or all of the Pool's Assets Under Management?

If "Yes," provide the following information for each custodian:

- i. Name of the custodian:
- ii. NFA ID# of the custodian:
- iii. Address of the custodian:
- iv. Telephone number of the custodian:
- v. Starting date of the relationship with the custodian:

CFTC FORM CPO-PQR REPORT FOR COMMODITY POOL OPERATORS

Form CPO-PQR Template

vi. What percentage of the Pool's Assets Under Management is held by the custodian?

8. POOL'S STATEMENT OF CHANGES CONCERNING ASSETS UNDER MANAGEMENT

Provide the following information concerning the Pool's activity during the Reporting Period. For the purposes of this question:

- a. The Assets Under Management and Net Asset Value at the beginning of the Reporting Period are considered to be the same as the assets under management and Net Asset Value at the end of the previous Reporting Period, in accordance with Commission Rule 4.25(a)(7)(A).
- b. The additions to the Pool include all additions whether voluntary or involuntary in accordance with Commission Rule 4.25(a)(7)(B).
- c. The withdrawals and redemptions from the Pool include all withdrawals or redemptions whether voluntary or not, in accordance with Commission Rule 4.25(a)(7)(C).
- d. The Pool's Assets Under Management and Net Asset Value on the Reporting Date must be calculated by adding or subtracting from the Assets Under Management and Net Asset Value at the beginning of the Reporting Period, respectively, any additions, withdrawals, redemptions and net performance, as provided in Commission Rule 4.25(a)(7)(E).
 - i. Pool's Assets Under Management at the beginning of the Reporting Period:
 - ii. Pool's Net Asset Value at the beginning of the Reporting Period:
 - iii. Pool's net income during the Reporting Period:
 - iv. Additions to the Pool during the Reporting Period:
 - v. Withdrawals and Redemptions from the Pool during the Reporting Period:
 - vi. Pool's Assets Under Management on the Reporting Date:
 - vii. Pool's Net Asset Value on the Reporting Date:
 - viii. Pool's base currency:

10. POOL SUBSCRIPTIONS AND REDEMPTIONS

Provide the following information concerning subscriptions to and redemptions from the Pool during the Reporting Period.

a. Has the Pool imposed a halt or any other material limitation on redemptions during the Reporting Period?

If "Yes," provide the following information:

- i. On what date was the halt or material limitation imposed?
- ii. If the halt or material limitation has been lifted, on what date was it lifted?
- iii. What disclosure was provided to participants to notify them that the halt or material limitation was being imposed? What disclosure was provided to participants to notify them that the halt or material limitation was being lifted?
- iv. On what date(s) was this disclosure provided?

11. POOL SCHEDULE OF INVESTMENTS

Provide the Pool's investments in each of the subcategories listed under the following seven headings: (1) Cash; (2) Equities; (3) Alternative Investments; (4) Fixed Income; (5) Derivatives; (6) Options; and (7) Funds. First, determine how the Pool's investments should be allocated among each of these seven categories. Once you have determined how the Pool's investments should be allocated, enter the dollar value of the Pool's total

CFTC FORM CPO-PQR REPORT FOR COMMODITY POOL OPERATORS

Form CPO-PQR Template

investment in each applicable category on the top, boldfaced line. For example, under the "Cash" heading, the Pool's total investment should be listed on the line reading "Total Cash." After the top, boldfaced line is completed, proceed to the subcategories. For each subcategory, determine whether the Pool has investments that equal or exceed 5% of the Pool's Net Asset Value. If so, provide the dollar value of each such investment in the appropriate subcategory. If the dollar value of any investment in a subcategory equals or exceeds 5% of the Pool's Net Asset Value, you must itemize the investments in that subcategory.
