

Stocks Eligible for Inclusion in a Broad-Based Index Under Path B

Under Path B, an index is classified as broad based if:

- 1) The index has 9 or more component securities;
- 2) No single security comprises more than 30 percent of the index's weighting;
- 3) All of the securities are registered under Section 12 of the Exchange Act; and
- 4) Each security is one of the 750 securities with the largest market capitalization **and** one of the 675 securities with the largest dollar value of ADTV

The list below shows those registered securities that meet both criteria 3) and 4), in alphabetical order. The list shows those registered securities that are among the 750 largest by market capitalization **and** that are among the 675 largest in terms of U.S. dollar value of average daily trading volume (ADTV).

The list is updated in January and July based on market capitalization data and dollar value of average daily trading volume provided by Bloomberg Professional Service. CFTC staff collect data on the 1,400 largest companies by market capitalization in order to maintain the required six-month history. Bloomberg Professional Service provides data on the six-month dollar value of average daily trading volume.

The list may change due to variances in the dollar value of average daily trading volume and market capitalization of the component stocks. Stocks indicated by an asterisk are among the bottom 10 percent of the 750 market capitalization list (75 stocks) or among the bottom 10 percent of the 675 value of average daily trading volume list (68 stocks).

Stocks Eligible For Inclusion in a Broad-Based Security Index Under Path B

(As of 7/01/21)
