The public may submit the forms and petitions in this collection to the USPTO by mail through the United States Postal Service. If the submission is sent by first-class mail, the public may also include a signed certification of the date of mailing in order to receive credit for timely filing. The USPTO estimates that the average first-class postage cost for a mailed submission will be 50 cents and that approximately 1,919 submissions per year may be mailed to the USPTO, for a total postage cost of $959.50 per year.

### IV. Request for Comments

Comments are invited on:

(a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility;

(b) the accuracy of the agency’s estimate of the burden (including hours and cost) of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Comments submitted in response to this notice will be summarized or included in the request for OMB approval of this information collection; they will also become a matter of public record.

II. The Privacy Act

Under the Privacy Act of 1974, 5 U.S.C. 552a, a “system of records” is defined as any group of records under the control of a federal government agency from which information about individuals is retrieved by name or other personal identifier. The Privacy Act establishes the means by which government agencies must collect, maintain, and use personally identifiable information associated with an individual in a government system of records.

Each government agency is required to publish a notice in the Federal Register of a system of records in which the agency identifies and describes each system of records it maintains, the reasons why the agency uses the personally identifying information therein, the routine uses for which the agency will disclose such information outside the agency, and how individuals may exercise their rights under the Privacy Act to determine if the system contains information about them.
