SUPPLEMENTARY INFORMATION:

I. Background

Part 30 of the Commission’s regulations governs the offer and sale of futures and option contracts traded on or subject to the regulations of a foreign board of trade (“foreign futures and options”) to customers located in the U.S.² These regulations set forth requirements for foreign firms acting in the capacity of a futures commission merchant (FCM), introducing broker, commodity pool operator and commodity trading adviser with respect to the offer and sale of foreign futures and options to U.S. customers and are designed to ensure that such products offered and sold in the U.S. are subject to regulatory safeguards comparable to those applicable to transactions entered into on designated contract markets. In particular, requirements with respect to registration, disclosure, capital adequacy, protection of customer funds, recordkeeping and reporting, and sales practice and compliance procedures apply to the offer and sale of foreign futures and options as they do the offer and sale of domestic transactions.

In formulating a regulatory program to govern the offer and sale of foreign futures and option products to customers located in the U.S., the Commission considered the desirability of ameliorating the potential impact of such a program on persons already subject to regulatory oversight abroad. Based upon this consideration, the Commission determined to permit persons located outside the U.S. and subject to a comparable regulatory structure in the jurisdiction in which they are located to seek an exemption from certain of the requirements under part 30 of the Commission’s regulations based upon compliance with the regulatory requirements of the person’s jurisdiction.³ Such an exemption may be sought pursuant to § 30.10.⁴

A petition for exemption pursuant to § 30.10 typically is filed on behalf of persons located and doing business outside the U.S. that seek access to U.S. customers by: (1) A governmental agency responsible for implementing
