

Extension of Time Limits Regulation

Parties may request an extension of time limits before a time limit established under Part 351 expires, or as otherwise specified by Commerce.¹⁴ In general, an extension request will be considered untimely if it is filed after the time limit established under Part 351 expires. For submissions which are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. on the due date. Examples include, but are not limited to: (1) Case and rebuttal briefs, filed pursuant to 19 CFR 351.309; (2) factual information to value factors under 19 CFR 351.408(c), or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2), filed pursuant to 19 CFR 351.301(c)(3) and rebuttal, clarification and correction filed pursuant to 19 CFR 351.301(c)(3)(iv); (3) comments concerning the selection of a surrogate country and surrogate values and rebuttal; (4) comments concerning CBP data; and (5) Q&V questionnaires. Under certain circumstances, Commerce may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, Commerce will inform parties in the letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. This policy also requires that an extension request must be made in a separate, stand-alone submission, and clarifies the circumstances under which Commerce will grant untimely-filed requests for the extension of time limits. Please review the *Final Rule*, available at <https://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>, prior to submitting factual information in these segments.

These initiations and this notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.221(c)(1)(i).

Dated: March 4, 2020.

ESA-Listed Species Covered in This Notice

- *Chinook salmon (Oncorhynchus tshawytscha)*: Threatened, naturally and artificially propagated
 - *Snake River Fall-run (O. tshawytscha)*: Threatened, naturally and artificially propagated
 - *Snake River Spring/Summer run*: Threatened, naturally and artificially propagated
- *Snake River Steelhead (O. mykiss)*: Threatened, naturally and artificially propagated

Background

Section 9 of the ESA and Federal regulations prohibit the “taking” of a species listed as endangered or threatened. The term “take” is defined under the ESA to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may make exceptions to the take prohibitions in section 9 of the ESA for programs that are approved by NMFS under the 4(d) Rule (50 CFR 223.203(b)(6)).

The Shoshone-Bannock Tribe and the Idaho Department of Fish and Game have submitted two HGMPs under Limit 6 of the 4(d) Rule. The programs are funded by the Bonneville Power Administration (BPA) and the United States Fish and Wildlife Service (USFWS). Prior to making a final determination on the HGMPs, NMFS must take comments on how the HGMPs addresses the criteria in Limit 6 of the 4(d) Rule.

The submitted HGMPs describe two hatchery programs in the Snake River basin along with the associated monitoring and evaluation activities. The programs integrate natural-origin broodstock to supplement natural salmon populations. The programs are intended to provide fishing opportunities for tribes and states, mitigate for fish losses caused by the construction and operation of the dams on the Lower Snake River, and contribute to the survival and recovery of Snake River Spring/summer Chinook salmon in the Snake River basin.

SUPPLEMENTARY INFORMATION: Under the PRA, 44 U.S.C. 3501 *et seq.*, Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of Information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3 and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information before submitting the collection to OMB for approval. To comply with this requirement, the CFTC is publishing notice of the proposed collection of information listed below. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Title: Part 40, Provisions Common to Registered Entities (OMB Control No. 3038–0093). This is a request for extension of a currently approved information collection.

Abstract: This collection of information involves the collection and submission to the Commission of information from registered entities concerning new products, rules, and rule amendments pursuant to the procedures outlined in §§ 40.2, 40.3, 40.5, 40.6, and 40.10 found in 17 CFR part 40.

With respect to the collection of information, the CFTC invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;

- The accuracy of the Commission’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the

use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; *e.g.*, permitting electronic submission of responses.

Burden Statement: Registered entities must comply with certification and approval requirements which include an explanation and analysis when seeking to implement new products, rules, and rule amendments, including changes to product terms and conditions. The Commission’s regulations §§ 40.2, 40.3, 40.5, 40.6 and 40.10 provide procedures for the submission of rules and rule amendments by designated contract markets, swap execution facilities, derivatives clearing organizations, and swap data repositories. They establish the procedures for submitting the “written certification” required by Section 5c of the Act. In connection with a product or rule certification, the registered entity must provide a concise explanation and analysis of the submission and its compliance with statutory provisions of the Act. Accordingly, new rules or rule amendments must be accompanied by concise explanations and analyses of the purposes, operations, and effects of the submissions. This information may be submitted as part of the same submission containing the required “written certification.” The Commission estimates the average burden of this collection of information as follows:

- Rules 40.2, 40.3, 40.5, and 40.6
Estimated Number of Respondents: 70.

Annual Responses by each Respondent: 100.
