August 2022

The tables below provide an update on the notional and entity-netted notional (ENN) size of the CFTC-regulated interest rate market. Entity-netted notionals were introduced in a paper published in the beginning of 2018 and updated in March 2020; ENNs aim to provide a measure for the amount of risk transfer in rate swaps that is comparable to measures used for other interest rate markets.<sup>2</sup> The tables below represent aggregated interest rate swap position data as of December 11, 2020.
