Subject: Proposed New Regulatory Framework

COMMENT

Dear Sirs,

The Association for Investment Management and Research (AIMR) plans to respond to the Commission's proposed new regulatory framework. The Association for Investment Management and Research is a global, non-profit organization of over 41,000 investment professionals from over 90 countries. Through its headquarters in the U.S. and 95 Member Societies and Member Chapters worldwide, AIMR provides global leadership in investment education, professional standards, and advocacy programs.

I attended the hearings held this week in DC, which were very insightful. I would like, however, to respectfully request that the Commission consider extending the allotted comment period. As one of the presenters noted, the proposed changes are significant and we would like to give them the full consideration they are due.

Please let me know if such extension is possible.

Regards,

Maria Clark
