COMMODITY FUTURES TRADING COMMISSION

Fees for Reviews of the Rule Enforcement Programs of Contract Markets and Registered Futures Associations

AGENCY: Commodity Futures Trading Commission.

ACTION: Establishment of the FY 2006 schedule of fees.

SUMMARY: The Commission charges fees to designated contract markets and registered futures associations to recover the costs incurred by the Commission in the operation of its program of oversight of self-regulatory organization (SRO) rule enforcement programs (17 CFR part 1 Appendix B) (NFA and the contract markets are referred to as SROs). The calculation of the fee amounts to be charged for FY 2006 is based upon an average of actual program costs incurred during FY 2003, 2004, and 2005, as explained below. The FY 2006 fee schedule is set forth in the **SUPPLEMENTARY INFORMATION**. Electronic payment of fees is required.

DATES: Effective Dates: The FY 2006 fees for Commission oversight of each SRO rule enforcement program must be paid by each of the named SROs in the amount specified by no later than September 11, 2006.

FOR FURTHER INFORMATION CONTACT: Stacy Dean Yochum, Counsel to the Executive Director, Commodity Futures Trading Commission, (202) 418-5160, Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581. For information on electronic payment, contact Stella Lewis, Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581, (202) 418-5186.

SUPPLEMENTARY INFORMATION:

I. General

This notice relates to fees for the Commission's review of the rule enforcement programs at the registered futures associations¹ and designated contract markets (DCM), which are referred to as SROs, regulated by the Commission.

II. Schedule of Fees

Fees for the Commission's review of the rule enforcement programs at the registered futures associations and DCMs regulated by the Commission:

Entity	Fee amount
Chicago Board of Trade	\$72,286
Chicago Mercantile Exchange	201,763
New York Mercantile Exchange	105,117
Kansas City Board of Trade	10,992
New York Board of Trade	63,561
Minneapolis Grain Exchange	11,108
OneChicago	18,301
National Futures Association	277,661
Total	760,789

III. Background Information

A. General

The Commission recalculates the fees charged each year with the intention of recovering the costs of operating this Commission program.² All costs are accounted for by the Commission's Management Accounting Structure Codes (MASC) system, which records each employee's time for each pay period. The fees are set each year based on direct program costs, plus an overhead factor.

B. Overhead Rate

The fees charged by the Commission to the SROs are designed to recover program costs, including direct labor costs and overhead. The overhead rate is calculated by dividing total Commission-wide overhead direct program labor costs into the total amount of the Commission-wide overhead pool. For this purpose, direct

program labor costs are the salary costs of personnel working in all Commission programs. Overhead costs consist generally of the following Commission-wide costs: Indirect personnel costs (leave and benefits), rent, communications, contract services, utilities, equipment, and supplies. This formula has resulted in the following overhead rates for the most recent three years (rounded to the nearest whole percent): 113 percent for fiscal year 2003, 109 percent for fiscal year 2004, and 109 percent for fiscal year 2005. These overhead rates are applied to the direct labor costs to calculate the costs of oversight of SRO rule enforcement programs.

C. Conduct of SRO Rule Enforcement Reviews

Under the formula adopted in 1993 (58 FR 42643, Aug. 11, 1993), which appears at 17 CFR part 1 Appendix B, the Commission calculates the fee to

recover the costs of its rule enforcement review and examinations, based on the three-year average of the actual cost of performing such reviews and examinations at each SRO. The cost of operation of the Commission's SRO oversight program varies from SRO to SRO, according to the size and complexity of each SRO's program. The three-year averaging computation method is intended to smooth out year-to-year variations in cost. Timing of the Commission's reviews and examinations may affect costs—a review or examination may span two fiscal years and reviews and examinations are not conducted at each SRO each year. Adjustments to actual costs may be made to relieve the burden on an SRO with a disproportionately large share of program costs.

The Commission's formula provides for a reduction in the assessed fee if an SRO has a smaller percentage of United States industry contract volume than its

¹ National Futures Association (NFA) is the only registered futures association.
