OFF. OF THE SECRETARIAT

July 27, 2005

Ms. Jean A. Webb
Secretary
Commodity Futures Trading Commission
Three Lafayette Center
1155 21st Street, N.W.
Washington, D.C. 20581

Reference File #2575.01
Non-Material Agricultural
Rule Change

Dear Ms. Webb:

Pursuant to Commission Regulation 40.4(b), the Chicago Board of Trade (CBOT[®]) hereby submits the following:

- **Amendment to Regulation 425.01 per the attached text (addition bold and underlined; deletion bracketed and struck through).**

The referenced amendment will reduce the Exchange's reportable position level for South American Soybean futures from 150 contracts to 25 contracts in any one month. The Exchange has concluded that this revised reportable position level is appropriate given the current level of open interest in this contract.

The CBOT intends to implement this amendment no sooner than ten days after the Commission's receipt of this submission.

There were no opposing views concerning this amendment.

The CBOT certifies that this amendment complies with the Commodity Exchange Act and the rules thereunder.

Sincerely,

Paul J. Draths
Vice President and Secretary

b081605

Deletions are [~~bracketed with strikethrough~~]
Additions are **bold and underscored**

425.01 Position Limits -

(a) For the purposes of this Regulation, the following are definitions of titles used in position limit chart-

Spot Month- Spot month futures-equivalent position limit net long or net short effective at the start of trading on the first business day prior to the first trading day of the spot month.

Single Month- Futures-equivalent position limit net long or net short in any one month other than the spot month.

All Months -Position limit net long or net short in all months and all strike prices combined. Note: Long futures contracts, long call options, and short put options are considered to be on the long side of the market while short futures contracts, long put options, and short call options are considered to be on the short side of the market. For each commodity, the futures-equivalents for both the options and futures contracts are aggregated to determine compliance with the net long or net short same side position limits.

Reportable Futures Level-Reportable futures position in any one month.

Reportable Options Level-Reportable options position in any one month in each option category.
Note:Option categories are long call, long put, short call, and short put.

Net Equivalent Futures Position-Each option contract has been adjusted by the prior day's risk factor, or delta coefficient, for that option which has been calculated by the Board of Trade Clearing Corporation.

For the purpose of this Regulation:

- (i) An option contract's futures-equivalency shall be based on the prior day's delta factor for the option series, as published by the Board of Trade Clearing Corporation. For example, 8 long put contracts, each with a delta factor of 0.5, would equal 4 futures-equivalent short contracts.
- (ii) Long futures contracts shall have a delta factor of +1, and short futures contracts shall have a delta factor of -1.
- (iii) Long call options and short put options shall have positive delta factors.
- (iv) Short call options and long put options shall have negative delta factors.
- (v) An eligible option/option or option/futures spread is defined as an intra-month or inter-month position in the same Chicago Board of Trade commodity in which the sum of the delta factors is zero.

(b) Except as provided in Regulations 425.03, 425.04 and 425.05, the maximum positions which any person may own, control, or carry are as follows:

(Note: All position limits and reportable positions are in number of contracts and are based on futures or *Net Equivalent Futures Positions.

*Please see section (a) of this Regulation for definition.
