Re: CBOE Futures Exchange, LLC Rule Certification
Submission Number CFE-2005-30

Dear Ms. Webb:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended ("Act"), and §40.6(a) of the regulations promulgated by the Commodity Futures Trading Commission under the Act, CBOE Futures Exchange, LLC ("CFE" or "Exchange") hereby submits a new rule that sets forth CFE's Gas At the Pump ("GAPP") Futures Market-Maker Program ("Market Maker Program"). The Market Maker Program will commence on November 1, 2005.

CFE is not aware of any substantive opposing views to the Market Maker Program. CFE hereby certifies that the Market Maker Program complies with the Act and the regulations thereunder.

* * * * *

The Market Maker Program, to be added as Policy and Procedure IX to CFE's Policies and Procedures, is as follows:

CFE Policy and Procedure IX. CFE Gas At The Pump Futures Market Maker Program

Trading Privilege Holders (TPHs) may apply to the Exchange for appointment as a market maker in CFE Gas At The Pump futures contracts (GAPP Futures). Any TPH that desires to apply for market maker status should submit an application in the form of a letter outlining the organization's qualifications and commitments.

The Exchange may approve up to five TPHs as market makers in GAPP Futures under this Program. TPHs shall be selected by the Exchange based on the Exchange's judgment as to which applicants are most qualified to perform the functions of a market maker. Factors to be considered in making this selection may include, but are not limited to, satisfaction of the qualifications listed below as well as any one or more of the factors listed in Rule 515(b), as applied to market maker applicants instead of with respect to DPM applicants.

The following describes the qualifications, obligations, incentive, and appointment term under the CFE Gas At The Pump Futures Market Maker Program. The obligations and incentive listed below are with respect to each of the GAPP Futures for which a TPH is appointed as a market maker under this Program unless otherwise specified.

Qualifications

- Experience in trading options and/or futures in energy related contracts.
- Ability to automatically and systemically provide quotations.

Obligations

- For no less than 65% of the available trading hours in each calendar month, provide continuous bids and offers in two contract months.
- Provide an average quoted size of no less than 10 contracts (over a calendar month) and provide a minimum quoted size at all times of at least 1 contract.

These obligations are subject to relief in the event of a fast market on the Exchange in the applicable futures contract, a fast market in a related futures product, or other unusual market conditions (to be determined solely by the Exchange). Under fast market or unusual conditions, a market maker is expected to quote competitively using its best efforts.

The Exchange may terminate, place conditions upon, or otherwise limit a TPH's appointment as a market maker under this Program if the TPH fails to perform its obligations under the Program. However, failure of a TPH to comply with its obligations under this Program shall not be deemed a violation of Exchange rules.

Incentive

- Payment of \$0.50 per executed contract, with a monthly cap of \$15,000 per TPH in the months of November and December 2005, and a monthly cap of \$6,000 for January through April 2006.

Term

- Each market maker appointment under the CFE Gas At The Pump Futures Market Maker Program will expire on April 30, 2006. The Exchange may determine to extend the term of an appointment, allow an appointment to expire, or replace this Program with a different market-maker program.
